## CORNER STONE Laid FOR ST. JOSEPH'S NEW WING

Bishop LeBlanc Performs Ceremony in Presence of Large Gathering.

MAY ESTABLISH AN AGRICULTURAL COLLEGE

Fine Weather and Attractive Programme Drew Thousands to Encaenia—Eloquent Addresses Feature of Day's Proceedings.

The encaenia exercises were marked by features of particular interest to the student body and former students and friends of the institution.

His Lordship Bishop LeBlanc presided. The programme was of exceptional merit, both the valedictory and addresses by the graduates being practical and eloquent.

The President's Address. President Lecavalier in his address to the students announced the plans in connection with the golden jubilee. He also announced that during the morning he had received two donations of \$1,000 each in aid of the new building fund.

Another important announcement was that it is the intention in the near future, when the new wing is ready, to establish an engineering course in connection with the university. This course will give students an opportunity to take the first two years of their engineering course at the university.

The closing exercises of St. Joseph's College, Memramcook, were carried out yesterday after one of the most successful in the history of the institution. ## KAISER AS APOSTLE OF WORLD PEACE

German Emperor Greeted Yesterday by Allied Sovereigns.

SPLENDID GIFT TO MARK HIS JUBILEE

Notable Gathering in Berlin Yesterday—Kaiser Preaches Doctrine of "Sound Mind in Sound Body."

Berlin, June 17.—"The day of the people," yesterday, in the celebration of the completion of 25 years reign by Emperor William, was succeeded today by that of the allied sovereigns of the federated states of the empire, who, including the mayors of three city republics—Hamburg, Bremen and Lübeck—presented their congratulations to their colleague and leader at the castle.

Most of the rulers arrived in Berlin last night or this morning and gave the sons of the emperor a busy session in receiving them at the various stations.

They gathered at noon in the pillar hall of the castle, and then were present at a state banquet presided over by the emperor.

The pillar hall is not in that part of the castle ordinarily used for state functions. It is situated in the portion devoted to the private apartments of the imperial family and was chosen to enable the Empress Augusta Victoria, who is indisposed, to participate with the emperor in the reception of the German rulers.

The Prince Regent of Bavaria, acting as spokesman, said the emperor, as director of the foreign policy of the German empire, had shown himself to be an upholder of peace and at the same time an upholder of the emperor's might which was the safest guarantee of honorable peace.

The Prince Regent then spoke of the economic progress made during the twenty-five years' reign of the emperor or Germany and praised his majesty as the patron of every moral, noble and beautiful impulse in the empire.

The emperor was then presented by the Prince Regent with a table centrepiece in the shape of a ship in memory of the history of the institution. The programme was held in Letombe Memorial Hall and the attendance was both large and representative and included distinguished men in the clergy and professional life.

Following the services, the priests, students and visitors repaired to the Memorial Hall, where the closing exercises were held.

## FIREBIG RESPONSIBLE FOR \$66,000 BLAZE AS EVENING

Brick Block on Dock Street Occupied by Richard Sullivan & Company Badly Gutted—Evidence Shows Fire was Plainly of Incendiary Origin.

The city is in the hands of fire bugs and no sooner do the police capture one, and the minds of the citizens are at rest than another fire of incendiary origin comes to light. One fire bug is spending a term for treatment in the Hospital for Nervous Diseases, while the second is now in jail being held for the preliminary hearing which is being conducted by Magistrate Ritchie.

The latest bug to get in his work has not been captured, but as the result of his efforts the building on Dock street, owned by E. R. Owens, of London, England, and occupied by R. Sullivan & Co., was badly gutted last night with a damage to building and stock amounting to between \$50,000 and \$60,000.

It was about nine o'clock when John Kinsella and William Walsh, who were standing on Dock street talking to a Standard reporter saw flames bursting through the roof of the building. They hastened at once to box 5 on the corner of Union and Dock streets and sent in an alarm. The department arrived on the scene quickly, and at that time the flames had taken charge of the third floor and were pouring through the windows and roof, while the smoke was building up in dense volumes.

The greater part of the fire was in the centre of the building, where there is light and elevator shafts, and it appeared to be working towards the rear.

Evidence of Incendiary. District Engineer Charles Brown happened to be passing in a street car about the time the fire was discovered. He rushed in through an iron gate and an alley to the rear of the building. It was at this time that Engineer Brown discovered that the fire had been the work of an incendiary. The iron gates are always fastened, it is said, with a chain at night, but last night these gates were not closed, and when he got to the rear of the Sullivan warehouses he found the rear door open.

The Sullivan insurance is held by a number of insurance companies, which include those represented by C. W. Frink, of the Commercial, Mr. Jarvis, C. V. Hope Grant, Lockhart and Ritchie, White and Calkin and the Guardian. The insurance on the Sullivan stock, which was so badly damaged, had a gross insurance on it amounting to \$52,400 and this is made up as follows: \$1500 on improvements, \$49,900 on the stock, \$1000 on furniture and fixtures and \$1000 on a small hotting plant. The above insurance is outside of the building insurance.

G. O. D. City is the agent in this city for E. R. Owens, the owner of the building, and although it could not be learned last night just how much insurance is carried, it is believed that the loss will be fully covered.

Richard Sullivan, the merchant whose premises were burned out, was telephoned to shortly after the fire was discovered and last night he stated that he could not tell just how much the damage would amount to until he was able to enter the building and go over what stock, perhaps, was not destroyed. There is a certain amount of stock on the lower floor which was not badly damaged, but the building was pretty well gutted and the loss to the contents will very nearly be total. It was estimated last night, however, that the damage done to the building and contents will easily reach the large sum of \$60,000.

## ARSON SQUAD SENT TO JAIL

London, June 17.—Justice Phillimore passed sentence on the militant suffragettes as follows:

Miss Annie Kenney, eighteen months; Mrs. Bencie Saunders, fifteen months; Miss Harriet Kerr, twelve months; Miss Rachel Barrett, nine months; Miss Agnes Lake and Miss Laura Lemon, six months each; and Edwy Clayton, the chemist, twenty-one months.

All the prisoners were committed to the third division which entails hard labor. Each defendant was ordered to pay one-seventh of the cost of the prosecution and was bound over to keep the peace for a year after the period of imprisonment.

The Karik cruised in the harbor this morning adjusting compasses, and at three o'clock cleared for the north. The pilot who had the honor of taking the Karik out was Captain Joseph Gosse, an old Newfoundland man who will see the exploration ship as far as Cross Channel.

There was an interesting conversation aboard the Karik yesterday afternoon when a detachment of six digitaries and a number of aldermen present, and four Canadian flags to the captain of the vessel.

Mr. Stefanssen was charged with the safekeeping of the flag which was planted on any land that comes within the British Empire as the result of discovery made by the expedition.

## NEED TIBBITE TO STOCK RAISING IN THE WEST

Hon. Mr. Burrell Names Live Stock Commissioner for Prairie Provinces.

DR. J. P. CREAMER TO GET THE POSITION.

Motive for Appointment is to Foster Industry Which Has Shown Decline—Appointee Has Had Wide Experience.

Ottawa, June 17.—Dr. J. P. Creamer of Q'Appelle, Sask., has been appointed by the Hon. Martin Burrell to do duty as western representative of the live stock branch of the department of agriculture. Dr. Creamer's title has not yet been finally determined, the position being a new one, but he probably will be known as Western Live Stock Commissioner.

The reason for the appointment, which is regarded here as an important forward move, is the steady decline of recent years of the live stock industry in the west. Mr. Burrell's motive in making the appointment is to initiate a vigorous campaign to foster the industry and encourage mixed farming.

Dr. Creamer is a native of Middlesex County in Ontario, and in 1888 went west, after graduating from the Ontario veterinary college in Toronto. During the last thirty years he has practiced his profession between Regina and Q'Appelle and has an intimate knowledge of the prairie provinces and of the western live stock industry, with which he has for years been closely identified.
