The Tray, holding 40 glasses, is made of Aluminum. After careful research it has been impossible to find a material more desirable.

"So quickly is one church after another added to those using the Individual Communion Cups, that until we stop to reckon up the number, do we realize what headway this reform has already made."—Congregationalist.

Henry M. King, D. D., of Providence, says: "The ordinance is a spiritual joy NOW to many who shrank from it before."

"Every argument would seem to be in favor of the individual cup,—cleanliness, health, taste,—and (now that the experimental period is past, and we have a really good and working outfit) even ease and convenience in the administration of the ordinance. Those churches which have adopted it are enthusiastic in its praise. It is the universal testimony that the Lord's Supper takes on a new dignity and beauty by the use of the individual cup"—J. K. Wilson, D. D.

Within our own borders several of our churches are using or have ordered the individual cups. Among these may be named Temple, Yarmouth; Hantsport; Brussels Street, Germain Street, St. John. A number more have been enquiring as to price and will decide the matter at once. Judging from the experience of the churches now using them the change is a wise one.

Let me give you prices and particulars by letter. Tell me how many communicants you wish to supply and whether or not you have plates. If you have these the new needs will be for trays and cups and a filler, only. These are not expensive. Circulars and all information cheerfully given.

These are of uniformly high grade, embracing choice works of history, chiefly Canadian, which, while fascinating, is yet wholesome and highly instructive. Among their recent announcements are, "The Biography of a grizzly," by Ernest Seaton-Thompson, author of "Wild Animals that I have known," and "Joan of the Sword Hand," a stirring historical romance by S. R. Crockett.
