Is there nothing doing about a l'etition to the Imperial Parliament ! We are not advocates for precipitate or ill digested measures, but time presses, and delay can only prove detrimental to the heat interests of the Colony. The Home Government must be made aware of our determination no longer to submit to the capricious proceedings of a facliberal principles in the colony, and their energetic use of the Constitutional means of bringing the real condition of the Colony under the notice of the British Gaverome would unquestionably have no small weight ing the nature of the measures that may be hereafter, applied for the settlement of our distractions.

A public meeting, for the purpose of mk ing into consideration the best means for protecting property against fire, will be held this afternoon, at three o'clock, in the Quarter Sessions Room, in the Court House We hope the meeting will not overlook the necessity of having the number of fire plugs increased throughout the town. Whenever this admission of seen to be pointedly applicable to public to terests of infinitely greater importance in those contained in the Clique's budget grievances, this thick and thin advo urns round and exclaims against all such plication as "empty assertions" But if country is standing still as regards its la retrograding in its agriculture, and increas at a very slow pace in population, unde fee and representative form of Government en little whather it is standing not as to the prevalence of the "election principle," especially when it is certain t the supremacy of this principle, in every do partment of the Government, would not sub lue the pernicious prejudices of the mass of the population, nor lead to a reform of those laws which have so long exerted a blighing influence on every branch of industry. We have no reason to suppose, that the men wh have enjoyed the power, for many years, effecting the ameliorations alluded to, work do so if that power were rendered supress is is simed at. If they had, in times per realously and houestly effected all that is could, for the great interests of the count some degree of credit would now be attacked to their fine promises As it is, hower they have shewn themselves to be selfer agitators, who have used the abuses the administration of the Government, existence of which we are free to see as a fulcrum to rest the lever of their por farity upon, with the intention of ras themselves into comfurtable places of pro or filling their pockets with the public min by a repetition of those very j bs, that had other hands than their own, excited their triotic indignation and abhorrence.
