A WONDERFUL COW THAT HAS MADE A TRULY WONDERFUL RECORD

Jennie Bonerges Ormsby, the cow here shown and owned by Messrs. D. C. Flatt & Son, Millgrove, Ont., is the first Canadian cow to make over 30 lbs. of butter in seven days. She is a four-year-old. Her best day's milking while making her recent record was 95 lbs. in a day. Other particulars about this cow and how her owners make records, are given in an article on page 5. The Messrs. Flatt are out to make the Ormsby and the Francy families valuable. Breeders having any of this blood will find it worth extra money to them, since it develops that it is capable of big things.
