Clarkes, 7th March, 1849.

I have been furnished with Rats for several years, and I have tried various means to rid myself of them, but without success. I most willingly bear testimony to the great efficacy of Smith's Exterminator. I found it effectual in destroying Rats, Mice, Cockroaches, &c., to a great extent, and I shall endeavor to get a supply for myself, as I find it will be necessary to have recourse to it frequently, unless I can succeed in getting the Rats destroyed in the neighborhood, which I have not been able to do hitherto.

BOGLE'S HYPERION FLUID,
FOR RESTORING PERSPIRATION, AND INVIGORATING THE HAIR.

The following Certificate from Dr. Thomas Lewis, one of the most eminent Physicians in Canada, is the highest confirmation to which it is and, by the most competent Judges, long since enjoyed.

Montreal, Feb. 15, 1847.

Mr. Wm. Bogle,—Sir,—The progress and success of your Hyperion Fluid, in the restoration of hair in my family, are far beyond what I could have anticipated. Before using it, the hair, and about the roots of the hair, of my children, was covered with a thick scurf, which, in the case of my youngest child, almost amounted to a disease. In order to remove this scurf, I washed their heads frequently with soap and water, but without success. I then had recourse to your Hyperion Fluid, which I used in the manner directed, and in a few days the scurf disappeared entirely, and the hair became soft and glossy, which it has continued to be ever since. I have also used it with success in the case of myself and other members of my family, for the purpose of preventing the hair from falling off, and in every instance it has answered the purpose intended. I have no hesitation in recommending it to the public, as I am satisfied that it is the best article in the world for the purposes for which it is intended. Yours truly,

THOMAS LEWIS, M.D.
