### **HUMMELL A WINNER**

Need Not Pay Alimony—Wife Must Pay Costs.

Chief Justice Falconbridge has handed out his decision in the alimony case of Hummell vs. Hummell, tried without a jury at the Sessions here in November. Gebhart Hummell, the defendant, is an Alsatian, 65 years old, and has been many years in this Province. He has acquired property worth about \$5,000. The plaintiff is his second wife. They met on Sept. 6 last, were married on the 16th she left his house on the 9th October, and this action was brought on-Oct. 10, and was tried on November 28. The Chief Justice remarks that the rate of speed is unsurpassed in his experience. Judgment would probably have followed as swiftly, but a settlement was suggested, and judgment was delayed while fruitless megotiations were carried on. The Chief Justice finds that defendant in good faith offered to let plaintiff comback, "if she will behave herself"; that she refuses to go back, and that she would not be in danger of life or limb if she should go back. Action dismissed. Defendant to pay plaintiff's disbursements. Thirty days' stay. M. J. O'Reilly Hamilton) for plaintiff, St. Chisholm (Hamilton) and W. A. Logie (Hamilton) for defendant.

Miss Chilman, the lady superintendent of the institution whose affairs she has advised and assisted them in a ministering for many past years. Miss Chilman possessed exceptional ability, not only in the profession of nursing, but necessarily as a foremost executive officer, it is mainly to her that the public are indebted for the high character our institution has attained amongst the public hospitals of the Province. She introduced many new features of value in practice here, and developed every branch of the service to the utmost degree of efficiency. She was wise and prudent in mind and in manner, so that difficulties which constantly arise in dealing with interests diverse in their nature were always harmonized, and pleasant relations were constantly maintained between all who are concerned in hospital work."

## LATE MISS CHILMAN. SOME OF THE HARD AND EASY SPLITS IN BOWLING.

Ability to Pick Up Spares Marks the Finished Bowler.

Spare bowling is the side of the great winter game that distinguishes the expert from the average performer. The man who can pick up spares right along is the man who always has big scores. But the element of luck is so strong in bowling that instead of the ordinary spares being left by the first ball, splits occur. These splits are the bane of

that the greatest skill is needed to get the pins. It would be imp of all the splits, for they are so different that hundreds of combinations are

every bowler and so varied are they

possible. familiar to every bowler or spectator. To pick it up the ball is sent down the alley to strike the 5 pin and the ball is deflected enough to the right to get

No. 10.

Here is how a few of the others are picked up:

No. 1. The 5-7-9 split, ball strikes 5 pin lightly, sending the pin against 7, while the ball gets 9.

No. 2. The 4-7-9-10 split is difficult. The ball strikes 4 lightly on the left

side, causing the pin to carom and pick up 9 and 10; the ball carrying 7. No. 3. The 3-5-9-10 split is difficult. The ball must hit the 3 pin just full enough so the pin will strike 5 at the proper angle to send it against 9. Ball carries 10 pin.

No. 4. The 2-4-5-8-10 split is not as difficult as it looks. The ball strikes 2 pin full and passes between 4 and 5. carrying 8. No. 5 is hit thin, sending it across the alley, picking up 10. No. 5. The 3-6-8-40 split is simple. The ball hits No. 3 onethird full on the left. side and the pin gets 6 and 10. Ball

carries No. 8.

No. 6. The 2-4-7-6-9-10 split is a long chance indeed. The ball hits No. 2 on

chance indeed. The ball hits No. 2 on extreme left, the pin caroms and gets-the 6, 9 and 10 pins, while the ball carries 4 and 7 pins.

No. 7. The 2-5-10 split is harder than it appears. The ball hits 2 one-fifth full and 2 caroms and gets 5 and 10.

The railroad split, as the 4-7-6-10 is known, has been made, but upon rare occasions. To make it the ball must cut the 4 bin so fine that it slides across out the 4 pin so fine that it slides across the alley and gets the 6 and 10 pins, while the ball picks up No. 7.

while the ball picks up No. 7.

Like billiards, the possibilities of bowling are unlimited. A ball which strikes seemingly perfect leaves queer formations at times and causes wonder that such a thing is possible. Strikes are easier to get than difficult spares, and the man who can go through and evening picking up spares is the finished bowler.

Dakota Man Finds His Wife and Children in Brantford.

in Brantford.

Brantford, Jan. 9.—A man named Chambers is here from Dakota on a strange mission. He claims that seven years ago his wife deserted him, taking away two children, a boy and a girl. For years he heard nothing of them, until lately he leard they were supposed to be living in this vicinity. The father communicated with the authorities, with the result that the trio have been found in Echo Place.

The woman is now residing with another man and their two sons. The Dakota father has taken proceedings to recover his children, and the case is slated to be heard on Saturday.

LOW GRADE CHEESE.

Too Much of It is Made, Says George A. Barr.

Picton, Jan. 9 .- George A. Barr, of the staff of the Dominion Dairy Commission and official referee in Montreal, stated before the Eastern Ontario Dairymen's before the Eastern Ontario Dairymen's Association this morning that Canada's reputation for high-grade cheese was being damaged through immense quantities of second and third grade produce being placed on the market. Only two per cent, of all cheese shipments examined by him at Montreal were, he said, of first grade. The excess of low-grade cheese was due to the great number of small factories, which, being in close competition, were unable to pay for expert cheesemakers.
