

Have you any Pipe Cutting ? and Threading Work to do ?

The best machine is cheapest; and a comparison of the

S H A N T Z

PIPE CUTTING and THREADING MACHINE

with any other will convince you that Shantz is best. The illustration shows the SHANTZ No. 6 for threading $2\frac{1}{2}$ to 6 in. pipe. It does the work with absolute accuracy, and does it quicker and cleaner than any other machine in America. This machine weighs 4300 lbs., and is immovably rigid. The Shantz is

**the only pipe cutting machine fitted with the BORDEN PATENT,
SOLID, ADJUSTABLE DIE HEAD—**

a device which assures absolute accuracy in threading any make of fitting by the adjustment of a simple adjusting screw upon which the operating lever rests.

Other Sizes made:

No. 2, CUTS FROM $\frac{1}{2}$ in. to 2 in.

No. 3, CUTS FROM $\frac{1}{2}$ in. to 4 in.

No. 4, CUTS FROM 1 in. to 4 in.
