

Sixth row.—1 d. c. over 10 d. c., which completes half of the solid diamond or brings it to its smallest point while at the same time the diamond in open-work is at its broadest.

Seventh row.—1 d. c. over d. c., ch. 2, 4 d. c. in 1st space, 2 ch., 4 d. c. in next space, 2 ch., 1 d. c. over last d. c. in group of 4 d. c. of preceding row, 2 d. c. in the space close to it, 4 d. c. over 4 d. c. below, 2 d. c. in space, 1 d. c. over 1st d. c. in group of 4 below. This increase makes 10 d. c. in a row directly above the 4 of row preceding.

Eighth row.—In this row there should be 16 d. c. over 10 d. c.

Ninth row.—22 d. c. over 16 d. c.

Tenth row.—28 d. c. over 22 d. c.

Eleventh row.—34 d. c. over 28 d. c.

At this stage the solid diamond is at its widest point, while the open diamond has been diminishing its group of 4 d. c. until its smallest point is reached. Upon working about eight rows it will be found that the border extends a trifle above the center of the work, to correct which, crochet only from border to border—once across each way—fastening with the shell at each side with a sl. st. This does not interfere with the symmetry of the work, but on the contrary keeps the work perfectly even and true.

To make the Scollop.—Join the thread to the 1st 3-ch. between the shells at the side, and into the next space work the following: * 1 tr. c., 1 p. * (4 ch. and sl. st. back into 1 sl. st.), and repeat 8 times. Fasten each scollop with a sl. st. into the space nearest to the scollop.

The fringe consists of six threads of the desired length knotted into each open space across the ends, and may be further tied or not, as preferred.

HAIR-PIN SCOLLOP LACE.

FIGURE No. 2.—Make the hair-pin work three-quarters of an inch wide.

For the Heading.—Make 1 d. c. in 1st loop of hair-pin work; * 2 ch., 1 d. c. in next loop; repeat from * to end of row.

For the Edge.—Make 1 s. c. in 1st loop of hair-pin work; * 2 ch., 1 s. c. in next loop, and repeat from * to end of row.

Then break the thread and make the scollop: make 9 ch. and catch with a short st. in 1st st. of ch. to form a ring; turn.

Three-ch., 12 tr. c. in space formed by ch.: 2 ch., catch with short st. in 1st s. c. of hair-pin work; turn. * * 1 d. c. in 1st tr. underneath: 1 d. c. in each of next 4 trs., 7 ch., skip 1 d. c., 1 tr. in next; * 2 ch., skip 1 double, 1 tr. in next; repeat once more from *: 2 ch., 1 tr. in last double; turn.

Five ch., 1 d. c. in 1st space, * 5 ch., 1 d. c. in end of d. c. just made: 1 d. c. in next space; repeat once from last *: 3 ch., 12 tr. in space formed by the 7-ch.: 2 ch. Skip 3 short crochets of the hair-pin work, and catch in the next; repeat for the rest of work from * *.

BABY'S CROCHETED SACK.

FIGURES Nos. 3 AND 4.—This sack is made of white Shetland wool.

For the Yoke.—Double the worsted, make 70 s. c., turn and work back in s. c. in the upper sts., making 3 s. c. in the 35th st., and 2 in the last or end st.; work back and forth until 5 rows or ribs are formed on both sides.

Then crochet a star st. by putting the worsted over the needle, drawing the worsted through each of 2 sts., then crocheting it

together. * Next pick up a loop through the eye, 1 at the side, and 1 through each of next 2 sts., th. o., through all 5 loops, over and close with a sl. st.; repeat from * until 56 stars are formed, making 2 stars in one at the center of the back. Then counting 12 stars from the front edge, fasten the wool and * in the eye, make a shell of 5 long d. c.; then make 1 long d. c. in the space between this and the next eye, and repeat twice more from *: fasten your wool and break. Commence the next row in the eye of star in front of 1st one and fasten wool. Make a shell in the eye and 1 long d. c. beyond or in the st. where the wool was fastened for 1st row; then make the shells and d. c. over the shells and d. c. in last row, but always remember to make the shells under the middle of the 5 d. c., working through sideways, and also the 1 d. c. After working over the 3 shells, make a long d. c. and shell in the eye and space beyond; fasten down and break wool, and so continue for 2 rows more. This forms the cap of the sleeve.

Then commence 2 stars back, crochet a shell in the 2nd star and one long d. c., then make a ch. of 10 sts., fasten with a single st. on the other side of cap and then make a shell: fasten, break, commence again the same way and so continue until you reach the 26th star and have 1 star left at the front edge, this should leave your last row with 1 star between it and the center or 28th star. Next count 13 stars, including the center one, and in the 13th beyond the center begin the other cap or shoulder and work exactly as described for the first half. Next make 1 row of shells and the 1 d. c. between entirely across the row, making a shell come in the center star and the 1 d. c. at each side. If at the end of the row this arrangement cannot be followed, work over the shells and d. c. There will be 25 shells in this row.

Then at the last star stitch crochet a ch. of 3, and continue with the rows until you have 14 more rows, counting from the one which started with the ch. of 3; finish with scollop formed by making 1 d. c. with 1 ch. between 5 times in the middle of shell, fastening in the single stitch. Work the scollop down both sides of front, making it in every other row of the shell and rib stitch. Around the neck with double wool make a d. c. with 1 ch. st. between (this row is to run a ribbon in); on every ch. st. crochet a scollop as before described.

Then, to form the sleeve, crochet 1 row around the cap and under part, making 1 long d. c. where the cap joins the body

part; the next time around the top the same, with small ch. or d. c. sts. underneath: the next time around narrow in the shell found by following the first 1 of the first 3, then crochet another shell and narrow in the next shell; the next time around narrow on the sides where the cap joins the body part and the shell between the places which were last narrowed, then on the other side narrow 1, and continue working round till you have 9 rounds, counting from the under side which you started with a ch. of 3 like body part. Now make with double worsted 5 rows like those in the yoke, finish with scollop of 3 d. c., also using the wool double. Above the cuff finish with a 5 d. c. scollop, and over that scollop another row.

Finish sack with tinted, twisted embroidery silk in all the scollops, by making 3-chs. and s. c.; and then between each scollop carry the silk up with 5-chs. for 3 rows and catch it back again. Finish the lower part of yoke with scollops edged with silk. Unless double worsted is mentioned, use single.
