PRETORIA, Dec. 25.—The formation of a new brugher corps, to be known as the National Scouts, has aroused great interest among the surrendered burghers. In view of numerous meetings and applications, Lord Kitchener has authorized the creation of fresh wings to operate in the southern and eastern Transvaal, under prominent Boer leaders elected by the burgher

themselves.
It is stated that much of the recen success of the British is owing to the co-operation of Cellier's and Cronje's nands, acting under Gen. Bruce

LONDON, Dec. 24.—Lord Kitchener, in a despatch from Johannesburg dated Saturday Dec. 21. sends reports of sharp fighting in the Orange River and Transvaal colonies. The engagements occurred on Dec. 18, 19 and 20, at points widely apart. The casualties, so far as known, aggregate about 150, equally divided, but heavy British losses, the totale of which have not yet been reported, have occurred in the Transvaal. In this last mentioned fighting 200 mounted infantry, in the neighborhood of Beginderyn, were divided into parties and were searching farms when they were attacked by 300 Boers and 40 armed natives under Commandant Britz. The Boers charged determinedly in overwhelming numbers. The British casualties were severe, but no details have been received.

overwhelming numbers. The British casualties were severe, but no details have been received.

Lord Kitchener also reports that during General De Wet's attack on the British force commanded by Generals Dartnell and Cangbell, at Langberg, Dec. 18, the Boers charged brawely and fought desperately for several hours. General De Wet was driven off with the loss of 20 men. There were 12 casualties on the side of the British.

On Dec. 20, Gen. Bothn, with 300 Boers, surprised Colonel Damant's advanced guard at Tafel-Kop, Orange River Colony. The Boers rushed a kopje commanding the main body and the guns. But Colonel Damant railied his men and drove the Boers from the kopje. The British casualties were heavy. Damant was dangerously wounded, two officers and swenty men were killed and three officers and seventeen men were wounded. The Boers lett six dead on the field and dispersed. The British pursued the enemy and captured a number of prisoners, including Commandant Keyter.

Later the Boers, under a flag of truc, asked permission to remove their dead. They admitted having buried twenty-seven men. In time fight at Tafel-Kop, the Boers dressed as British yeomen, engaged in a splendid race with the Etitish in the attempt to be first in gaining the crest of the kopje. In the eastern part of the Transvast coloney Colonel Mackenzie attacked Commandant Smit's force of Boers, at Lake Banagher, on Dec. 20, killed six and captured sixteen of the enemy. Commandant Smit escaped.

A force of Boers during the night of Dec. 19 attacked the British post at Elandspruit, but the burghers were driven off, leaving eight men killed, including Commandant Krieze. Field Cornet Mahon, who was wounded, and three other wounded men were also left on the field. Other wounded Boers were carried off in blankets. The British casualties were seven killed and six officers and eighteen men wounded.

No further details have been received here up to a late hour of the fighting in South Africa. The news received yesterday convinces the newspapers that it is hopeless to expect peace in the immediate future. That this is also the government's view of the situation is apparent from the fact that between now and January the drafts of troops proceeding to South Africa from home and the colonies aggregate 15,000 men.

OTTAWA .

OTTAWA, Dec. 25.-Christmas at the capital passed off in the usual quiet manner. Services were held in nearly Protestant and Catholic churches. The weather was pleasant. An advance of 35 pounds sterling has been made at the request of the imperial government to each officer of the Mounted Rifles, in order that he may purchase his own uniforms. There was profound astonishment at the militia department, but no protest could be made, as the regiment is purely an imperial one, and all officers are to be commissioned in the imperial army, The officer in question is a friend of the minister's, and it is hinted he was refused a commission in the Rifles through the influence of an officer of

Second Mate of Bark St. Mary

Remarkable Story of Trade and Adventure in South Seas

NEW YORK, Dec. 26.—Frank Swan, second mate of the bark St. Mary, which arrived today from Rio de Janeiro, tells a story of adventure during a previous voyage to the south seas which would have delighted the heart of Robert Louis Stevenson. During that voyage he was second mate of the schooner Alice Hazeltine, the command-

the schooner Alice Hazeitine, the commander of which—Capt. Sacx—is his brother-in-law.

"We sailed out of San Francisco with eight in the crew to trade for copra, pearl shells and pearls," says Swan.

"We had as passengers Consul Morgan and his wife, for Jaiut, in the Marshall group, and Mrs. Rickes, wife of an Austrian trader, and her 16-year-old maid, Katie Ward of San Francisco. First Mate Anderson and the maid soon fell in love, and they agreed to be married at the end of the voyage.

"When we arrived at Jaiut we found that the native chief had been scrapping with the Germans over the collection of heavy taxes and had been driven in to the mountains. We gave him a supply of repeating rifles and ammunition in exchange for pearls. He offered to give us a wife apiece, but we declined them. The German port captain demanded pilot and harbor dues from us, but Capt. Sacx armed us all around and set sail and defied the German to stop us.

"The port captain gave chase and hove us to, but Capt. Sacx ordered him overboard into his camoe, and away we sailed for the Carolines. When we got around to Butaritars, Gilbert, three months later, I found Katie Ward crying on the beach. She said her mistress was planning to marry her to the king of the islands. I notified Anderson, and he went ashore and brought her aboard. "Fifty fighting canoes, filled with natives, followed him, but Capt. Sacx quickly set sail, and, favored by a heavy fog, soon left them behind.

"On our return to Jahrif. Anderson and Ratie were married by the consul and

captain.

"We kent the chief chained to a ring bolt in the bulwark for 10 days. Then his subjects came out and paid us in pearls and capra.

"At Cartens island Capt. Saex sent Mc-mullen, a Boston seaman, and me in shore with a whaleboat to trade, but we get, a squall inside the lagoon which drove us on a reef, and we anchored with a riding light 20 feet from shore.
