The Tibetana. The Tibetana are not beautiful. How could they be when, by their own con-fession, the national ancestry runs back to the king of the monkeys and a hobgoblin? Bonvalot says of them, "The type is midway between the Es-kimo and the Chinese. Broad, fait noses, without visible bridge; no eye-brows, wide months, full lips, oily skina, hair as coarse and straight as horsehair, and short, square, ungainly fgures-these are the elements of the ampleasing picture.

"NOT IF IT COST TEN DOLLARS A bottle would I be without Poly son's Nerviline, writes J. A. Buth, a farmer living near Trenton, Ont. Nerviline is the best household lini-ment I know. We use it for stomach troubles, indigestion, headache and summer complaint. I know of noth-ing better to take in hot water to break up a cold, or to rub on for rheumatism or meuralgia." Every farmer should keep a few bottles of Nerviline handy and have smaller doc-tor bills. Large bottles 25c. at drug-gists.

The Indian and a Gas Furnace. Just before gas began to be used in Pawhuska one of the Osage braves visited Bartlesville and got his first slimpse of a gas fire. All he could see in the stove was a pile of redbot bricks, through the crevices of which the blue flames were curling. He said nothing, but before starting home he went to the yard and bought a lot of brick and hauled them home. He burned up six boxes of matches and all the dry wood his wife had cut tryall the dry wood his wife had cut try-ing to get the bricks to burn and final-ly hauled them back to Bartlesville and told the yard man they were no

India Rubber.

Few articles seem more strangely aamed than india rubber. It gets the "rubber" from the first use to which it was put-that of erasing pench marks by rubbing. Nor should it be associated with India. The tree was first marticead by an explanate among first mentioned by an explorer among the Mexican Indians three centuries ago, and the first account of the sub-stance occurs in connection with Co-lumbus' visit to Haiti on his second lumbus' visit to Haiti on his second voyage. Most of our present importa-tion comes from Brazil. But Colum-bus and those explorers who followed him were searching for a short passage to India, and they supposed that the land they discovered was India. The name india rubber is therefore a per-manent sign of their mistake.

him. General Katsura believes that the Japanese soldiers are the best in the world, and says that he would not bar the result if he had to lead them against any white troops. In almost every neighborhood some-one has died from an attack of celic or cholera morbus, often before med-icine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhosa Remedy has undon bedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It's can always be depended more. Red Hair and Baldness Red-headed people are less subject to baldness than others.
