SEMI-WEEKLY SUN, ST. JOHN, N. B., MAY 17, 1899.

MISPEC PULP MILL It Will Employ 200 People and the pulp will pass on to the first screens and from them to the paper Create Quite a Village.

Description of the Mill and of the Process By Which Pulp is Made.

Eight Million Feet of Lumber Ready to Be Manufactured hen the Mill Starts.

that schooners can go there with coal While much has been written with and large vessels can run up to the regard to the pulp mill at Mispec, the wharf to bring the pulp here for shiperection and equipment of which are ment. about being completed by the St. John That there is ample water power to Sulphite Pulp Company (Ltd.), the run the mill is apparent. Mr. Mooney people of this city and province have has darnmed the stream at a spot where the greatest power possible to be obtained can be had. The dam, but a very inadequate idea as to the extensiveness of the establishment or which is built of solid masonry, is 54 the important place it will soon take in the industrial life of this section of feet high and 240 feet long at the top. the country. The buildings them-Its length at the bottom of the gorge selves are finished and only the finis 80 feet. It is 120 feet wide at the base and targers off to eight feet at the top. The stone work is faced with ishing touches remain to be put on the machinery. The mill is what is known as a 30 ton mill, that is, its output with the machinery at present timber on the water side. The flume, which is made of iron, is five feet in in it will be 30 tons per day, but the diameter. It leads from the dam on gentlemen who have had to do with the surface of the ground down to the its erection have in all things shown water wheels in the mill, and is 830 feet long. There are four water wheels in all, one for each department, that they were the right men in the right place, and in none more so than when they made the provision they which will develop 600 horse power. In have made for increasing the capacaddition to this the company have a 250 horse power compound steam en-gine as an auxiliary in case the stream ity of the manufactory. Additional machinery can be placed in all the gets blocked up at any time. In the boller room they have 500 horse power of steam bollers for use in the cooking and drying of the pulp. A pipe runs, through the principal buildings and the mill's output greatly sugmented without any changes in the buildings themselves. Experts from the United States who have looked over the establishment through the flume, by means of which say it ranks second to none on the the water required for the boilers is continent: indeed, there are men who taken into the mill. have made pulp mills a study for years who express the opinion that the Mispec mill is the most convenplant has been put in. There are 350 incandescent lamps distributed iently arranged place of the kind they throughout the establishment, and the have ever seen. The mlil was planned yards will be lighted by 10 arc lamps. by M. F. Mooney, who was for a time The mill is fitted with steam heating the manager of one of the pulp mills apparatus, and there is an excellent at Chatham. It was built by B. system of automatic water sprinklers Mooney & Sons, of which firm M. F. for use in case of fire. Two pumps have been installed, each of which Mooney is a member. Having made the necessary arrangements for the site, Mr. Mooney sent the plans to Scotland, where the scheme found will throw 1,000 gallons of water per minute. The water for the sprinkling apparatus is stored in tanks in the favor in the eyes of a number of capitower of the digestor building, which talists. These gentlemen sent for Mr. have a capacity of 20,000 gallons. Mooney, who in a very short time in-There is along the banks of the Misduced them to join with his firm in pec stream an abundant supply of the erection of the mill. ham University.

be opened up and next to the willier

or sand trap to be further cleaned, and after that to the stuff chest in

machine, which will run it out and

machine, which will run it out and dry it in sheets similar to paper. At the end of the last mentioned ma-chine there is a reel which will wind the pulp up into rolls. The slitting and cutting machines having done their part, it will go into the baling press, where it will be made ready for shipment. The facilities for shipping are excel-lent. A large wharf has been con-structed alongside the mill where BIRMINGHAM, Eng., May 12 .- At a meeting of the committee of Bir-mingham University today the following resolution was adopted: "On behalf of the promoters of the establishment of the University of Birming-ham and in the names of the inhabi-tants of this city the committee most structed alongside the mill where there is 20 feet of water at high tide. gratefully accepts the magnificent offer of Mr. Carnegie to donate £50,000. and begs to assure him that public appreciation of his generosity will be The mill is almost within a stone's throw of the mouth of the stream, so incalculably enhanced by the thoughtful and kindly spirit in which the offer was made, and by the intimate personal connection of the donor with the special interests of the Midland District, as practiced in the community which has justly received the designation of the Birmingham of America."

After stating that the committee al-ways intended that special attention should be given to scientific training and research, and that the university should be specially adapted to the re-quirements of modern necessities and progress, the resolution concludes:

"The committee welcomes with great satisfaction the views expressed by Mr. Carnegie, founded upon the au-thority of his wide experience as confirming and strengthening their own judgment, and hey pledge themselves that the munificent donation shall be strictly applied for the purpose he has mdicated.

A vote of thanks was also recorded to Joseph Chamberlain and to the anonymous donor of £37,500.

IN ONE BIG CONVENTION.

Christian Endeavor Societies of the Dominion 'to Meet in Montreal.

A most complete electric lighting Montreal, from October 5 to 9, will be the scene of a great Christian Endeavor convention, at which the whole of the provinces of the dominion will be represented. Hitherto the various provinces have held their own conventions, but this year the provinces of Quebec and Ontario will merge their own conventions in a national gathering, which will be attended by representative bedies from New Brunswick, Nova Scotia, Prince Edward Island, Manitoba, the Northwest Territories and British Columbia. The convention is the outcome of the inter-provincial convention held at Ottawa three years ago, at which a Canadian Council of Christian Endeavor directors was appointed to undertake the work of or ganization.

The local societies or unions will make their own arrangements as to transportation, but special facilities for cheap conveyance will be offered by the railway companies. The programme of the various meetings has not yet been drawn up, but each day will have its special meeting, for the discussion of various phases of Christian work, at which papers will be read and reports submitted.

THE DRIVES. (Thursday's Gleaner.) Word comes from Boiestown today that the main South West Miramichi drives are coming along splendidly; logs are running steadily and thickly past Boiestown; that the water is at a good pitch, and lots of snew yet in the woods, and that the probabilities are that the Miramichi drives will all the brought out early and without diff culty. On the Nashwaak, Gibson's drives are now down to the settlement, and in two days more will be in the booms. This is said to have been an exceptionally favorable season for stream driving on the Nashwaak, and never before have Gibson's logs been brought out in so short a time and at cheque from Mr. VanBuskirk, grand so little expense.

ed by the nearty congratulations and NOVA SCOTIA NEWS. the best wishes of their numerous friends. On their return they will make The Hill in Cape Elizabeth their future home.

MRS. FERGUSON'S ESTATE.

Under the will of the late Mrs. Sarah J. Ferguson, the freehold lots of land and residence thereon, situ-ated on Duke street and at present occupied by Rev. Mr. Black and Leslie White and John R. Bell, are left in trust to the trustees of St. Andrew's church. The terms of the trust are that the property be sold and the invested in government proceeds bonds or other safe security. The income from the investments is to be divided yearly as follows: One half is to be paid to Mrs. Jane H. Fowler of Moncton, one quarter to Miss Mary Griffiths of Woodstock, and one quarter to Miss Georgie Hanford, daughter of the late Thomas Hanford of St. John. On the death of any of the beneficiaries, her interest is to be divided equally among the survivors. On the death of the last survivor the invested trusts shall continue to be held and managed by the trustees of St. Andrew's church and their successors forever, and the dividends and interests arising therefrom shall In the discretion and in the sole dein the discretion and in the sole de-cision of the trustees be paid over and distributed among respectable and de-serving widows and spinsters of small means, or no means, of evangelical Protestant creed. This bequest is to be known as the "Ferguson fund." The trustees of St. Andrew's church have accepted the trust, and will at once sell the property. An offer \$3,000 has been refused.

AN OLD ST. JOHN MAN.

(Vancouver News Advertiser.) SENTELI-On April 30th, at the family residence, Grove Crescent, Vancouver, Edward Sentell, in the 91st. year of his age, formerly a resident of St. John, New Brunswick.

Another descendant of the Empire Loyalists, who peopled the maritime provinces, nas passed away by the leath of E. B. Sentell, at the grand old age of 92. He was born on June 26th, 1807. When a young man he removed from St. John, N. B., to Loch Lomond, and he lived there until he came out to Vancouver to join his sons in 1887. Thus the good old man was a picneer not only of Loch Lomond in the province down by the Atlantic, but also of this western city on the Pacific. "He was a really good father," so said one of his sons yesterday, and no man could desire a better epitaph. It was at one o'clock on Sunday morning that he died-just

drifted into death. The funeral took place from the te sidence of his son, Edward Sentell, Grove Crescent. The deceased left a

wife and seven children.

WEDDED IN MONCTON.

A very pretty wedding took place Monday evening at 6 o'clock at the residence of George Milne, Railway avanue, when James McCleave of the Windsor hotel was united in marriage to Miss Mildred Milne. Rev. E. B. Hopper performed the ceremony in

HALIFAX, May 12 .- Able bodied seamen of the British navy cannot be flogged, but this prohibition, it seems, does not apply to apprentices, for today two boys on the cruiser Comus

were flogged for attempting to desert to the United States. The Moore line steamer Pearlmoon eached here this morning for coal. She is on a voyage from Mobile for Europe with a cargo of 3,000,000 feet of pitch pine. Her first officer was suffering with southern fever and a_ue.

An early closing movement is on foot in this city. Its design is to have places of business, chiefly wholesale, open at 7 in the norning and close at 5 in the afternoon. Most of these places now observe the Saturday half holiday.

Union steamers employed in loading the J. D. Everett and the Vision, lumber vessels in this port, went on strike today. The men claim that they are underpaid. The price for steamers is \$2.50 per day, while sall-ing vessels pay \$1.50 to \$2. The laborers demand steamer wages, claiming that the work is just as hard. An outside gang was put to work on the J. D. Everett, and the agents hope to fill the other vacancies

WOLFVILLE, May 11.-It has been felt for some time at Acadia that the building used for the meetings of the Athenaeum and other societies in connection with the institution, and the reading room, was altogether inade-

quate for the growing needs. After considerable private discussion, a mass neeting was held by the students in College hall on Wednesday morning, to bring before the faculty a resolution to the effect that, in view of the facts of the case, the students should raise \$5,000 for the erection of a brick building, to be placed on the site of the old building. Dr. Trotte", Dr. Sawyer and Principal Oaks and a number of students warmly supported the resolution, and it was enthusiastically passed. The following committee was appointed to carry out the scheme: J. W. Ferris, White's Cove, N. B., president of the Athenaeum society; Miss Edna Cook, Canso, president of Propylaeum society; John A Glendenning, Moncton, president of Y. M. C. A.; Zella Clark, P. E. I., president of J. W. C. A.; Charles Crandal, Wolfville, president of A. A. A. A.; Dr. Trotter, permanent treasurer, and Instructor Cecil C. Jones, permanent

Class day in college seems to assume more importance each year. This will be a marked feature of the commencement exercises at Wolfville. The adsress of welcome will be given by the presinent of the class, Aubrey B. Webster, Coldbrook; history of the class during the four years, Frank M. Pidgeon, St. John; Prophesy, by Charles F. Crandal, Wolfville; valedictory by Edwin Simpson, Belmont, P. E. I.

the machine room and one floor below

the digester department, which places

the blow tanks sufficiently below the

digestors to cause the pulp to flow

by gravity into them from the diges-

tors. The following description of the

process through which the wood pas-

ses from the time it is taken into the

mill till it is ready for shipment as

pulp will be read with interest: The

logs will be taken up into the wood

room by means of a patent haul up,

and cut by two steam jump saws into

lengths of 2 feet 6 inches. These

pieces will be carried by a conveyor

to the barkers' machines, fifted with

knives which will remove the bark.

be moved along on a conveyor to the

chippers, machines which will cut

them up into chips. Immediately un-

der the chippers and on the floor be-

neath are chip breakers which will

treak these chips up into the desired

the mill going when increased to its

fullest output for 24 hours. Thus the

management will be able to continue.

the mill in operation for a day at

least in the event of an accident in

the department devoted to the pre-

paration of the wood. The chips will

be placed in the digestors, two im-

mense iron tanks, each capable of

turning out ten tons of pulp at each

cook. The digestors will be filled with

chips and 20,000 gallons of sulphurous

acid put in. Then the digestors will

be made steam tight and steam will

be admitted at the bottom and the

point and kept at that till the

temperature brought up to the desir-

wood is cooked into pulp, which will

occupy from 10 to 14 hours. The time

will vary according to the quality

of pulp wanted. The pulp will flow

from the digestors to the blow tanks,

which are 20 feet beneath the bottom

of the digestors. These tanks are

WASHINGTON, May 12.- A cablegram was received at the Japanese legation today announcing the death of Gen. Viscount Kawakani, chief of the headquarters staff of the imperial army of Japan. Gen. Kawakani rendered his country brilliant services during the Chino-Japanese war as vice chief of the headquarters staff. He was regarded as one of the most famous soldiers of his time

J. G. Byrnes, Kentville, received \$230 for 35 barrels of apples sent to the English market in March. This is an average of \$6.75 ner barrel.

hard pine wats. 28 feet long and 18 feet in diameter. The pulp will be washed in them and the acid and resinous I. C. R. Baggemaster Fred Palmer of St. John has been promoted. He ran out of Moncton as special conducmatters removed. Then it will go to ran out of Moncton as spectrum the pulp opener where the fibre will tor last week.-Transcript.

NOT MODERN ORDNANCE.

The two guns destined for St. John, which arrived a few days ago at. Montreal by the str. Montevidean, are not the 4.7 inch quick fire guns which it was expected would be procured. They are 40 pr. R. B. L. or Armstrong guns, and while quite a serviceable weapon are by no means modern. Our local artillery, however, will appreciate them as quite an advance from the obsolete smooth bores which occupy our forts. It is to be regretted, however, that such guns as these which are liable to easily get out of order in action, should be provided, cspecially when more modern ordnance would not be much more expensive. The new guns will be received at the stores department here

LUMBER EXPORTS.

Since the first of January the lumber exports to this date from St. John to United States ports have been, in

round numbers, as follows	1 - BUT T
Long lumber (feet)	
Laths (pieces)	37,000,000
Shingles (pieces)	
Piling (pieces)	2,271
Cordwood (cords)	520
Vessels other than w	inter port

e since the first of the year taken to British ports over 18,-000,000 sup. feet of deals, etc., and there have also been shipments to South America, West Indies and Canary Islands.

WEDDED IN PORTLAND.

(Portland Press.) Wednesday afternoon at four o'clock Everett C. Dyer of this city was united in marriage to Miss Jessie Florence Massie of Fredericton, N. B. The matriage was solemnized at the home of the officiating clargyman, the Rev. A. H. Wright of the St. Lawrence Congregational church in this city. The contracting parties were the recipients of many elegant and useful presents. A carving set and a handome centre table from the Standard Oil company, in the office of which Mr. Dyer is a clerk; a fine Morris chair

from his brother, and many other valuable gifts in silverware, were among the presents. Mr. and Mrs. Dyer left the city at 5.30 p. m. for a two weeks' wedding trip in the provinces, follow-

the presence of the immediate friends of the interested parties. The bride was becomingly attired in a travelling suit of grey with white satin trimmings. The bride was unattended. After the ceremony the guests were ushered into the dining room, where a sumptuous repast was served and immediately after the happy voung couple were driven to the I. C. R. depot, taking their departure for St. John, Bridgetown and Annapolis Valley. The bride was the recipient of many handsome presents, amous others being a gold oracelet, the gift of the groom, a gold watch and chain from Mr. and Mrs. McCleave, and father of the groom .- Times.

WEDDED AT ESQUIMALT.

(Victoria Colonist, May 2.)

Among the passengers for Puge Sound by the fast and commodiour steamer George E. Starr this morning, are Mr. and Mrs. W. H. Harris of this city, en route to Portland Mr. Harvie, who is a member of the mechanical staff of the Times, was yesterday afternoon united in marriage to Miss Mary J. Tracey, late of North Sydney, C. B., the ceremony being performed at the little parish church in Esquimalt, by Rev. Father Nicolaye.

GOOD PRICE FOR LOGS.

Logs seem to be in brisk demand at Springhill just now, says the Fredericton Herald. Already quite a number of rafts have been brought down and were quickly disposed of by the owners at prices ranging from \$7.50 to \$8.10 per thousand for spruce. Last year spruce logs sold at Springhill as low as \$6.50 per thousand. Hemlock legs are new worth from \$3.50 to \$4.

DEATH OF MRS. ALLER TRUE-MAN.

Mrs. Alder Trueman died somewhat suddenly Monday afternoon, says the Sackville Post. Deceased had been an invalid for several years and this winter she had been very poorly, but she had seemed much better during the last week or so, and her friends were led to believe that she was out of danger. The deceased lady was a Miss Jewett from the St. John river. She leaves a husband and one daughter;

N. B. MEN IN THE WEST.

for George McKean. The captain seems to have had an impression that he was chartered for West Bay, C. B., and called at Halifax to make sure. Five men of the Mendota's crew deserted on Saturday morning and have not been re-captured.

Pilot boat Silver Spray, of Black Rock, capsized off Isle Haute on Thursday of last week. The vessel filled and Pilot Anderson and his two sons took to their boat and landed at Advicate Harbor. The Silver Spray was subsequently picked up and towed to Hall's Harbor.

S. S. Wilderspool, McGregor, arrived at West Bay yesterday to load deals for W. M. McKay of St. John.

The Newville Lumber Co. and Pugsley Bros. are loading the brigt. Ora, Saunders, with pine lumber for the West Indies.

Sch. Urbain B., Llewellyn, is loading planed hemlock boards for Sound ports. The Newville Lumber Co. are the shippers. The Newville Lumber Co. have chartered the sch. Eva Stewart, Moore, to load planed hemlock boards for Sound ports.

Newton Pugsley of Parrsboro and Capt. Greenwood of River Hebert have purchased the sch. Alaska, 118 tons register, from Thomas Egan of Sackville. The Alaska will be commanded by Capt. Greenwood.

The new pipe organ for St. George's church has arrived, and will be put up next week. It is the first pipe organ there has ever been in the town. George McKean of St. John was in town two or three days last week looking after his lumber interests here. C. T. White of Sussex, formerly of Apple River, was in town yesterday looking after his lumber business in

this county. HALIFAX, N. S., May 14 .- The packers on the coast of Nova Scotia from Lunenburg to Canso say the catch of lobsters this season is very much smaller than last year, owing chiefly to routh weather. Less than half the usual quantity have been shipped alive to American ports, but this is partially due to the fact that packers prefer to can all they get rather than ship them in the shell. With improved weather they now

hope for oetter results. Quite unexpectedly information was received tonight that the new flagship for the British North American squadron, the Crescent, with Admiral Bedford, the new commander-in-chief, was on the way to Halifax and will probably arrive Wednesday. The ship was not expected for a month, yet. It is also understood the new cruisers Psyche and Tribune accompany the flagship, but that they will proceed to Bermuda.

POINTER FOR MR. FLINT, M. P.

At a special session of the Yarmouth County Baptist quarterly meeting held at Arcadia, May 4th, resolutions re prohibition, and the attitude of the Baptist churches represented toward such a measure, were moved by Rev. P. R. Foster, seconded by Rev. M. W. Brown, and after a lengthy discussion ressed unanimously.

The resolutions call for the enactment of a prohibitory law.

LARGE POTATO SHIPMENTS. (Fredericton Gleaner.)

During the past month about 5,600 barrels of potatoes have been shipped from Predericton to Boston and adoining markets. The largest ship-:ers have been :

E. Estabrooks 3,600 barrels. J. A. Humble 1,000 W. T. Estey 800

600

The last named firm bought their potatoes in York county and shipped them from Fredericton. An average prive of \$1 per barrel was paid for the tubers, so that the export means considerable cash in the pockets of the farmers. Si ipments are not yet over, E. Estabrooks sending forward a carload today. About 100 barrels of turnips have also been shipped from

The Bible is still far and away the most widely circulated book in the world, and the demand for copies of it goes on increasing, every year.

here to Boston.
