

### IMPORTANT BILL FOR THE CONTROL OF FEED STUFFS

Placing Them Entirely in the Hands of Federal Dept. of Agriculture to be Introduced in Commons.

### THE DEPARTMENT MAKING CHANGES

In Certain Acts Which Are Proving of Great Benefit to Farmers as Well as Community.

Ottawa, April 25.—A move to place the control of all commercial feeding stuffs entirely in the hands of the Federal Department of Agriculture is to be made in the Commons next week, it was announced tonight. This move, if successful—and there is little doubt that Parliament will agree to sanction it—will be of tremendous importance to the farming industry of the whole country, according to farmer members of the House. A bill will be introduced to permit of regulations being made and administered by this Department. The bill will provide for the registration of each brand of commercial feeding stuffs offered for sale; for the proper marketing of such stuffs, and for the prevention of adulteration and the regulation of the quantity of noxious weed seeds allowed. The new Act will provide penalties of from \$25 to \$500 for any contravention of the Act itself or its regulations, and it will take the place of the Commercial Feeding Stuffs Act of 1910, which it replaces.

The Department of Agriculture is also busy this session on several other measures of considerable importance, both to farmers and the country in general. Several measures have already been before the House amending certain Acts now in existence. Among these are the amendment to the Oleomargarine Act, the Inspection and Sale (Fruit Marks) Act, and the Animal Contagious Diseases Act. Under the Oleomargarine Act, passed in 1919, the manufacture and importation of this product was permitted until August 31, 1920, while the sale was permitted until March 1, 1920. The present bill extends the time one year in each case. Other changes make provision for the regulation of the marketing and advertising of oleomargarine, while the minimum penalty for contravention of the Act or its regulations is increased \$10 to \$50.

### PREMIERS ARE IN AGREEMENT AS TO GERMANY

The Agreement Will be the Basis of a Navy Staff Note Which Will be Signed By All.

### WILL DISCOURAGE USE OF MILITARY

To Enforce the Treaty When Not Necessary to Use it—Allies Ready to Force Payments.

San Remo, April 25.—(By Associated Press.)—The agreement between Premier Lloyd George and the French Premier, Raymond Poincaré, concerning Germany was presented to the Supreme Council late this afternoon and will form the basis of a very stiff note to Germany which will be ready for signature tomorrow by Great Britain, France, Italy, Japan and Belgium. The United States will not sign the note. Either this declaration, or an authoritative condemnation will be made public tomorrow, Mr. Lloyd George announced tonight.

"The document is the result of private conversations between Premier Lloyd George and Poincaré, which resulted in complete agreement upon the policy to be adopted," said the British Prime Minister. "The document will be communicated to the press tomorrow, and the public can then form its own impressions."

Mr. Lloyd George, replying to questions, also said: "We have discouraged the use of military means to enforce the treaty when not necessary to use them. My statement to the House of Commons is clear. My view is that Germany should not be prevented from restoring order in Germany. The same thing happened in France in 1871, when Germany proposed to put down the commune. Thiers objected because the intervention of foreigners would tend to make the commune popular. No one has the right to say to a nation, prepared to use military force to enforce the treaty."

It is understood, from quite another source than Mr. Lloyd George, that one extremely important point in the agreement between the British and French Premier defines it to be in the interest of France to fix a date for the treaty to be signed in May in a Belgian city where representatives of Germany, that Germany must pay the Allies immediately. It is even said that the Allies have tentatively fixed an annual payment of three billion marks pre-war exchange, for thirty years, as a suitable payment, but that the German Government will be asked in the meantime to make the proposal of a lump sum.

### SONORA TROOPS WERE UNOPPOSED

City of Guaymas Captured by State Troops on April 12.

Los Angeles, Cal., April 25.—The City of Guaymas, Sonora, on the Gulf of California, was captured April 12, without a shot being fired by 5,000 Sonora State troops commanded by General Angel Flores, according to Captain N. K. Jacobson, of the Gulf mail steamer Nehalem, from Corinto to San Francisco, who arrived here today.

Los Angeles, Cal., April 25.—According to Captain Jacobson the Carranza forces in Guaymas made no attempt at defense and the customs house, railroads and warehouses containing large quantities of foodstuffs, were immediately commandeered by the Sonora force. The only move toward defending the city, it was said, came when 250 marines were sent ashore from the Mexican submarine Guerrero, but they, it was declared, joined the revolutionists as soon as the Sonora cavalry entered Guaymas.

### An Antidote For The "H. C. L."

With the opening of summer navigation and the tremendous volume of commerce finding its way again through the great inland waterways of Canada, several necessities arise that present splendid opportunities for advancement to young Canadians who, in disobedience of the first lord's golden rule, do not wish to "stick close to their desks and never go to sea."

In conversation with a wireless expert last evening, The Standard was informed of the great need at the moment for wireless operators.

The demand for operators exceeds the supply. The life is easy and it is well-rewarded. To commence with the young Marconi is given \$100 a month with everything found. He is granted \$50 for clothing allowance, and has a subsistence of \$250 per diem for each day in port. As soon as an operator gets charge of a ship, the salary is increased to \$125. The interest of the voyage is not even second to the freedom of the life.

With the advent of commercial aviation, and the new proposal about Canada, several necessities arise that present opportunities presented to intelligent and capable young men are apparently limitless. In a subtle concern which the general public seems to have little knowledge.

### AMERICAN MISSIONARY MUST SERVE SENTENCE

Chief Commissioner of Assam Can See No Reason Why He Should be Treated Different From Others.

Bombay, April 25.—The chief commissioner for Assam has dismissed the appeal in the case of the Rev. L. W. D. Jackman, the American missionary who was recently sentenced to two years imprisonment for killing Major H. D. Cloete, Mr. Jackman entered the appeal March 28.

In giving judgment, the Commissioner said that while admitting the homicide had been committed in a state of excitement and mental aberration, it could not be overlooked that Jackman was a strong man armed with a revolver, while Major Cloete, who fought in the war, was blind in one eye.

"As the facts were, the sentence seemed to me to be on the side of equity. In two similar cases Indian hillmen were sentenced to transportation for life. There cannot be one law for an American missionary and another for Indian hillmen." The Commissioner added that he felt if he had been the judge he would have been constrained to impose a sentence of seven years' imprisonment. He must decline to interfere but would let the sentence stand.

### MASKED GUNNER IN NEW TRAGEDY

New York, April 25.—Five masked gunmen held up two police detectives and 14 prisoners they had captured in a raid on a card game in a Harlem apartment house and in escaping, after the detectives opened fire, one of the bandits shot and mortally wounded Herbert Hayes, a negro elevator operator. Hayes died later in a hospital. The gunmen escaped in an automobile. Shortly before this incident five masked men, believed to be the same men, held up another card game in Harlem and escaped with \$1,000.

### DISAPPOINTED LOVER SHOOT SWEETHEART

Became Angry When his Best Girl Refused to Marry and Peppered Her With Bullets.

Providence, R. I., April 25.—Miss Alice Harrison, of this city, is at the Morton Hospital, Taunton, Mass., with bullet wounds in her jaw, head, neck and arm, shot, the police declare, by Joseph Martin, also of this city, who took a license yesterday to wed her. She has a fair chance of recovery.

Martin was captured by a posse of Taunton persons in the woods in Berkeley, Mass., and is locked up charged with intent to kill. Following the taking out of the marriage license yesterday, Martin is alleged to have gone to Miss Harrison's home here and to have told of what he had done. She, it is said, declared she would not consider marrying him. Later in the day, Miss Harrison went to Taunton to visit a relative. She found Miss Harrison out walking and at a lonely spot on the road near the Berkeley line, stopped her. The shooting is said to have followed.

### CANADA DOES NOT WANT MANDATE

San Remo, April 25.—(By the Associated Press.)—Earl Curzon, the British Foreign Secretary, said Saturday that it was an entire mistake to attribute to him any utterance respecting Canada taking over the mandate for Armenia. The Canadian Government, so far as he was aware, had neither requested the mandate nor been asked if it were willing to accept it. Private persons, added Earl Curzon, may have suggested, casually, that Canada might take the mandate, and among those persons may have been some Canadians.

### SHOTS CONTINUE TO FLY IN IRELAND

Mysterious Killings Reported From Dublin and Belfast.

Belfast, April 25.—Sergeant Cornelius Crane and Constable McClellan, both of whom were reported to have belonged to the Belfast force, were shot and instantly killed Saturday night at Bandon, County Cork. Crane formerly was stationed at the Kings street barracks, Cork, from which Sinn Feiners in the woods in the morning shot and killed Lord Mayor MacCurraigh of Cork.

Dublin, April 25.—A man named Bohan, keeper of a tavern, was shot late Saturday night and seriously wounded as he was leaving his place of business. His assailants escaped. The Canadian Government, so far as he was aware, had neither requested the mandate nor been asked if it were willing to accept it. Private persons, added Earl Curzon, may have suggested, casually, that Canada might take the mandate, and among those persons may have been some Canadians.

### COTTON OPERATIVES DECIDE TO STRIKE

Unless Their Claim for a Sixty Per Cent. Advance in Wages is Granted. Manchester, England, April 25.—The result of the balloting among the cotton operatives on the question of tendering notice that work will cease if their claim for a sixty per cent. advance on their gross wage is not granted is announced. It shows that \$1,000 favor the strike, while 5,000 voted against it. Representatives of the operatives are now in London and will confer with the Minister of Labor tomorrow. It is hoped that a settlement will be reached before the strike becomes effective a week hence.

### Rev. W. B. Williston Preached Yesterday

Recently Returned From Mission Field of China—Spoke Interestingly to Congregation in St. Luke's and St. John's Churches.

Preaching to a large congregation in St. Luke's church last evening the Rev. W. B. Williston, of Bay du Vin, who has recently returned from the mission field of China, delivered a fervent and stirring address in which he called upon the young people of Canada to consecrate their lives to the service of the church and their fellow-men, especially in the foreign mission field.

The gifted speaker after portraying the wonderful privileges of being attached to the missionary's vocation, and the reward destined for him in the after life, he briefly recounted his own experiences while preaching the Gospel to the heathen of distant China. The speaker stated that he and his wife were stationed at Kachow, in Szechwan province, Western China, where they ministered to a population of 2,000,000 souls and that the nearest white people in that part of the country were four days' journey away.

The power of the Gospel, the speaker stated, was very evident in China today, although but twenty years since the Boxer rebellion, when the missionaries and all whites were in dire peril of losing their lives at the hands of the populace, today the missionary is received with open arms, notwithstanding the fact that no stable government prevails, and numerous hands of brigands infest the countryside. Mr. Williston said that when leaving his mission en route for Canada, and his first rough in ten years, he was assisted in every way by the people along the twelve days' overland journey to the coast. He was obliged to travel on foot while his wife rode in a sedan chair. The natives along the route did all in their power to make the journey easy and pleasant. The distinguished missionary is to give an illustrated lecture on Wednesday night at Trinity church, where he will show scrolls presented him by his congregation prior to his departure from China. The scrolls are beautifully worked in satin with letters of gold, and if connected together would stretch for over a third of a mile.

At St. John's (Stone) church at the morning service Rev. Mr. Williston delivered a sermon of compelling interest relating some of his experiences in China.

The main drive in the mill of Gloucester Lumber and Trading Co., Bathurst, N.B. Goodyear Extra Power Belts still in use after 5 years' service.

# Master Belts of Industry

Goodyear has solved the problem of belting the great main drives of industry—the backbone of production. Its friction surface grips, even through dampness or dust. No slipping with Extra Power. No need for extra tight belts, pulling pulleys out of line. No need for belt dressing. No lost power.

The testimony for Goodyear Extra Power on main drives is very complete. For instance:—The Norfolk Milling Company, of Simcoe, writing about their main drive belt, purchased a year ago, say:—

"Has been in continuous operation for one year, and has not stretched nor given us the slightest bit of trouble."
