The REVALMASTER

THE GREATEST TIRE THE WORLD HAS EVER KNOWN

Not one Royal Master puncture. Not one in five thousand will blow out under two years of service.

Its massive tread is double thick, cured by a new slow process. Its carcass is made with extra plies of web fabric. Side-walls are guarded against scuffing.

An enthusiastic fisherman was telling some friends about a proposed fishing trip to a lake in Scotland.

"Are there any trout there?" asked one friend.

"Tony!"

The Royal Master was built without regard for cost. It is the finest tire that can be built.

The Royal Master is made oversize. Or rather, the right size for real tire economy. If you want tires that will last as long as you keep your car, then buy Royal Masters.

Not What He Meant
Pastor—You don't seem to have a thought for anything but motoring. Why don't you put your wife before your car sometimes?

Motorist—My word, that's a good idea. But no—I'm scared of being found out.

"Does your wife play bridge for money?"
"No," mournfully replies the husband, "but her opponents do."
"The ham is alright sir," insisted the shopkeeper.
"No, sir, it isn't," protested the customer, "it's bad."
"How can that be?' said the shopkeeper, "when it was cured only last week?"
The young man thought deeply for the space of half a minute, and then suggested:

An amusing story is told concerning the veteran, John D. Rockefeller. It appears that the multi-millionaire creator of the Standard Oil Trust had his portrait painted for presentation to a certain public institution. It was a water-color.
"Of course," remarked one of his business rivals, when viewing the picture, "it had to be in a watercolor. They couldn't 'do' Rockefeller in oil."
"What was the most difficult part of the civil service exam you took at the post office?"
"Writing with the post office pens."
