"Star Life Assurance Company, OF LONDON.

THE AGENCY of this Company has been en-I tablished in this Province about three years, and has made some progress, and up to the present time, without a claim being made upon it. Directors have recently instructed the Agent to allow persons insuring for the whole term of Life, to pay one half the premium for the first five years, and give a note hearing Interest, for the remanning half, upon the same condition as the National Loan Fund Association. As the preportion of profits divided among the Policy holders. with participations, is greater in this than any other Company -being 30 per cent -it therefore recommends itself to the favourable consideration of ail persons intending to insure, the rates being as low as in any other Company. If persons would give the subject of Life Assurance their serious consideration, they would be convinced that it is the very best investment to be found for a moderate annual sum of money, for the benefit of their famties after they are taken from them.
