On Sunday afternoon the sacrament of the Lord's Supper was dispensed in the Presbyterian church. The sermon was preached by Rev. W. Dawson, of Canard, from Isaiah 53:6. Buy "Eureka" Phosphate, Ground Bone and Potato Manure at F. J. Porter's.

On Sunday afternoon a porpoise, which had found its way up the basin, was discovered in the creek and shot by Mr. D. R. Munro. The creature was five feet long and weighed 150 pounds. It must have got very much astray in its reckoning as it is a very unfrequent thing for them to be seen in these waters. It was secured by Mr. Frank Curry, who, we believe, secured quite a large quantity of reliable oil from it.

It is here at last. News's Lotion. Greatly Healing remedy known. Demand greater than the supply. For Sale at G. V. Rand's Drug-store.

The regular mission meeting in the Baptist church on Sunday evening was devoted to special prayer for the Yelung mission. Prof. D. F. Higgins presided and in an interesting address explained the principal difficulties to which the missionaries there are subjected. The services were also taken part in by Dr. Sawyer, Rev. Dr. O. Parker. Appropriate music was furnished for the occasion.

Rev. W. Dawson, of Canard, called for Scotland this week on the *Laborator*. He has been granted a well-earned leave of three months, which he will spend in Europe. Before his departure his congregation presented him with \$175 to defray the expenses of his trip.

Rev. H. D. Ross proposed accompanying him, but was prevented by his severe illness. We are glad to learn that he is now considered to be mending, although his condition is still critical.

Take K. D. C. Co., and like others who have tried it, you will say: "It is the Greatest Dyspepsia Cure of the age, and worth its weight in Gold." Sold by G. H. Wallace.

Wanted at F. J. Porter's: Eggs, 12cts; Butter, 20 cts; Oats, 50 cts.

We heartily concur with the following taken from an exchange.—Three things that one common school should be compelled to do: First, get the young in love with land and home—make home so intensely interesting that the children will prefer it to all else; second, teach them to make agriculture profitable and third, make farm life intellectually and morally on a level with the best possible life elsewhere.

Gasperon News.

Mr. J. J. Martin has sold his dwelling house and barrel factory to Mr. Millar. He proposes to build this summer on his farm opposite Mr. Isaac Caldwell.

Mr. E. N. Caldwell and Mr. El. Keadie are each improving the appearance of their houses the first by a free use of paint, the other by putting up an addition. This place is abuzz with abundance of water flowing down the sides of the mountain or gushing from the springs at its base. These springs and streams are being utilized. Pipes were laid last summer from the house of Mr. Daniel Miles, of New Glasgow, and water brought for the use of the family and stock. They seem well pleased with the investment. Mr. Baker is this spring, following their example. There is abundance left to meet the want of all others, and a fine stream of water, famous in history, befalls.

Mr. J. Andrew Caldwell has purchased the Forestry property, and Mr. P. Smythe, has moved to the house of Mr. Lawrence on the ridge. The family will be missed from the community, where they are greatly esteemed.

Mr. Elijah Eagles has purchased Mrs. Layton's property, which he will make his home.

The Baptist "district committee" for Kings Co. held meetings here on the 3d, 7th and 10th of the past month. The seven of the pastors of the County and three of the Professors from the College were present. The morning was devoted to routine business. In the afternoon Dr. Higgins delivered a thoughtful address on "Amusements and the church's relation thereto." The Dr. spoke in his usually brilliant style.

At the evening session Rev. S. B. Kempton gave a paper on Studies in the Acts. Rev. Mr. Bailey gave an address on the N. W. Mission and Rev. Mr. Jensen on Foreign missions.

Church Street Letter.

DEAR EDITOR,—You said in your last paper that you have not received communications from a number of correspondents for some time past, so I thought I would send you a few items from Church Street.

Well, to begin with, there has been a great deal of sickness in this place since February, and a great many are still complaining with la grippe and bad colds. The weather has been very favorable for the farmers to get their sowing done and the farmers are well up with their work.

The female part of the community commenced some time ago to rip, tear and cut into strips the old rags they could lay their hands on, and many pairs of pants with coats and vests are missing, which I suppose have shared the same fate of the old rags. Then the trying time for us men commenced. If the dinner was late of course the women had been very busy with their mat. We let them have the house to themselves as much as possible while the "hooking" process was going on; but if necessity compelled us to go through the house we were sure to be met with, "Now do be careful and do not touch that," or "do wish you would stay out until you were wanted"; and so we had to put up with all the abuse that those ladies saw fit to give. And just here I may say that they can think of a lot. Well, as every thing must of necessity come to an end, I think the last must have been "hooked" for this season, and just as we men were flattered ourselves that quiet was about to be restored again in our homes and that we would be allowed to go in and out without disturbing mists or anything of the kind, and we were beginning to take our usual comfort in our homes, when lo! and behold, one morning, soon after the last mat was finished, we were made to believe in the truth of the old story that one trouble never comes alone, for before noon the chairs, sofas, tables, mats, carpets, curtains, blinds, stoves, pots, dishes, glassware and a thousand other articles such as beds, bedroom sets, &c., were all removed outside in order to give an opportunity of dusting, washing and scrubbing the house. Now, Mr. Editor, I suppose all this is of necessity, but it is a great affliction for us men folk. Thanking you, Mr. Editor, for space, I am Yours truly, GUYTON C. BROS.

The Skoda Discovery Co., are grateful to "you" for the interest he manifested in the safety of their property. His article in your last issue might possibly mislead. Since the Laboratory was taken over from the contractor, only one pane of glass has been broken and that the Company, individually and collectively, have always treated the boys of Wolfville with becoming deference and they do not believe the boys will so far forget themselves as to wantonly injure the Laboratory or destroy their property in any manner whatever.

## Free Farms in the Canadian Northwest.

Manitoba. Assinibola. Alberta. Saskatchewan.

The Government gives one quarter section (106 acres) free to every bonafide settler. A second quarter section can be pre-empted by deferred payments.

The Canada Pacific Railway Company has a large quantity of the best farming lands for sale at \$3.00 PER ACRE, with easy terms of payment.

The Canada Northwest has the most productive soil in the world. Its wheat fetches the highest price; its live cattle are admitted to the English markets, while United States cattle are not. There is a market for the farmer at every station; and there are schools and churches wherever there are settlers. It is not subject to drought, or floods, to grasshoppers, or to cyclones or tornadoes.

Ask any Canadian Railway Agent for books and maps concerning it; ask for "Farming and ranching in Western Canada," or the "Free Farms" map, or "Actual Experience," and read the testimony of men who have gone there from Eastern Canada. Young women are in great demand; they find occupation as domestics directly they arrive, and readily get married to prosperous young farmers. Young men or young women can start life there almost without money. They make the money there; an independence is gained in a year or two years by the thrifty.

The old settlers of Prince Edward Island should see their influence with the young men who intend emigrating to keep them within the Dominion, where they are offering better advantages than in the United States and do not lose their nationality. Lose no time in getting to the West and choose your location. First come, first served. Apply for particulars, price of tickets, &c., to your local ticket Agent or to
