These have been assessed as worth roughly \$213,000, which sum the province will pay in five equal annual instalments.

When leaving today Mr. Scott said that his main purpose in Ottawa had been in connection with railway subsidies. He looks upon the acquisition of the old Prince Albert Road by the Canadian Northern as an event of great importance to Saskatchewan, as a whole. Until now the C. P. (Special to The Telegraph.)

St. Petersburg, July 26.—"Strong handed reform" is laid down by M. Stolypin as the keynote of his administration, in an interview today in which the new premier expressed his confidence that the policy, with the aid of the "patriotic masses" and military which, "in spite of all reports is still loyal and reliable," will take the country over until the convocation of the next parliament. He emphasized, as did Controller of the Empire Schwandack on Sunday, the belief that the outlawed parliament was neither representative nor capable of constructive work. He spoke with special scorn of the leaders of the Constitutional Democrats, not attempting to conceal his impression that the quasi respectability of the party was but a cover for insincerity and trucking with the general elements of the revolution. They did not honestly believe either in a general expropriation of land or in complete amnesty. Their advocacy of these features was merely a campaign cry.

as refusal to pay taxes or furnish recruits to the army.

Hesitate to Call Strike.

St. Petersburg, July 26.—A decision on the question of a general strike is still hanging fire. No word has been received from the revolutionary leaders, who again were in secret session tonight. The ministry railways received word today of several attempts to destroy railroad bridges, and it is believed that the radicals are resorting to this means to force the issue.
