Wedding Bells.

The McDonnell-Joy Wedding.

On Thursday, the 19th inst., St.
George's was in fête celebrating the
wedding of Miss Ellen Agnes McDon-
nell, daughter of Magistrate and Mrs.
McDonnell, of St. George's, to Michael
Joy, Junior partner in the progressive
business firm of James Joy & Sons,
Port au Port. The marriage took
place at a few minutes after 9 o'clock
on the morning of the 19th. The nu-
merous guests who were present at the
High Mass being celebrated in the
Convent Chapel of St. Michael, the
Sisters of Mercy, whose pupil Miss
McDonnell was. The celebrant was
the Rev. M. G. Sears. The bride look-
ed beautiful in a costume of white silk
with veil and orange blossoms import-
ed from Dublin for the occasion. The
bride and groom received Holy Com-
munion, and during the Mass the
priest addressed them in a few elo-
quent words from the Catholic liturgy
which impressed on them and on the
wedding guests who crowded the ante-
room of the Chapel, the solemnity and
sacredness of the marriage tie. After
Mass the wedding breakfast was serv-
ed at the residence of the bride's par-
ents, where every thing that good taste
and lavish hospitality could do was
done to lend enjoyment to the occa-
sion. Then, within a few hours, came
luncheon, and the wedding banquet
was served at 7 p.m. To those who
were acquainted with the princely hospi-
tality of Mrs. and Magistrate Mc-
Donnell no further description is ne-
cessary, to others I can only say that
the dining room, reception rooms and
drawing room were most tastefully
decorated. The tables a blaze of light
reflected from silver and crystal, and
the whole celebration a "feast of
pleasure and a flow of soul" worthy
of being marked by each and every
one who was present in golden letters
on the ivory tablets of memory. All
day telegrams of congratulations and
felicitations poured in on the bride
and groom from their many friends in
different parts of Newfoundland, and
all day.

Music arose with its voluptuous swell,
And songs on which the heart delights
to dwell;
Soft eyes looked love to eyes which
spoke again.

And all went merry as a marriage
bell.

James McDonnell, brother of the
bride, was best man, and came from
St. John's to be present at the cere-
mony. Misses Molly McDonnell and
M. E. Joy were bridesmaids; they were
most beautifully dressed in costumes
second only to that of the bride; and
oh, it is at a time like this that a mere
man feels his limitations, and longs

for the powers of fervid description
and appreciative knowledge of these
details, which come so naturally to the
weaker and diviner sex.
The bride was the recipient of num-
erous and valuable presents of gold
and of silver, of cut glass and of crys-
tal.

"Fair tokens from true friends,
That every gift within the cornucopia
of fate
"Shall pour upon and bless their nup-
tial day."

Among the guests present were the
Revs. M. G. and P. J. Sears, country-
men of the bride's father, who brought
to the festive occasion, for him at
least, a little waft from memory of
the "green fields and fairy haunted
glens of Erin," the well loved land of
his sires and of his boyhood's happy
memories.

The writer, on behalf of the Even-
ing Telegram and the many friends of
the bride and groom in the Capital
and other parts of Newfoundland,
wishes them all happiness—Com.

SEAWALKS DANGEROUS. Por-
tions of the Water Street sidewalks
are in a very dangerous condition,
being covered with ice, which is un-
even and over which pedestrians go

sprained his arm. He was compelled

Panama Forti- fications.

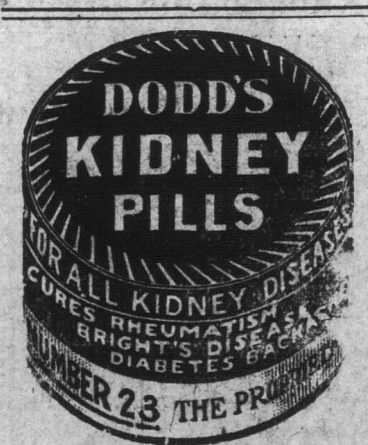

Special to Evening Telegram.
WASHINGTON, Jan. 23.
Fortification of the Panama Canal
is desirable, such is the opinion of the
General Board of the Navy of which
Admiral Dewey is the President. The
Board's opinion is as follows:—"The
General Board believes that the pro-
posed fortifications at the terminus of
the Isthmian Canal will be invaluable
in assisting the transfer of the United
States fleet from one ocean to the
other through the Canal in the face
of an opposing fleet. The function
of fortifications in this place is
principally the same as at the canal ter-
minus as it is at any fortified place
from which the fleet may have to
issue in face of the enemy's fleet."

Steamer Fogota Had Rough Passage North.

The s.s. Fogota, Capt. B. Barbour,
arrived here from the northward at
10:15 last night after a very rough
and tedious run. The ship left here
on Friday week, the 13th inst., and
arrived at Chagres Islands on Mon-
day night, the 16th, when a heavy
N. E. storm was encountered. She
left Roberts' wharf to go to Twilling-
gate, and before getting up through
Main Tickle so intense was the frost
that all hands had their ears, noses,
cheeks and hands badly nipped. The
ship this trip had her first experience
of heavy ice and proved herself a fine
vessel to contend with the foe. The
Fogota butted her way half-way
through the run when so fierce was
the storm and so thick was the vapor
on the water that she could not pro-
ceed and had to make fast to Seamen's
schooner anchored there. She
made another effort later, but it was
as hard as ever and she had to run
into Foxey Head Cove, making fast
to Pickford's wharf. For miles
around the ice was 8 inches thick,
but she eventually steamed through it
under a deal of butting, and got into
Twillinggate Wednesday morning, the
18th. She took a big freight of fish,
etc., here and leaving at daylight
made for but her way out, and in
making Fogota had another hard knot.
She had to butt her way from West-
ern Tickle to Hodge's wharf at Fogota
through 8 inches of ice, and arrived
at 11 a.m. Thursday. She took a big
freight of fish here also. Here Capt.
Barbour performed a daring feat,
running his ship inside of Harbor
Rock, where a vessel of her size, or
bigger, never before en-
tered. The captain took his course
by chart without a pilot, and the peo-
ple were amazed at his skill and dar-
ing in safely negotiating this narrow
channel in which there was only a
few feet of water. Leaving there at
1 a.m. Friday the vessel proceeded to
Joe Batt's Arm and Tilton. At 2 p.m.
that day a southerly gale sprang up,
and after leaving Joe Batt's Arm the
ship had all she could do to steam
around Cape Fogota. She tried to make
Seldom in the storm but had to re-
turn and make Indian Islands, where
she remained until daylight Friday,
leaving there in a blizzard and coming
down inside of Cann Island to get in-
to Seldom. She sheltered in the slob-
ber and waited until the weather
cleared. Getting to the entrance of
the harbor the wind suddenly chop-
ped off to the N.W. and blew with
hurricane force, causing a big sea,
but the vessel hugged the shore and
arrived without mishap. Terrible
weather then prevailed, nothing could
be seen owing to the blizzard which
raged and the glass dropped to 14 be-

Few Doses Put Bad Kidneys in Order.

In all the world there is no man or
woman who can afford to neglect the
slightest kidney disorder for one
single day.

Kidney diseases are the most dan-
gerous, because the first signs are
seen in other parts of the body be-
fore anything wrong is noticed with
the kidneys themselves.

Some of the symptoms, though,
cannot be mistaken; for instance, a
constant aching or misery in the
back, sides or loins, or headaches,
Percher, H. J. Earle and wife, H.
Earle, Staff-Capt. Cave, H. J. Oldford,
G. Turner, C. H. Emerson, J. Goodi-
son, J. Milley, Rev. Dr. Murphy, J.
Campbell and 11 steerage.

The time to cure kidney trouble is
before it settles into Diabetes, Dropsy,
Gravel, or Bright's Disease. Sick
kidneys also cause thick
cloudy, offensive urine or it is full of
sediment. Irregular of passage and
often uncontrollable or attended by a
sensation of scalding.

the Throne was read and the Address
in Reply moved. Mr. Alex. Bryden

Herring Fishery Over.

Catch Not Up to That of Last Year.

Capt. Fitzpatrick of the s.s. Portia,
who arrived from the west last night,
reports that the herring fishery is
now drawing to a close. At Bonne
Bay, where Capt. Bonin is agent for
the Gordon Pew Co., he reported to
Capt. Fitzpatrick that he had shipped
25 cargoes so far to his firm—19 car-
goes salted and 6 frozen. Capt. Bonin
paid out in gold about \$145,000. Capt.
Carter, who had also been there all
the winter buying up fish for his firm
at Gloucester, has paid out about
\$30,000 for herring and salt bulk cod-
fish. Capt. Bonin and Capt. Carter
came with Capt. Fitzpatrick from
Bonnie Bay to Port aux Basques on
the s.s. Portia and joined the s.s.
Bruce there for home. The schoen-
ers Senator Gardiner, A. W. Parker,
E. Lowell, Hiram Lowell, Essex and
Massachusetts were at Bonne Bay
waiting to fill up, but the herring
were slackened off, the Bay freezing up,
so that they were on the qui vive to
get away, and have likely sailed by
this time.

The shore train at 6 p.m. yesterday
took out about 30 passengers.
