Toronto at 95 King street east, and if Montreal at 217 Transportation Building, by J. B. Rathbone; in New York a 247 Park avenue, in Chicago at 122 South Michigan avenue, and in Boston at 29 Washington street, by C. H. Eddy Co

THURSDAY, MARCH 6, 1924.

### Time for a Change.

The first 1924 installment of that ever-growing library, "House of Commons Debates." has arrived, and will take its place alongside those of previous years. The first number is very much like the first number of other years in that members of both political parties once more fight the election of 1921 and the by-elections that have taken place since the last session of the House.

Hon. Mr. Meighen and Hon. Mr. Macdonald enact once more the arguments placed before the electors of Halifax and Kent in the east.

It may be necessary for the poli ticians to work a lot of this feeling off before they get down to business. At best, though, it is a miserable waste of time.

Canada is in a position now where it needs serious, constructive thought applied to every item that comes before the Commons. When that is adjournment.

#### The Limits of a City.

A London merchant showed The Advertiser a letter from a man in a town some distance from here, in which application was made for a position of some sort in this city The reason given was "we think we'd like to try the city for a while. My boy is through school, and thinks there would be a chance to get into some office in London."

There is no intention to scold this man, because this is a free land, and London is an excellent place in which to live. And the boy, too, has a right to work in an office here or any place else if he cares to, if there is an opening for him.

toward the city. There is the un- to the public debt, and conveniently spoken tendency for a boy to want to work in an office. We speak glibly a reduction in this addition each at times about the fact that the year until now there is no addition farm is the source of our new wealth, to it at all. but we are not making any move toward the farm. We are witnessing a drift not only from the farm, but \$92,000,000. from the smaller towns, toward the

There are fairly well fixed limits | 000. to the amount of population a city perous only as the country is pros- crease to the national debt. perous, and it does not take much In fairness to any government, the has been impossible for the people within the normal trading radius of London to get here; any merchant will tell you quite frankly what it has done to his business; and he will also tell you that things will be all right again as soon as the people from the country can get in.

We know these things, and we recognize and admit them, but are we doing anything to make it possible to have emphasis placed where it should be placed to drive home the fact that agricultural production is at the basis of our city prosperity, and that until the people on the land have money left over after paying their expenses, we, in the cities, are that we desire?

We have made much of the success of big businessmen, but the success of some of these individuals has been made possible, if we go back far production of this new wealth the actual producer has not had his full views he stated that he attended to the furnace.

#### Some Virtue, at Least.

Two farmers near Owen Sound no longer possible, it is time for an had been on bad terms for some time. so decided to fight it out on Sunday night after church, using the driving shed of the kirk for that purpose.

The man who won settled the doctor's bill for patching up the other fellow. That's the proper spirit, fellow. That's the proper spirit. spring. These desirable newcomers especially when staging a fight on will assimilate just as well in a setchurch property.

## Not a Fair Comparison.

The Ottawa Journal, speaking of national debt says:

"Mr. King made the governor-general say that the government would 'continue its campaign of economy.' Seeing that the national debt has been heightened by \$100,000,000 since Mr. King took office, one wonders whether this is a joke or a threat.

That is not a fair way to state the case. It points to only the years in But back of it all there is the drift which the King government added ignores the fact that there has been

extent they go.

Is it a struggle to get up?

always wake up fresh and brisk, ready to tumble out of bed jolly and bright-eyed?

Well, you can.

If you wake up feeling lazy and sluggish and sleepy there's a reason for it, and the reason is that your system is lazy and tired and sluggish. Probably you lead a sedentary

life, have to sit a good deal during the day, don't get enough open air and physical exercise. Week-end walks or Saturday golf are not enough. Consequently your internal system becomes inactive. Liver and kidneys don't perform their natural functions actively enough. As a result they let impurities

creep into the blood which would never get there if you were leading an active, open-air life. The presence of these impurities in your blood eauses constipation, depression, headache, "fits of the blues," and

Don't you wish you could feel sleepy after meals and lazy in the mornings.

There's no need to feel like this. There's no need to envy those jolly, cheerful people who are always orimming over with fun and energy.

can feel like that too. Take a of Kruschen Salts in your breakfast cup

EVERY MORNING.

Just a pinch only, as much as will lie on a 10 cent piece, but — it must be every morning. You can't aste it. You won't know you are taking salts, but you will soon notice the difference. Kruschen Salts restore the liver and kidneys to healthy activity so that they perform their natural functions from the blood. Fresh, clear blood circulates all over the system, ringing new, tingling health to every fibre of the body. You wake up refreshed by sleep, cheerful, up refreshed by sleep, the full of energy, ready to spring out work is a drudge, your outlook is you feel happier, keener, physically not so happy as it should be, you and mentally.

## Good Health for Half a Cent a Day
