The address then declares that it is the intention to "elect a chief magistrate, who will labor to administer his office in the interest of the general welfare."

ST. JOHN TO AFRICA.

There Has Been Big Business in Hay Shipping.

THOUSANDS OF TONS.

How the Work is Done—Has Resulted in Payment of About a Million Dollars So Far—One Ship a Week Will Go Forward Until June—All Satisfactory.

The war in South Africa opened a large trade in hay and canned goods for Canadian farmers and merchants during the past year, and the most of these shipments have been made from St. John. Mr. W. Moore, of the agricultural department at Ottawa, is in charge of the handling of the hay and is frequently in the city looking after the work. Mr. Moore is a young man of much experience. Since the war broke out he made a trip to South Africa in the interest of the hay trade.

He left this city on his last voyage to South Africa in the steamer called Nyassa last September. The steamer had a cargo of hay and canned goods and on arrival at Cape Town, Mr. Moore set out to visit the different sea ports. He visited all of importance and also paid a visit to the renowned Lady-smith. On his return to Canada a few months afterwards he still had a better idea of the manner of hay shipping.

Mr. Moore was seen at the Clifton House last evening by a reporter and when asked about the hay trade said that the work was commenced early in 1900 and on arrival at Cape Town, Mr. Moore set out to visit the different sea ports. He visited all of importance and also paid a visit to the renowned Lady-smith. On his return to Canada a few months afterwards he still had a better idea of the manner of hay shipping.

WALKED MANY MILES.

Immigrants Tramped From Here to Vanceboro.

Another case of where the city has to stand the blast of persons arriving here from foreign ports without money or any form of looking after themselves, was experienced last night when six men and three boys sought the police station and protection for the night. The party are Italian immigrants, who arrived last Saturday on the Louisiana from Liverpool. They were lacking funds to take them to the United States and they had to pay their passage on the train, so they decided to start on a tramp to Boston.

They were discovered by the police on their long journey of about 400 miles. They had little food and, with some clothes slung over their backs in bags, and some carrying small grip-sacks, they made a sorry picture. Being of a hardy class they made rapid progress and tramped along all day eager to gain their destination.

After the hardships of tramping the highway and obtaining food from farm houses to farm houses, yesterday about noon, the party, footsore and tired, reached Vanceboro, Me., weary, but still willing to continue on their journey.

But at Vanceboro their first real difficulty was met. They were discovered by Mr. Peter Miller and other officials of the United States immigration service, who, learning that the party had left St. John on Saturday last, had been on the lookout for them. When found the party were placed in charge of the officials and put on board the Portland express for St. John.

They arrived at the I. C. R. depot last night and when they left the car were left there alone, unable to talk to any person as there was no interpreter on board. The unfortunate men were unable to move from the spot where they alighted from the train as they were like people lost in a desert. They were in need of a friend and as they could not be allowed to stay in the depot over night, I. C. R. Officer John Sweeney had had been on the lookout for them. When found the party were placed in charge of the officials and put on board the Portland express for St. John.
