## DAIRY INTERESTS.

Meeting of the Directors of the W. O. Dairyman's Association—Date of the

Next Annual Convention.

The board of directors of the Dairyman's Association of Western Ontario met yesterday afternoon in the board room of the Western Fair offices, Queen's Park. There were present President Pattullo, Woodstock; Thomas Ballantyne and A. F. MacLaren, Stratford; Wm. Dickson, Atwood; John Frain, Harrison; Thomas Gibson, Fordwich; Harold Eagle, Attwell; Station; J. F. Williams, Ingersoll; John Geary, J. L. Pearce and J. W. Wheaton (secretary), London.

The most important business transacted by the board was the selecting of the place for holding the next annual convention. It was decided to hold the next annual gathering in Stratford on Jan. 15, 16 and 17, 1895.

It has been the action of the association to move around from one place to another with its annual convention. By following this regular order there are one or two smaller places that would take preference before Stratford. During the last year or two, however, the annual gathering of the western association have been so largely attended that it was considered advisable to select those places where suitable hall accommodation could be secured and where there would also be sufficient hotel accommodation for the entertainment of the numerous visitors and dairymen who annually attend. As the annual convention is due to be held in the northern district, Stratford was chosen as the most suitable and the most convenient point for such a gathering.

Special efforts will be put forth to make this convention more than usually attractive and profitable. The secretary will issue a specially prepared programme advertising the meeting. There will be a couple of prominent speakers on dairy topics present from across the line, foremost of whom will be Mr. John Gould, of Ohio, who rendered such valuable services at the Ingersoll convention last year. The leading authorities on dairying in Canada will be present, all serving to make the coming convention of unusual interest to the dairymen of Western Ontario.

[Special to Hamilton Times.]

OTTAWA, Sept. 18.—The tour of the Ministers to Manitoba and the Northwest and British Columbia has been declared off. There was a meeting of the Cabinet at 11 o'clock today, and the result was that there will be no effort for the present on the part of the Government to counteract the work done by Mr. Laurier and his party in the west. The exact reason for this is not forthcoming. It is, however, said that Sir Hibbert Tupper is unable to go on account of illness in his family. It is also said that Mr. Outram is unable to go on account of illness in his family. It is also said that the idea of going.

### That Ruinous Free Trade.

OSWEGO, N. Y., Sept. 18.—The effect of the Wilson Bill placing lumber on the free list is being felt here. Ten cargoes with a total of 1,700,000 feet of lumber have arrived here within the past 26 hours. Twice that amount is on Canadian docks awaiting shipment. Lumbermen are jubilant, as are also 500 longshoremen, most of whom have done nothing all summer.

### Fraud Charged.

ST. THOMAS, Sept. 18.—Yesterday Chas. H. Tothier and Geo. E. Myers, of Wallaceburg, were arrested on the charge that they "did conspire and agree together by deceit, falsehood and other fraudulent means, to deprive Mr. John A. Bobler of the sum of \$1,000." The fraud complained of was in connection with the sale of a quarter interest in Mr. Bobler by defendants in an arrangement for cooling off wagon tires. It is alleged that the defendants made agreements with Mr. Bobler which they did not carry out, and representations which were not in accordance with facts.

### The Quadrant Scores Again.

Messrs. Carroll, McKenzie & Co. have received the highest award (a silver medal) at the Western Fair for their display of "Quadrants" in competition with the best English and American wheels. Their exhibit is very fine, embracing silver and gold-plated racers, and road racers and ladies' safeties enameled in most artistic shades. Colored incandescent electric lights are suspended from each of the frames, and choice flowers, ferns and rubber plants adorn the ends of the two big platforms of machines. On the top row four old machines are shown, viz., the nickel-plated machine which took the gold medal at the World's Fair, Frank F. Radway's machine, with a record of his victories above it, then comes the first "Quadrant" racer that was imported into Canada by Mr. Carroll, and upon which Clay Manville won the city championship in 1892, and next the machine which won the city championship this year. These four wheels are set in motion by means of an electric motor, giving a novel and decidedly pretty effect. Conspicuous in the exhibit is a large portrait of Radway, and on all sides are suspended striking announcements of "Quadrant" achievements, the most prominent being Radway's recent records from 6 to 100 miles. The machines shown are in point of workmanship and finish the finest by far that we have ever seen, and excel in the opinion of competent judges anything of the kind previously seen in Canada. Messrs. Carroll, McKenzie & Co. have reason to be proud of their exhibit, and well deserve the silver medal which has been awarded them, for it is unquestionably the finest array of machines combined with artistic effect that has ever been shown in Canada—Toronto included.
