## Lloyd George Optimistic

But Predicts Long Struggle in Russia--Soldiers Demonstrate Against Hughes--Prince of Wales Delivers Farewell Address.

LLOYD GEORGE SPEAKS AT MAYOR'S BANQUET.

LONDON, Nov. 8.

Premier Lloyd George speaking at the Lord Mayor's banquet to-night, referring to the Supreme Council's attempt at Russia's Peace early this year, said, "I hope the time is not distant when the powers will be able to renew that attempt with better prospects of success." The Premier recounted briefly the world's troubles, saying apart from Russia, the outlook is good. He spoke optimistically of the Adriatic and Turkish questions which with Russia he said constituted the world's chief problems. He recalled that exactly a year ago at the same Board, he announced the abdication of the German Emperor. He did not believe that the few well informed then expected the ensuing year would bring such progress toward a settlement as had been made. The Premier taking up the most difficult questions left for settlement the Adriatic, Turkey and Russia. He said the Adriatic question has gathered about it a deep passion, but I am confident a settlement will be found compatible with the interest and honor of our gallant Allies. I am certain that justice will be done the nations emancipated from the Austrian yoke. The Premier declared that there was a complete agreement between the Allies that Turkish domination of the Greeks, Arabs and Armenians should end and that the Black Sea should be free to all nations. The outlook in Russia is unpleasant he continued. A few weeks ago there was a promising prospect of an early issue but to-day's indications point to a more prolonged and sanguinary struggle.

RENEW SAILS TO-MORROW.  
LONDON, Nov. 8.  
The Prince of Wales ship Renown, sails on Tuesday to bring him home.

SEIZURE OF ANARCHISTS' MATERIAL.

WASHINGTON, Nov. 8.  
Included among the matter and literature seizure by Government agents in the recent raids on the anarchists' quarters were quantities of articles used in making bombs, a complete counterfeiting plant, a large supply of counterfeit bank notes, thousands of pieces of literature described as of the most inflammatory nature, and scores of red flags, rifles and revolvers.

HOT TIME IN AUSTRALIAN ELECTION.

LONDON, Nov. 8.

The Times' correspondent records lively doings in the election campaign in Sydney, Australia. Premier Hughes after declaring his policy, was demonstrated against by five hundred soldiers who demanded cash grants in cash, not bonds. The Premier's hotel was broken into, but the attackers were beaten off by the police who fought in showers of bottles and other missiles. The Ryan boom has abated owing to an official report that there has been a great increase in taxation under Ryan's Queensland Premiership who is an advocate of "cut the painter" policy and is in bad odor, as it is believed the Sinn Feiners are running him.

THE PRINCE FAREWELLS TO OTTAWA.

OTTAWA, Ont., Nov. 9.

A sympathetic and responsive audience of two thousand odd men, comprised of members of parliament, professional and business men, heard the Prince of Wales make his penultimate speech to the present tour in Canada, to-day, at the end of the Canada Club luncheon in the Chateau Laurier. It was a friendly and intimate speech, in which gratitude for Canada's welcome and an earnest appeal for loyalty to the British ideals was punctuated with good-humoured rally. The Prince emphasized again his fellowship with Canadian citizens in their loyalty to the British Throne, and the fact that he would go to the United States next week feeling that he belonged to Canada as much as to Great Britain.

FORCES RETREAT.

HELSINGFORS, Nov. 9.

The forces of General Yudenitch have retreated to Wemur station according to a communication received Saturday morning by the Russian Northwest Army.

AMMUNITION DUMP BLEW UP.

NAMUR, Belgium, Nov. 9.

A large ammunition dump near Fort Diau blew up early this morning, only four of the fourteen British sentries on duty answered for the roll call to-day. It is feared that the explosion killed several sentries.

were killed. Explosions are continually taking place among the remnants of the dump. The cause of the main explosion has not been ascertained.

THE CANADIAN PARLIAMENT.

OTTAWA, Nov. 8.

Uncertainty prevails as to when Parliament will prorogue. This afternoon good headway was made with business in the House but as there are estimates aggregating upwards of sixty three million dollars still to be voted the probabilities are that it will not be possible to bring the session to a termination before Monday night.

DENIES HAVING AGREED TO INJUNCTION.

INDIANAPOLIS, Ind., Nov. 9.

John L. Lewis, Actg. Pres. of United Mine-workers of America, to-night denied that he had agreed to comply with the order of the Federal Court here yesterday to call off the strike of bituminous coal miners of the country before 6 p.m. next Tuesday evening. Statements to the effect that I shall or shall not comply with the mandatory proceedings of the injunction writ are unauthorized and premature, he declared.

## Want to Keep Warm?

Do you want to be warm this autumn and winter? Then read on.

Exercise is the thing! But it is not always possible to get it, or enough of it. Yet it can be noted that the warming effect of exercise is not something that passes quickly. It lasts some hours. A brisk walk from, say, six till seven, would find you warm at ten. And if you cannot, by stress of weather, get out for exercise, most houses have stairs!

Exercise, too, holds other than warming merits. It prevents chills.

And after exercise--or, better still, as its partner--comes food. Food is literally the body's fuel, and creates heat. But all food does not create the same amount of heat. Some lower it. In winter, the heat-producing foods, like porridge, fat meat, dripping, stews, butter, bacon, pork, and oily fish--salmon, muller, etc.--should be eaten. Slow mastication, plus exercise, will enable all these foods to digest easily and warm the body.

Clothes! We think that to go warmth must have weight. That is a fallacy. True, weight makes us feel hot for the time, but what is happening is that we are surrendering our body heat. Presently we shall be very cold. Winter clothes should be loose, so that an air buffer can form. Two thin vests, not close-fitting, are infinitely better than one very thick one. Clothing, generally, should be of no heavier texture than will repel extra cold winds. All else is waste. The material should be wool, not because wool "makes you warm," but because it conserves the heat which radiates from your body.

## Rising to the Occasion!

Although it is to be presumed that with most theatre-goers the incentive is the play as a whole, a particular scene or a mere "tag" will often materially influence the financial results by attracting patrons with a special rather than a general dramatic instinct.

The persistent demand of a French audience for a particular line in a play once had a curious effect. In the last scene the usual pair of guilty lovers are discovered by the husband, who, having unexpectedly returned to his home, according to French custom, tries to force admittance to the room.
