Young 75's Play Next Game in Kitchener Tomorrow

Night.

The sawed-off 75's earned the right to meet Kitchener in the next O. H. A. round last night by beating the Paris Game Cocks 6 to 4. They grabbed the round 12 to 6, but they had heir knuckles sharply rapped before they put the Parisians out of the O. H. A. picture. The locals will play n Kitchener Wednesday night with he return game here Friday.

Barrett's tying counter just near the end of the second counter, which made the tally sheet read 4 to 4, was the signal for a free-for-all fight. Gibbons butt-ended the London man into a conflict of jabs, and the latter dropped his stick. After that things happened so quickly that the action pecame general, and there were 30 or 10 players and civilians in a free-forall that surged from behind the Paris goal and spread to center ice before Chief Birr-r-ell's riot squad hopped over the boards and somebody had the presence of mind to douse the combatants in darkness. When the ights came on Referee Percy Lesueur rounted Gibbons. resulting bouts thrown in for good measure.

The Paris youngsters were not discouraged by a four-goal lead and they brought along plenty of chips. They handed out little more than they got, but they didn't wait a second for their hosts to start things. When things got dull, not the least backward, they started something themselves. The 2,000 fans who weren't there, came pretty nearly missing the best hockey game of the season. Sticky ice, which had the youngsters overskating the puck a long at other times, kept the game whithiteld.

Clever Stickhandling.

At that both teams got off some sizzling hockey, a mixture of clever stickhandling, close checking and term, Admiration for the London juniors feat of going into Paris and coming out with a four-goal lead and alive was rampant before the game was five minutes old, and it grew as the battle progressed. The Parisians led the London combinations awny the first period and lroke quickly for attacks. Their attack was versatile. They varied a three-inan onslaught with shots from outside the puck a lot, but in the second and third they were better used to the first period. London had probably more chances to score than the visitors or took more, but both goalies gave exhibitions of net minding that compared more than favorably with a lot of the twine tending seen here in senior company. Schneicher and Fries were both cool, and used much the same style of clearing. The Parisians showed balance all over, Their forwards played smart hockey all through.

forwards played smart hockey an through.

They were slightly handicapped by the loss of Kempthorne, their centerman, about halfway through the first period. He got a slash across the jaw in a melee, and had to retire, but Gill, probably a descendant of the family which used to contribute about hair the players and Paris hockey teams, who replaced him, got a goal a moment later, and all through nitted in nicely with his two smart wings, Thrower and Von Zuben, as tricky a pair of stickhandlers as junior lans have seen this season. The Paris defence pair were good, and both rushed nicely. They carried their sticks high all night, and suthout fear or favor.

Lauder Stands Out.

Lauder, the chunky little Durham lad, came mighty close to being the outstanding star of the London collection. He not only checked back strongly all night, but showed good headwork around the nets. Good net minding cheated him out of several counters, and he did some clever rushing until the last period, when the derence men bodied him away from the puck. The Londoners, however, all played a nice game. There were no weak spots particularly. They apparently played as they were told, and never lost their heads, no matter how fast things were coming. They bre in nice combina. Lauder Stands Out. ticularly. They apparently played as they were told, and never lost their heads, no matter how fast things were coming. They broke in nice combination formations and both Barrett and Pritchard filted in and out of attacks with all the abandon of front-line men. It was a fine tribute to the youngsters and to their drilling.

They hung out the motto, "Stay on the ice," and tried hard to keep it hanging straight. Of the twelve penalthe ice," and tried hard to keep it hanging straight. Of the twelve penaities handed out they drew five.

Von Zuben opened the scoring at 2:30. He stopped an attack, whirled, and feinting a pass, drove in at an angle between the defence and across Fries' tummy. Lauder was waiting at the mouse-hole when Filmore tossed out a pass from behind the net at 6:10, and coolly lobbed it into the net. Paris pared down the four-goal margin by half in the next six minutes.

Scrambles Aplenty.

Scrambles Aplenty.

Kempthorne shot through the defence men, and Thrower swooped in like a hawk for the rebound. Gill grabbed a caromed pass in a mob at the London nets and counted the second goal. Fries made several nice stops. Barrett missed a bouncing pass in front of the almost-vacated net. Just as the period closed Pritchard and Barrett paired to beat the defence, the former scoring.

Both nets were the scenes of wild scrambles and spills in the second Both nets were the scenes of wild scrambles and spills in the second period. Von Zuben and Given worked right in close after pretty work, but Fries fell on the puck, and they heaped up on him. Thrower, after five minutes, inserted himself through the sandwiched London defence like a thin piece of paper, and, as Fries came out, dragged the puck around him into the net for one of the nicest bits of play of the night.

Filmore got London's third goal on a ass from Ziegler after a neat triple combination. Schneider did a cool piece

ORIOLES QUALIFY TO MEET HAWKS

Junior League Game.

By defeating the Young Britons, 6-1. at the arena last night, the Orioles qualified to meet the Hawks in the playoff for the junior city league champion-

Both teams were tied for second place, each having won three games

and lost three. Jimmy Mills managed to slip in four counters in the first ten minutes of play. The first was notched on a nice lone rush, when he stick-handled past the defence and sent a bot one by Schott. His second was made on rebound off Woods' shot. Again Mills was in to get the rebound off Tozer's drive to beat Scott. Ellwood made a fast rush and crossed up Scott with the fourth Oriole tally. Mills, again in the firing line and working hard on every Oriole attack, managed to push in another goal after a scramble in front of the Britons' nets.

Ellwood made a rush along the boards and scored the Orioles' last goal.

McCausland accepted a pass from Fitzmaurice and slapped the disc into the Hamilton road team's net for the Britons' only score.

Mills, Ellwood and Tozer were the hardest workers for the Orioles, and Cracknell, Ross and Fitzmaurice put up the best efforts for the north-enders. Scott again turned in another nice exhibition of goal-tending. The big goalie was under a barrage of shots all through the affair.

The line-ups:

The pros have reached the stage where they can just about make a hockey game sit up and talk and beg. Generalship and strategy, mostly of the set-piece variety, is showing its head more and more, and has reached the stage this year with some teams where the play has been almost mechanical. So far, the most highly-developed system is that applied to the defensive.
