CLOUDBURST ON HOWE SOUND

Overturning Many Houses and Flooding the Squamish Valley.

Vancouver, B. C., Sept. 8.—Captain Cotes, of the steamer Britannia, reports a very heavy cloudburst on Howe sound on Friday night. The water yesterday lay 12 feet deep on the Squamish Valley road, and people were traveling over it in canoes instead of wagons.

SWINDLERS ROUNDED UP.

New York, Sept. 8.—Thomas McCarthy, alleged to be the head of a gang of forgers who planned to swindle Wall Street banks of \$200,000, had a hearing today and was held in \$5,000 bail for the grand jury. It developed during the hearing that Charles Muttweiler, who is charged with being a member of the band, and who was arrested in Chicago, escaped from a train at Buffalo while the officers were bringing him here.

THOS. J. SCHAED, a former bank clerk, and Irene Brown, said to be the wife of McCarthy, are in jail awaiting the disposition of the charges against them. Schaed has confessed. According to Schaed's statement, the Great furnished the names of the people who had accounts at various banks, their signatures and the blank checks. McCarthy made the forgeries by tracing the names on the blank checks and substituting Irene Brown's name. He passed the forged checks and acted as distributing agents in the disbursement of the money.

VIRGINIA SILVER MINE CASE.

Great Northern's Lease of Certain Ore Lands Legally Set at Rest.

New York, Sept. 8.—The receipt of the news in the city of the decision handed down yesterday by the supreme court of the state of Minnesota in the Virginia silver mine case, which was regarded as definitely establishing the rights of the Great Northern railway in the lease of certain ore land from the State of Minnesota, has caused a report to spread in Wall street today that the long delayed agreement between the Great Northern and the United States Steel corporation for the lease and operation of the so-called Hill mines in the Lake Superior district, was soon to be announced. Inquiry developed the fact that there are many details regarding the taking over of the ore properties by the steel corporation yet to be arranged. Some of the details of vital importance. The court decision, however, removes the obstacles in the way of the proposed agreement, for the constitutionality of the law under which the Great Northern had secured leaseholds of many of its ore lands had been ineffectually called into question.

Most of the men who comprise the national teams at the Olympic games in Athens last May are among the entries, among these are Archie Mann the Milwaukee sprinter, Meyer Prinstein, American best broad jumper, Harry Gillen the champion hurdler, Martin Sheehan who won the discus throwing event in Greece, and Lawson Robertson a local sprinter. The American team is coached by Philipa, who was barred from going to Athens, until he disproved the charges of alleged professionalism, will be seen in the one half mile run, and the expert look to establish a new record in this event.

FINANCING THE NEW LAND SCHEME

Preserving the Money Market Equilibrium Causes Some Expert Figuring

S. T. PETERSBURG, Sept. 8.—The minister of finance is perfecting measures for absorbing the script by the land banks for purposes private estates acquired in accordance with the agrarian programme so as to prevent too great a depreciation by the sudden flooding of the market, and has decided to authorize the investment in funds accumulated in the government's hands for pensions, barracks construction, etc. The purchase of script by insurance companies, including the Americans, which are required to invest a part of their reserve in government securities, is authorized. The report that the government is seeking to induce foreign investment in the land script is denied at the ministry of finance. In addition to the sale of crown appanage lands hitherto announced, the government has found it possible to distribute a portion of the state lands held by the government which consists largely of forest reserves. A further measure of relief will be the lowering of the interest on arrears of payments on lands previously purchased by peasants through the state banks. The difference will be charged to the state treasury.

MEXICANS AND AMERICANS.

Galveston, Tex., Sept. 8.—The American fishing smack Hatteras, belonging to the Gulf Fishery company of this port, reached here today from Mexican waters, where her commander states he was set up by a Mexican rumbust on August 25th, while seven miles off the regular reef, in the middle of the Gulf of Campeche. Armed Mexican marines boarded the Hatteras, ordered the captain to show his papers and also to open his hatches and display part of his cargo of fish which had been caught in the open sea on the passage down to the banks for a full cargo.

The Hatteras was at that time a great distance outside the shore limit and under full sail for the fishing banks. Manager Munn, of the Gulf Fishery company, wired the state department requesting immediate action for the necessary protection of American vessels while fishing in the open sea or proceeding to and from the common fishing waters.

GIVES THE PALM TO VICTORIA

Bishop Montgomery Says Beauties Here Surpass Those of Tasmania

CHAT WITH HIS LORDSHIP

Scope of Work of English Churches in Canada Being Much Enlarged

THE Right Rev. Henry Hutchinson Montgomery, secretary of the Society for the Propagation of the Gospel in Foreign parts, which practically founded the Anglican church in British Columbia, who is visiting His Lordship Bishop Perrin, was interviewed yesterday by a reporter of the Colonist and he spoke interestingly of his impressions of Victoria, and of the Dominion of Canada. He was greatly impressed with Victoria and British Columbia, so much so that he has decided to have his son come to this province to take up his life's work, to enter the profession of the law in British Columbia. As for Victoria, His Lordship spoke enthusiastically; he said he had always regarded Hobart, Tasmania, where he spent so many years of his life, as the most beautiful place he had ever seen, but now he must needs give the palm to Victoria.

MARK'S, KENNINGTON, resigning upon elevation to the bishopric of Tasmania in 1890. In this position he remained until 1891 when he assumed his present position.

The sermon at Christ Church cathedral on Sunday morning was preached by the visiting divine, being an earnest missionary discourse. Many of the arguments often heard in objection to missionary work were convincingly answered. It is frequently objected that it is an impertinence to try to teach the older and more spiritual races of India and China. The answer given was—should the good news of the gospel be withheld from a superior man by intellect and perhaps in moral life because he is superior. It is objected that in certain cases a thousand converts are made for a dissipated pound while elsewhere a thousand pounds will only make one convert and spend where it produces the most results. In telling of the parable of the building of a railway in India the bishop asked if the road builder pointed with the greatest pride to that portion of the road which was the easiest to build (the straight line) then the bishop spoke as one who had served with such men as Patterson and Solwin and not the least of the impressions he left on his hearers was that the work of building on the good news imperative upon the race and that there were men left to do it as the two great Christian fighters did.

JUDGMENT IN CHEHALIS CASE

But For the Tide Princess Victoria Would Have Cleared Chehalis

TWO WHISTLES WERE BLOWN

Rugby Footballers Are Invited to Play Stanford University Team

VANCOUVER, Sept. 10.—The written judgment in the Chehalis disaster was handed down this morning. It gives reasons for the verbal decision already arrived at. The commission finds that Captain Griffin blew two whistles, and that, had not the speed of the Princess Victoria been reduced by the tide, she would have passed clear of the Chehalis. It finds that the whole blame lay with the Princess Victoria in disregarding the gasoline launch until dangerously near, and also in seeming to forget for a vital moment that the Chehalis existed.

WESTERN LUMBER MAY GO UP

As the Result of Closing Out an Eastern Variety.

Macon, Ga., Sept. 10.—At a conference of lumbermen in this city yesterday, it was declared that the ruling out of short leaf pine lumber in northern and eastern cities had caused millions of feet of lumber to be piled up in those cities, unsaleable even at \$3 to \$5 per thousand feet under regular prices and that as a consequence at least a thousand mills in Georgia, Alabama and Florida are affected and many of them may close unless there is a reversal of the ruling.

THE SCAPEGOAT OF RUSSIAN LAWLESSNESS

Police and Soldiers Drunk With Lust For Blood, Murder at Will

SIEDLICE, Russia, Sept. 10.—A massacre by police and soldiers began here at 8 o'clock Saturday night. Immediately afterwards the troops attacked the Jews. All today troops have attacked civilians, Christians or Jews, robbing and murdering them without discrimination. Hundreds of persons were killed or wounded, and three streets devastated. Troops have surrounded the city and refused admission to it.

Jews in a Panic

Warsaw, Sept. 10.—In consequence of the massacre of Jews in Siedlice, the Jews here are panic-stricken. Alarming reports are being circulated throughout the city.

Indiscriminate Slaughter

St. Petersburg, Sept. 10.—The predictions made in a despatch of August 23 of a Jewish massacre at Siedlice, Russian Poland, unhappily have been justified by the fighting which broke out Saturday night and developed yesterday into a carnival of indiscriminate slaughter and pillage, in which the soldiers and mob took part. Unfortunate Jews were shot and bayoneted in the streets of the town. Houses and shops were broken into and sacked; valuables were carried off and offered for sale by soldiers to passengers on passing trains.

REPORTS RECEIVED FROM WARSAW

The early reports of the Siedlice massacre put the responsibility at the door of the terrorists, but fugitives declare that the soldiers never would have been allowed to get so completely out of hand without the connivance or the actual directions of their officers. The first reports received of the Siedlice massacre last June said the terrorists were to blame there also.
