Uncle Walt THE POET PHILOSOPHER.

So many in the vale of woe are shining lights on Sunday, and then they let religion go, while chasing scads on Monday! On Sunday some are so devout you hear their pinions quiver, they sing the hymn book with a shout, from river unto river; and when the SATURDAY Sabbath goes from us they scratch for bones and laurels, and do not care a tinker's cuss for any set of morals. Six days on sinful games they flit, and once a week are pious; the books in which the Word is writ that sort of graft deny us. Religion's good the whole week through, to Saturday from Monday, and we should then refuse to do things we'd abhor on Sunday. I am not strong on singing psalms—my voice is hoarse and creaky from eating prunes and boneless hams and health food from Topeky; I am not strong on texts because the scores boards keep me humping; one can't stock up with moral saws when football teams are jumping. But I've a simple creed, a plan that may have come from heaven; I'll be as pious as I can, not just one day, but seven.

Death of Mrs. Lineham

Amongst the many sudden and sad deaths which took place was that of Mrs. E. Lineham, formerly Margaret Norris of Salmonier, which occurred on Nov. 18th, the result following an operation from which she never recovered. Mrs. Lineham was 24 years of age and leaves a husband and two children—a little boy 2 years old and a girl 14 months; also a mother, four sisters and two brothers, besides numerous friends in New York, Brooklyn and Boston. Mrs. Lineham was one who was always admired for her sweet and gentle disposition. The funeral was held from her home, 2138 Nostrand Ave., thence to the Grand Central Station, where her husband and cousin conveyed her body to her former home in Newfoundland for burial. We extend our most sincere sympathy to the husband and darling children, also to her mother, sisters and brothers.—Com.

Brooklyn, N.Y., Nov. 11, 1911.

A Protest.

Editor Evening Telegram.
Dear Sir:—In looking over last night's Council report in your paper I noticed that tenders are to be asked for erection of steps west of Telegram Office. Now, sir, I respectfully protest against such action of the Council, as I don't think that they alone should be saddled with the expenditure on above erection. Before the new Clothing Factory started the steps in question were in good repair. When the building was commenced the Contractors had the monopoly of half those steps, and pedestrians had to watch their opportunity to get up or down. In my opinion the Contractors of the Nfld. Clothing Factory are the proper persons to repair those steps, as they were in good condition before work started on the building. To show you how Kennedy Bros. were favoured, I need only say that when Pitts' building and the new Seamen's Home (which is now

in course of erection) were started, the Contractors of those buildings had to lay plank sidewalks for the convenience of pedestrians. The Contractors of the new Clothing Factory were allowed to do as they please in regard to utilizing the sidewalk. Hundreds of people going back and forth Duckworth Street during the past summer had to wade ankle deep in mud when they passed up or down that way. Now, the taxpayers of the city are asked to repair damage caused by these Contractors. I think sir, I am voicing the sentiments of many in drawing the attention of the Council to this matter.

Yours truly,
TAXPAYER.
St. John's, Nov. 19, 1911.

Saturday Night's Storm

Saturday night all over the country was very stormy and on the West Coast the wind travelled with the velocity of 60 miles an hour. In the city the rain fell in torrents, and in the eastern places the rivers and streams were swollen by the down-pour to a great extent. At Little River the wind attained the velocity of a hurricane and some washouts occurred along the railway line. The wind blew a gale from the south, and the Rosalind, which left here at midnight Saturday, did not reach Cape Race till past noon yesterday. The Invermore received a buffeting in Cabot Strait in crossing to Port aux Basques, and the telegraph lines were interrupted in different parts of the country. As far as could be known yesterday the storm was equally severe in the Maritime Provinces.

Certainly Ends Stomach Misery

Indigestion, Gas, Heartburn, or Dyspepsia go in five minutes.
You can eat anything your stomach craves without fear of Indigestion or Dyspepsia, or that your food will ferment or sour on your stomach, if you will take a little Diapiesin occasionally.
Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes Belching, Dizziness, a feeling of fullness (like a lump of lead in stomach), Bloatingness, Heartburn, Water brash, Pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapiesin really does all the work of a healthy stomach. It digests your meals when you digest all the food you eat and leave nothing to ferment or sour and upset the stomach.
Get a large 50-cent case of Papie's Diapiesin from your druggist and start taking now, and in a little while you will actually brag about your healthy, strong Stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and Gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

Should you at this moment be suffering from Indigestion or any stomach disorder, you can get relief within five minutes.

At Synod Building.

ADDRESS TO C. M. B. C.

Yesterday afternoon a very successful meeting of the Cathedral Men's Bible Class took place at the Synod Building. A timely and forceful address was delivered by Rev. H. E. Fletcher, of Burgeo, on the vices of gambling and betting. He denounced in vigorous terms lotteries, sweepstakes, pitch and toss which were selling some of our best sports and games. He called on the members to do their best both by precept and example to help to suppress the growth of the gambling habit. Rev. J. Bell in thanking the lecturer on behalf of the Class, said that warning was timely. Those who knew the city best were fully aware of the havoc wrought amongst those who indulged in betting and playing for money which was detrimental to themselves and the community. The large body of men present took the keenest interest in the subject and applauded the remarks of the speakers. The hymns were accompanied by the Class orchestra, and the meeting closed with a blessing.

Sprained His Leg.

Edward Dunphy, of Central Street, fell and sprained his leg badly last evening while playing on Queen Street with his companions. First aid people came along and after doing what they could brought the boy to his home. Dr. Fraser was called to attend him, and on examination he found that no bones were broken, the injury being only a bad sprain.

MONTREAL, Nov. 19.
The strike of Longshoremen closed Saturday night when suddenly the majority of men went back to work. As a result of a conference, the men agreed to finish the season at the old terms, but will continue their fight in the Courts against the Shipping Federation, insisting they broke the terms of the contract made with the Longshoremen two years ago.

Special to Evening Telegram.
PEKIN, Nov. 19.
The conditions of China are still chaotic. When Yuan Shi Kai had accepted the Premiership and nominated his cabinet, it was still thought he may bring around the provinces, his views being mainly a nominal monarchy and a constitution; but the revolutionary movement seems too strong for him and the idea of a Republic seems to grow. Yuan works with even more than Chinese caution while he watches actual events and places where things are being done, and the next step from the Premiership may be provisional leadership of the Republic.

Special to Evening Telegram.
BERLIN, Nov. 19.
The Secretary of Foreign Affairs has communicated to the Reichstag additional provisions of the agreement reached recently between France and Germany over the Moroccan trouble. France, the communication says, has waived the right to purchase Spanish Guinea, if Germany wishes to acquire the Colony from Spain, and that Germany will not take part in any of the special agreements between France and Spain, which these two countries may arrange on the subject of Morocco. A despatch from Madrid from Premier Castelar denies that Spain was about to sell Guinea to Germany or any other power, and said that Spain was willing to use great moderation in negotiations with France about Spanish vested rights and interests in Morocco. A despatch from Paris, however, declares that Germany had been negotiating with Spain for the purchase of the Colony.

Watchman's Leg Was Broken.

David Carey, the night watchman at Browning's bakery, had his leg broken yesterday evening while on duty there. He was also injured internally and is now in hospital. Owing to the heavy overflow of the water in the river the wheel was set revolving and the machinery began to move. The watchman ran to throw off a belt. It came off with a sudden jerk and hitting him on the leg broke it above the knee. He was also cut about the face and his hip was bruised. Being alone, Carey had a hard struggle to get out of the building. He limped and crawled to the house of Mrs. Stafford, where he asked for help. Dr. Tait was called up and coming to the house bandaged the wound and ordered the man to the Hospital. He was taken there in the ambulance.
