AYER'S Cherry Pectoral.

A. O. SKINNER.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of suffer ers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious ex-posure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now & years old, hale and hearty, and am satisfied your CHERRY PECTORAL Saved me.

HORACE FAIREROTHER."

Rockingham, Vt., July 15, 1882. Croup. - A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of Aver's Cherry Pectoral, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour that little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours, MRS. EMMA GEDNEY."

159 West 128th St., New York, May 16, 1882. "I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried.

A. J. CRANE."

Lake Crystal, Minn., March 13, 1882. "I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHEARY PECTORAL. JOSEPH WALDEN."

Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of Ayer's CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles.

E. BRAGDON, from lung troubles. E. BR Palestine, Texas, April 22, 1882.

PREPARED BY Dr.J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists.

USEFUL INFORMATION. A celebrated physician in England said that the symptons, when small pox first comes, are fever, pains in the limbs disease runs its course in from seventeen to twenty days.

Cut the hair close to the head. To prevent pitting keep the light from the patient's face by means of a piece of black silk, mask like, Remember, that this disease is dreadfully infectious; so look after ventilation, send for the doctor at once. As the only way to prevent this is duty. Get yourself and children vaccinated; let no foolish person persuade you against it; have it done again if the disease comes near you. Anoint the parts with sweet oil to prevent itching, in every case. Let no person go where it is from idle curiosity, only as duty requires; de your duty without fear, pray for Divine mercy and leave the rest with Gol?"

A correspondent of the Moncton Transport, and leave the rest with Gol?" nercy, and leave the rest with God."

Point de Bute, Nov. 24, 1885. Нім.

Fifteen years ago there was in Mon-real a prominent French Canadian physician, a prominent anti-vaccination-His teachings obtained a strong ng the French population, and ton, who has been forem No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of Aver's Cherry Pectoral.

Imany of their children since then have tractors constructing the Northern Pacific grown up unvaccinated. The small pox Junction Railway, put up at Revere House, has come to try his works, and the figures Toronto, on the night of Dec. 1st. Not and it will always cure when the disease is not already beyond the control of medicine.

of its ravages are eloquent witnesses to making his appearance the following the evit that he did. The statistics of morning, the door of his bedroom was

Total deaths (period six months), population, 200,000

Death of English-speaking people (one-third of whole population) Death of French Canadians Of the last there were children under fifteen years of age

The English speaking population of the city, both Catholic and Protestant, never believed in his teachings, most of their children were vaccinated in infancy the brave,
Upon her hills and valleys fair perchance the
white snow lies,
But to us here in Canada she always has fair between them and the bulk of the English speaking population that could affect the small-pox is vaccination. The figures show what that distinction is worth .-

> EFFICACY OF VACCINATION. London Times of 13th ult., publishes small-pox statistics of the parish of St. Pancras, embracing over 200,000 persons. Of 111,148 persons over 10 years of age who had been vaccinated, 2,042, or about 19 per 1000, were scarred by small-pox, while of 1377 never vaccinated, no less than 857, 622 per 1000, bore tracts of small-pox on their faces. This shows the remarkable efficacy of vaccination.

WEAKNESS OF GREAT MEN.

Alexander was too fond of strong Julius Casar was inordinately vain and fond of dress. Demosthenes was always on the plat-

Peter the Great was a glutton and a drunkard. Napoleon was addicted to lying; so much that the habit became notori The Earl of Chatham always dressed

and posed for effect. Sheridan was never able to give up the bottle and gaming table. George Washington occasionally swore when he was very mad.

Gen. Santa Anna had a weakness for cock fighting. Disraeli started out a dandy and remained one to the last. Alexandre Dumas earned millions with his pen, but could not keep out of debt.

—Chicago Times.

WONDERFUL TAPESTRY.

The Bayeux tapestry is a wonderful piece of unwritten history. Of the 1,512 figures which comprise the picture story of the conquest of England, 623 represent persons, 202 horses, 558 other animals, 37 buildings, ships, and boats, and 49 trees. The tapestry is 224 feet lung and 18 The tapestry is 224 feet long and 18 inches wide. The figures were made by Normans, and Norman women plied the needles. The tapestry was made to adorn the wall of the new cathedral, which was dicated at Bayeux in 1077. It value is

estimable.—Chicago Herald.
