Some Canadian Political Topics

Sir Sam Hughes Explains Defeat of Hearst—Speculation as to Premier Gouin's Successor—Moncton Labor Talk Politics.

Sir Sam Hughes has written a letter giving his views on the causes of the defeat of the Hearst Government in Ontario and on the political situation generally. Sir Sam is a total abstemious from alcoholic beverages and his orders while he was Minister of Militia did much to reduce the consumption of intoxicants in the military camps. After referring to his record in this connection, he proceeds to say that the action of the Hearst Government in failing to keep as touch with the people and giving way before a "bunch of squitters" was the cause of its defeat. He writes: "The Hearst Government, yielding to financial crises, passed a crude, harsh, drastic and repressive measure on prohibition which annoyed and angered hundreds of thousands of Ontario's best citizens—not of the drinking class, but of that great big, broad, self-controlled class that makes for the up-building of any land. The principle of 'personal liberty' which is the foundation rock of British liberty or nearly two thousand years was cast aside, and tyranny, repression, mis-trust and humiliation took its place. This untimely and crude action of the Hearst Government gave a great impetus to the moonshiner, the bootlegger and the drug agent, and in a very few months assisted in developing an utter contempt for the observance of honest law and order. Indeed it ranks almost on a par in training people to break the laws with the famous Military Service Act and its kindred orders. In this connection, the Hearst Government made hundreds of thousands of enemies. . . . Then the referendum leaders were mostly working with the discordant elements against Hearst, so that the unfortunate man who gave the women the vote; who created the farmers' clubs; who passed the referendum; who tried to please the soldiers and who pandered to the Labor leaders, 'got it in the neck' from each and every one of them."

Farmers and Labor.
(Montreal Gazette).

A meeting of representatives of the O.P.U. and the Independent Labor Party has been held at Ottawa, at which, as regards the eastern section of Ontario at least, a willingness that the two organizations should co-operate was shown. The meeting of the Ontario Legislature must meet drawing night, and then will come the test of the new Government's strength. It is a coalition government, the portfolios being divided between Farmers and Laborites, whose aims heretofore have not been exactly the same. The combination, with the soldier representative, will have a bare majority in the Legislature, and while the Liberals and Conservatives are not likely to unite to overthrow it, the chances of mishap are there. To make things as safe as possible, the union of the two divisions is being made outwardly as strong as possible.

Prohibition in B. C.
(Montreal Gazette).

Mr. Oliver, premier of British Columbia, is finding his surroundings somewhat uncomfortable. The prohibition law of the Pacific Coast provinces has such large loopholes that \$150,000 worth of whiskey a month, it is estimated, passes legally through them, while some get by illegally. This is made a ground of complaint against the ministers. Mr. Oliver is reported as declaring that he "does not propose to continue in its present impossible condition of being hammered by all sides in attempting to enforce a prohibition law which the people do not seem to wish to respect. This is interpreted to mean that the people will be asked in a referendum to declare what they want. Sir William Hearst's efforts to enforce prohibition and their sequel have not been encouraging to ministers who seek to make their provinces as dry as the laws.

Guessing Gouin's Successor.
The opposition newspapers profess to believe that it is a foregone conclusion that Sir Lomer Gouin is about to resign as Prime Minister of the Government of the province.

Levesque says: "Without seeking to reflect in any way on the qualifications of the other candidates for the succession, we are of opinion that the Hon. L. A. Taschereau ought to be named when the retirement of Sir Lomer Gouin is officially announced. We have no particular affection for this Minister (Mr. Taschereau) but that does not blind us to the fact that, next to Sir Lomer Gouin, he is the most skilful politician in the Cabinet; and, at least during a period of transition, Mr. Taschereau ought, as a matter of duty, to accept the succession which is about to be opened."

"A High Flyer."
(La Minerve.)

"Sir Lomer Gouin will, according to all accounts, retire from the Premiership after the session. The Nationalists appear to have their eyes on Mr. Caron, and the Liberals are divided between Messrs. Taschereau, Perras and Turgeon. But there is Mr. Athanase David! He is flying high in an aeroplane, as it were, and his friends believe in this way he will arrive first!"

N. B. Labor Party.
The success of the Farmers in the Carleton-Victoria parliamentary bye-election has encouraged the labor men in New Brunswick to assert themselves, and at Moncton the other day Mr. Rogers, president of the Amalgamated Central Labor Union, urged members to organize for the coming election of a new Legislature. It was time, he maintained, for workers to unite the political field as well as the industrial so as to take their proper place in the councils of the nation. The effect of such action, in New Brunswick is likely to be limited. Only in St. John and Moncton is organized labor a serious factor in the political situation. The Moncton meeting served notice on other elements in the population that their help was not desired by passing a resolution pledging support to the building trades council in refusing to work on the T. Eaton building in the city while non-union men are employed.

MOTHER KILLS HER 3 CHILDREN AND HERSELF BY GAS

Infant in Family of East Side Baker Also Overcome, but Will Recover.

New York, Dec. 2.—Made despondent by the care of four children and her tasks in the bakeryshop conducted by her husband, Mrs. Louise Bosholt, of No. 1,963 Third avenue, yesterday killed herself and three of her children, Charles, six years old; Louise, three, and Henry, eighteen months, by gas in the kitchen of her home. Mary, two weeks old, was asleep in a crib in the front room of the apartment and is alive at the Reception Hospital, and is alive at the Reception Hospital, where last night it was said that she would live.

Bosholt told the police that she had had a trivial quarrel with her husband before he went to his shop to work and that he believed that she had grown despondent over the care of the four children. He recently had purchased the bakery, he said. The two eldest children had been out doing play in the afternoon and apparently the mother prepared supper for them when they returned to the apartment. When they were at the table it is believed Mrs. Bosholt opened all the jets in the gas range and sat down to await the result. From the position of the bodies on the floor it is believed that the children may have realized their danger and attempted to escape. The windows of the apartment were closed at the time. The condition of the father was reported as serious.

KOLCHAK SEEKS MORE SOCIALISTS IN NEW CABINET

Pepliaeff Instructed to Eliminate Influence of the Military Over Civil Matters.

Irkutsk, Nov. 24, (by the Associated Press).—Victor Pepliaeff, formerly Minister of the Interior of the Kolchak government, who has been entrusted with the formation of a new cabinet, has been instructed to organize one with the greatest possible socialistic tendencies compatible with Admiral Kolchak's stand against Bolshevism.

It is proposed to give larger powers to the recently created Zemstvo congress, and every effort will be made to placate the Cossack atamans and the Czechs. With this programme Admiral Kolchak hopes to be able to survive the crisis brought about by the collapse of his military campaign in the West and the outbreak of social revolutionary activities in the East.

In reforming the Cabinet it is proposed to eliminate entirely the influence of the military over civil matters, which is generally conceded to have been one of the notable weaknesses of the Kolchak government.

When the Kolchak ministers arrived at Irkutsk on November 19, with their armies fleeing before the Reds and the Galdis revolt progressing at Vladivostok, they found most serious opposition by the social revolutionary

SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia Relieved by "Fruit-a-tives."

Little Bras D'or C. B. "I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try 'Fruit-a-tives.' In a week the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous."

elements here to continuance of the functioning of the present government. This and the political aspirations of General Semenov impelled the ministers to telegraph to Admiral Kolchak an outline of reforms which were considered essential.

Selections of cabinet members have not yet been announced by Pepliaeff, but it is stated on good authority that virtually half of the former ministers will be replaced.

Admiral Kolchak still is at Novo Nikolaeve, where he is expected to remain until the military situation clears up. At present the Bolsheviks have advanced sixty miles east of Omak, the farthest point of the advance lying northeast of Tatarsk.

Efforts to reform the Kolchak armies there are meeting with some success, it is reported. Kolchak still has a force of reserves which have not been utilized.

Details of the retreat from Omak show that the Reds captured approximately 5,000 railroad cars and eighty locomotives. Refugees experienced great hardships, being stalled for long periods in unheated box cars. Personnel of the ministry was fifteen days on the road to Novo Nikolaeve. The presence of approximately 20,000 Czechs at Irkutsk is regarded as a guarantee that there will be no serious disturbances here over the political situation. This fact has induced Ernest L. Harris, American Consul General, who arrived today, to countermand orders issued by Colonel George H. Emerson, of the American Railroad Mission, directing the evacuation to Verkhudinsk of forty American nurses still at Irkutsk. Thirty nurses already have left Irkutsk for Verkhudinsk.

Dandruff Surely Destroys The Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will ruin your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and does no harm. It will need, no matter how much dandruff you have. This simple remedy never fails.

N. B. DAIRYMEN IN CONVENTION AT SUSSEX

Interesting Addresses Delivered by Government Experts—Awards Made on Cheese.

Special to The Standard
Sussex, N. B., Dec. 3.—The first annual convention and dairy show of the New Brunswick Dairymen's Association opened here today in the Agricultural School building with President J. G. Hughes, of Cornhill, in the chair. A large number of delegates from all over the Province were present.

Among the prominent agricultural experts in attendance were Prof. J. A. Riddick, Dairy Commissioner, Ottawa; Prof. Trautman, Truro, N. S.; Hon. F. J. Tweeddale, Minister of Agriculture, Fredericton; D'Arcy Scott, Ottawa; George H. Barr, of the Dairy Division, Ottawa; W. A. McKay, Dairy Superintendent, Truro; Harvey Mitchell, Fredericton.

A number of buyers from wholesale houses were present.

The opening session was at 1:30 o'clock when President Hughes delivered a most interesting and comprehensive address, and the report of the secretary, H. W. Coleman, Dairy Superintendent, was submitted. Addresses were also delivered by Prof. Riddick and Prof. Trautman. The judges' report on cheese scoring was submitted by George H. Barr, of the Dairy Division, Ottawa. S. S. Gibbon, of the Cornhill Cheese Factory was awarded first prize for July August and September, scoring 94.2, 94.7 and 92.7 respectively. The Cornhill Factory also won second in June cheese.

C. W. Keirstead, Collins, was awarded first on June cheese, scoring 95.8. A public meeting was held in the evening at which able addresses were delivered by Hon. J. F. Tweeddale, Prof. Riddick and Prof. Trautman. The convention will be continued tomorrow when two sessions will be held.

FRENCH GOV'T HAS ITS NATIONAL COSTUME FOR MEN

Manufactured by Gov't and Introduced to Combat the Increasing Prices of Clothing.

Paris, Dec. 2.—"The National Costume" for men, manufactured by the government to combat the increasing price of clothing, made its appearance on the Paris boulevards on December 1, as promised by the authorities. The suit is not such as to draw the attention of promenadeurs either by its elegance or its shabbiness, and, but for a little strip of linen inside the coat marked "National Garment," it would have been known that the suit had anything different from others daily turned out of the so-called fashionable tailoring houses.

Wearers of the suit, however, seemed proud to exhibit the inside of the coat to friends and strangers in the cafes and theatre lobbies.

There is one thing alone in which the National Garment differs from others and that is the price, as the suits sell for 110 francs. Andre De Fouquieres, the well known literary light, has not yet appeared in his, although it is reported he bought one on December 1, when they appeared on the market.

At the present rate of exchange the price of the "National Costume" is 110 francs, the equivalent of about \$11 in American money.

FUNERALS.

The funeral of Mrs. Adeline J. Gale, St. James street, took place yesterday afternoon. Rev. George Morris, assisted by the Rev. Nell MacLauchlan,

Bigger Business From Better Health

"WHAT is this notion you have about the health of employees?" "It is no notion, but a great big idea that I got when on military duty. It is one of the biggest benefits that is going to result from the war."

"Well?" "What set me thinking was the report of the draft board. Forty per cent. of the men examined were turned down as medically unfit. These men were from all classes, and since they were mostly young men it stands to reason that a far larger proportion of our men would be in the 'unfit' class."

"We cannot help that." "That is just it. We must help it if we are going to build bigger business and get the production we are after. What is the use of spending hundreds of thousands of dollars on the extension of buildings and then fill them with men who are not in a condition of health to do a day's work?"

"That is true. What was wrong with most of those culled out?" "Twenty-five per cent. were incapacitated because of nervous disorders. Malnutrition, the doctors said, was the cause of their condition. That way from childhood, perhaps. Their blood was thin and watery and their nervous system starved. As a

result they were easily tired and had no reserve force. They would catch cold easily and in fact be easy prey to any germ disease.

"What can we do?" "We can see that they get half a day a week for outdoor recreation, and I am going to recommend the use of Dr. Chase's Nerve Food to these men. You know what the Nerve Food did for me when my nerves gave out. If I have my way it is going to have a good try-out among the men, for there is nothing I know of that will build them up so well."

"You certainly should know after the condition you were in, for I sometimes thought you would never get around."

"There are other ways we can help the men by better working conditions, but these are included in these building plans."

"Bigger business from better health" is my motto, and I know Dr. Chase's Nerve Food is going to help me carry out this program."

Dr. Chase's Nerve Food is so universally used that you can obtain it from any dealer at 50 cents a box, 6 for \$2.75, or from Edmondson, Bates & Co., Limited, Toronto. The portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, are on every box of the genuine.

officiated; interment in Cedar Hill cemetery.

the razor that sharpens itself

"Do you prefer a dull or a sharp razor for shaving?" That is the simple question you are called upon to answer when choosing a safety razor. Nearly every razor is claimed to have a sharp edge. How was it obtained? There is only one process—stropping. Shaving as it does, day after day, how is a razor to be kept sharp? Again only one process—stropping. Then it is more important to choose a razor that stropps itself and keeps itself sharp than merely a razor that may come to you sharp, but remains so only because it worries you constantly for new blades.

The AutoStrop Safety Razor is the only razor that stropps itself. It cannot be stropped wrongly. Ask your dealer to demonstrate it to you. Don't be content to look at it in the store window or show case. See how it works—how simple it is! If you wish, try it for Thirty Days. Only then will you realize what it means to possess a razor that can be stropped and cleaned without removing the blade or taking anything to pieces.

AutoStrop Safety Razor
