

If You Suffer

From Germ Troubles, Please Learn What Liquozone Can Do.

Thousands who were sick—like you perhaps—are well to-day because of Liquozone. Many had doctored long. Many were discouraged because other treatments had failed. But they were treating germ diseases with remedies which do not kill germs.

We offered to buy them a bottle of Liquozone—just as we offer you. They did with it what other remedies failed to accomplish. And those countless cured ones—scattered everywhere—are now telling others what Liquozone has done.

Kills Disease Germs.

Contact with Liquozone kills any form of disease germ, because germs are of vegetable origin. Yet to the body Liquozone is not only harmless, but helpful in the extreme. That is its main distinction. Common germicides are poisons when taken internally. That is why medicine has been so helpless in a germ disease. Liquozone is exhilarating, vitalizing, purifying; yet no disease germ can exist in it.

The virtues of Liquozone are derived solely from gases. They are generated from the best products of oxygen, sulphur dioxide and other germicidal gases. The process of making requires large apparatus, and from 8 to 14 days' time. The object is to so fix the gases, and to combine them, as to carry into the system a powerful tonic-germicide.

We purchased the American rights to Liquozone after thousands of tests had

been made with it. Its power had been proved, again and again, in the most difficult germ diseases. Then we offered to supply the first bottle free in every disease that required it. And over one million dollars have been spent to announce and fulfill this offer.

The result is that 11,000,000 bottles have been used, mostly in the past two years. To-day there are countless cured ones, scattered everywhere, to tell what Liquozone has done.

But so many others need it that this offer is published still. In the last few years, science has traced scores of diseases to germ attacks. Old remedies do not apply to them. We wish to show those sick ones—at our cost—what Liquozone can do.

Where It Applies.

These are the diseases in which Liquozone has been most employed. In these it has earned its widest reputation. In all of these troubles we supply the first bottle free. And in all—no matter how difficult—we offer each user a two months' further test without the risk of a penny.

Also most forms of the following
Kidney Troubles Liver Trouble
Stomach Troubles Women's Diseases
Fever, inflammation or catarrh—impure or poisoned blood—usually indicate a germ attack.
In nervous debility Liquozone acts as a vitalizer, accomplishing remarkable results.

50c. Bottle Free.

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and will pay the druggist ourselves for it. This is our free gift, made to convince you; to let the product itself show you what it can do. In justice to yourself, please accept it to-day, for it places you under no obligations whatever.

Liquozone costs 50c. and \$1.

CUT OUT THIS COUPON.

Fill it out and mail it to The Liquozone Company, 458-464 Wabash Avenue, Chicago.

My disease is.....
I have never tried Liquozone, but if you will supply me a 50c. bottle free I will take it.

Note that this offer applies to new users only
Any physician or hospital not yet using Liquozone will be gladly supplied for a test.

GOSSIP.

The London, England, Live-stock Journal Almanac for 1903, containing 335 pages, price on mailing, is a mine of information regarding the various British breeds of horses, cattle, sheep, swine and poultry, beautifully illustrated with portraits of the principal prize animals of the previous year, a breeders' directory, and a station table, together with much other useful information. The address is Vinton & Co., Ltd., 9 New Bridge St., Ludgate Circus, London, E. C., England.

Mr. J. B. Hogate, Weston, Ont., writes: "The Farmer's Advocate": "I am pleased to report to you that my advertisements in your paper are bringing lots of correspondence, both from Ontario and the Northwest. My stock are all doing well. Sales have been very brisk, and prospects never better for future sales, and I expect to have another importation arrive about March 1st of Clydesdale stallions and Clyde and Shire fillies. There will be 30 head in this shipment. Wishing you the compliments of the season."

R. MITCHELL & SONS' SHORTHORNS.

Shorthorns are certainly on the upward trend, and salable imported animals are scarce. The Greenhill Herd of Imported and Canadian-bred Scotch Shorthorns, property of Messrs. Mitchell & Sons, Nelson, Ont., ranks among the very foremost of Canada's many high-class herds. Greengill farm lies about four miles from Burlington Station, a few miles from Hamilton. The herd now numbers about 80 head, 25 of which are imported, and the majority of the others are the produce of imported sires and dams, representing such noted and fashionable families as the Roan Lady, Jilt, Rosemary, Orange Blossom, Duchess of Gloster, Princess Royal, Mayflower, Mysie, Gwynne, Augustus, Victoria, Rosebud, etc., the get of such noted sires as Lavender Victor, Craibstone, Scottish Prince, Sittytown Style, Marengo, Best of Archers, Prince Horace and Goldie's Pride. They are a heavily-fleshed lot in prime condition; are regular breeders, and good doers; in fact, one of the best herds in the country. The stock bull is the massive, eye-built, and richly-bred Imp. Lord Rosebery, bred by T. A. Anderson, Ballachragan, Scotland, sired by Challenge, dam by Silver Star, grandam by Merry Archer. He is a Broadhook-bred bull, and a wonderfully prepotent sire. His predecessor, and the sire of nearly all the young stuff, was the Princess Royal bull, Imp. Greengill Victor, bred by W. S. Marr, Upperville, Aberdeenshire, sired by Lavender Victor, dam by Sea King, grandam by William of Orange. This grandly-bred bull left a stamp of superiority on his get that places him at once among the great Canadian sires. In the herd are about 20 heifers, all old enough being in calf to the present stock bull. They are a typical, evenly-fleshed lot, and among them can be picked out a few that could easily be put in shape to make times very interesting in the show-ring. In young bulls, there are about a dozen from 10 to 18 months of age, all by imported sires, and nearly all out of imported dams, many of them being fit to head any herd. There is a roan yearling, by Imp. Strawberry Chief, out of an imported Mysie-bred cow. Another is a red yearling, by Imp. Greengill Victor, and out of an imported Orange Blossom cow. Next is a red yearling, by Greengill Victor, and out of an imported Jilt-bred cow. This is an extra good young bull. Next is a red eight-months-old fellow, by Greengill Victor, out of an imported Mysie-bred cow, also an extra good one. Another is a red yearling, by the same bull, and out of an imported Orange Blossom-bred cow—a big, growthy fellow, with lots of quality. Then, there is a red yearling, by the same bull, and out of a Village Girl. These mentioned are only a sample of the rich breeding of the entire lot. Good bulls are scarce, herd breeders are scarce, imported animals and the get of imported sire and dam will soon be at a premium, as there has been practically no importing done for the last two or three years, and not likely to be as the Old Country prices are so high it is not a paying venture. These young bulls are a choice lot, and anyone wanting one should see them early. Look up their advertisement in this paper.

NEWCASTLE HERD OF Tamworth Swine and Shorthorn Cattle
