WHY Should they not Take the Same Place in the Great

### New Canadian Northwest?

Our Reasons are numerous why they are the BEST, but we give you only a few, that you may judge whether our statements are correct or not, viz.:

OUTER BEARING AXLES Nearly Double Strength.  
 IRON-CLAD HUBS Prevent Checking.  
 IRON GRAIN CLEATS between Upper and Lower Box Riveted on Securely.  
 DOUBLE BOX BOTTOMS over Hind Bolster strengthens bottom.

ANGLE STEEL BENT HOUNDS, with Wood-filled Fronts.  
 IRON STRAP UNDERNEATH POLES the Full length.  
 CLIPPED GEARS Avoids Holes in Axles.  
 RIVETED FELLOES each side of Spokes prevents splitting.

### What Farmers Say :

Otterburne, Man., July 23rd, 1903.

The Scotch Clipper Sulky Plow is first-class in every particular. P. CAMERON.

Lumsden, Assa., July 11, 1903.

The Paris High-Lift Plow I bought from you suits me all right. I have now plowed about fifty acres of summer-fallow and it is going good. It covers everything down well and makes a good job. I may say I am well satisfied. MATTHEW DOBSON.
