**FOUND DEAD.**  
Duncan Gray, of Lobo, Expires Suddenly at His Lonely Home.  
Duncan Gray, of the town line between Lobo and East Williams, on lot 22 of the 12th concession, was found dead in a little outhouse by his neighbors yesterday morning. He was well advanced in years and lived alone. It is alleged that his wife left him some years ago, and after this he was confined in the asylum for some years. On his discharge from that institution he lived by himself. On Sunday evening he was seen by many churchgoers wending his way towards his lonely domicile. To several neighbors he complained of violent pains in his side. He went home, and that was the last seen of him alive. His absence in the morning was noticed by the neighbors, and when no response was made to repeated knocking at his door, the house was entered by the neighbors. His heart failure is assumed as the cause of death.

**MISSIONARIES IN PERIL.**  
Presbyterians in the Honan District Where the Rebellion is Raging—Were Any Massacred?  
The Presbyterian Church in Canada has for some years carried on a vigorous work in the Province of Honan, which is regarded as one of the most difficult to proselytize. Hence there are no less than fourteen Canadian missionaries in the province, who, it goes without saying, will be affected by any rebellion which breaks out. It is impossible to say how near any of them may be to Kuang Wang, the inhabitants of which were recently massacred by rebels. The Presbyterian missionaries in the province, with the places at which they are stationed, follow:  
Chan-Ka-Fu—Rev. Jonathan Gofforth, Rev. Donald McGillicuddy (home on furlough), Rev. James Menzie, D.D., Miss Davina G. Robb, Miss Mina A. Fyke and Mr. J. Grinich.  
Hsin-Chen—Rev. James Alexander Simmon, Mr. Wm. Malcolm, M.D., Rev. R. Alex. Mitchell, B.A., B.D., returned home not long ago from Chu Wang, his place being taken by Dr. P. C. Lister.  
Chu Wang—Rev. Murdoch McKenzie (home on furlough), Mr. Wm. McFarlane, M.D., Miss Margie J. McIntosh, Miss Jeanie J. Dew, M.B., Rev. Wm. Harvey Grant, B.A.

He was taken to his brother's at Burgessville, where he has lain in an unconscious state ever since. He is a brother of Mr. C. V. Corless, of this town.

**Dr. Bucke's Record.**  
His Declarations on "Mental Evolutions" Secures Much Attention.  
Latest Pen Portrait of Our Interesting Fellow-Townsmen.  
"The Time and the Hour," a well-known Boston periodical, has the following appreciative sketch of the gentleman well known to many Advertiser readers:  
"Dr. Richard Maurice Bucke, who read the widely-noticed paper on 'Mental Evolution' before the recent meeting of the British Medical Society at Montreal is one of the most interesting men in America. Few persons have had a greater variety of experience, or have touched more diverse interests. In their reports of his Montreal paper, some of the newspapers referred to him as an Englishman, but the London in which he lives is not in England, but in Ontario, Canada. There he has been settled for many years as superintendent of the great public insane asylum of that place. In his youth he was one of the original Forty-niners, and later was a member of the party which discovered the great Comstock lode. In literature pure and simple, Dr. Bucke is best known by his intimate friendship and connection with Wait Whitman. In 1833 he published a life of Whitman which will probably remain the standard biography of the poet for many years to come. Whitman appointed him in his will one of his three literary executors, with Mr. Thomas H. Harned, of Philadelphia, and Mr. Horace L. Traubel, of Camden, N. J. More recently Dr. Bucke has edited Whitman's 'Calamus' letters to Peter Doyle, and the collection of Whitman's letters to his mother from the Washington hospitals, to be published this fall under the title of 'The Wounded Soldier.' Dr. Bucke's collection of material by or relating to Whitman is the most complete in the world, running to thousands of titles and including hundreds of portraits and manuscripts. As an alienist Dr. Bucke has a wide and strongly-based reputation. He is said to have been the first to adopt the system of non-restraint of the insane; and more recently he has carried into practice (with remarkable results) the theory that the female insane (where suffering also from physical disease) may often be most effectually treated by the surgeon's knife. Dr. Bucke's theory of 'cosmic consciousness' is, briefly, that man's mind, having passed through the stages of simple consciousness and self-consciousness, is now approaching the stage of cosmic consciousness, or a consciousness of the life and order of the universe, with which intellectual illumination comes in an indescribable manner. It is a sense of immortality, a sense of the sense of sin, and an intellectual competency not simply surpassing the old, but on a new and higher plane. The theory has been made popular by Dr. Bucke's mind, and two or three years ago he printed a pamphlet on the subject, but it is only in the last few months that it has caught the attention of the public. Finally, Dr. Bucke is a convinced and enthusiastic Baconian—one of the few who have approached that contraband and forbidden subject with learning and good temper."
