Save your Money and help Canada!

EVERY dollar of money in existence in Canada represents the products of individuals because money is only the visible symbol of the work of the hands or brains of individuals.

In this war, victory depends upon the way in which the assets of the people are devoted to fighting the war-in other words, upon how each person spends his money which represents his portion of the combined assets of the nation.

This nation's assets and resources are in the hands of eight million individuals-every single individual controls some part, large or small, of these resources. If those resources, represented by money and effort, are diverted from war purposes to those of private iudulgence or needless expenditure, the war effectiveness of the nation is weakened to that extent.

Every dollar needlessly spent reduces the available resources of the individual and therefore those of the nation

When you spend a dollar self-indulgently you weaken your own position and your individual ability to help win the war by just that much.

When you save a dollar and put it where it can be called upon for use in the nation's service you add to your own resources and to those of Canada.

That is why Canada at this time asks each and every loyal Canadian to conserve and accumulate his and her cash resources, small however they may be, so that when they are called upon for the war they will

Something New. Many advertisers are constantly trying to think up "Something New" or "Different" and the results are startling to be sure, but certainly not convincing nor conducive to increase in the business of the advertiser. The craze for originality is a mistake. People do not care for stunts or mental gymnastics. They do want to know the facts in regard to your business and whether you can offer better prices or better quality than your competitors. Tell the facts in a straightforward, unassuming manner. You will gain the confidence of your patrons, and you will find that advertising pays abundantly.
