# Preserving:-

LANTIC Sugar is the best sugar for preserves and jelly, because it is pure cane of extra fine granulation and dissolves quickly, with no gritty grains; and because it is kept pure and free from specks and dirt by the original packages of guaranteed weight filled at the refinery. 2 lb. and 5 lb. cartons, and 10 lb. and 20 lb. bags. 100 lb. bags coarser granulation.

Buy in original packages and look for the LANTIC Red Ball on each package.

Send your address and small Red Ball Trade Mark from bag or top end of carton and we will mail you book of 50 assorted Fruit Jar Labels—printed and gummed ready to use on the jars.

### BAD SPILL ON THE INTERNATIONAL BRANCH

#### Spreading Rails Ditched I. C. R. Train Last Thursday and Tied Things up

A bad spill occurred about 2:30 last Thursday afternoon on the international branch of the I. C. R., at a point thirty-two miles west of Campbellton, where the four cars of the regular train jumped the track and piled up in the ditch. The damage to rolling stock and roadbed was considerable, but no one was injured in the run-off, which is said to have been due to spreading rails.

A military party from Campbellton accompanied an I.C.R. wrecker to the scene of the run-off, and the work of clearing the wreck went forward Friday. Passengers, baggage and available freight were transferred around the break and came into Campbellton without a very long delay.—Transcript.

In conclusion with the above report we are informed from the officers of the I. C. R., that some one must have had a pipe dream. The facts are these—Four cars of the regular train ran off the track and were replaced by the train crew, the total delay being 2 1/2 hours.

### CLASSIFIED

Advertisements under this head are charged for at the rate of a cent a word a week. Minimum charge 25c.

- FOUND**  
A Canvass Canoe, which owner can have by proving property and paying for this advertisement. Apply to Chas. Robertson, Dalhousie, July 20th-2 ins.
- TEACHER WANTED**  
Female teacher for Sydenham South (dissenting) School. No diploma necessary. Apply, stating salary, to JOHN MINCHINTON, Fontenell, Gaspé Co., Que. July 29-4 ins.
- CANOE FOR SALE**  
A Gaspé canoe, with anchor, paddles and pole, all new. Canoe used only few times. Price \$50.00. Apply GRAPHIC OFFICE. July 29-2 pd.
- FOR SALE**  
Pure bred Collic pups. Apply to JAS. ALEXANDER, Water Street, July 29th-1

WILL OPEN ITS

FALL TERM

ON WEDNESDAY

SEPTEMBER 1

Now is the time to write for full particulars.

Address: **W. J. OSBORNE, Principal, Fredericton, N. B.**

### TIMOTHY SEED SITUATION

Present and prospective high prices for hay is having the natural effect in reducing the areas that may be left to timothy seed. Reports from the United States also indicate reduced areas left to this seed crop. Two-thirds of our supply is usually imported from the United States, where it is grown on land ranging in value from \$75 to \$150 per acre. This seed comes rather badly hulled but it particularly free from weed seeds.

The prospects for this year are considerably higher prices for timothy seed. Canadian farmers are advised to bear this situation in mind and arrange to leave for seed particularly clean pieces of timothy.

### AUTO TO HIRE

Our auto is at the call of any customer. Prompt and efficient service. Registered chauffeur in charge.

### "HILL DIFFICULTY"

How Fortitude Takes a Nation or Individual Up the Steepest Places and Safely Past the Lions in the Way.

I behold, then, that they all went on till they came to the foot of the Hill Difficulty, at the bottom of which was a spring. There were also in the same place two other ways, besides that which came straight from the gate; one turned to the left hand, and the other to the right, at the bottom of the hill; but the narrow way lay right up the hill, and the name of the going up the side of that hill is called DIFFICULTY.

Christian, then began to go up the hill, saying: The hill though high, I covet to ascend.

The difficulty will not me offend: For I perceive the way of life lies here. Come! Pluck up heart; let's neither faint nor fear.

Better, though difficult, the right way to go.

Than wrong, though easy, where the end is woe.

I looked, then, after Christian, to see him go up the hill, where I perceived he fell from running to going, and from going to clambering upon his hands and his knees, because of the steepness of the place. But he sped him on his way, till he came nearly to the top of the hill.

Nearly At The Top.

Now, when he was got nearly to the top of the hill, there came two men running to meet him again. The name of the one was Timorous, and the other Mistrust, to whom Christian said, Sirs, what's the matter? you run the wrong way.

Timorous answered that they were going to the City of Zion, and had got up to that difficult place; but, said he, the further we go, the more danger we meet with; wherefore we turned, and are going back again.

Yes, said Mistrust, for just before us lie a couple of lions in the way, whether sleeping or waking we know not; and we could not but think, if we cannot winneth reach, that they would presently pull us in pieces.

Then said Christian, You make me afraid; but whither shall I fly to be safe? If I can get to the Celestial City I am sure to be in safety there, I must venture. To go back is nothing but death; to go forward is fear of death, and life everlasting beyond it. I WILL YET GO FORWARD.

### THOSE WHO SUCCEED

No answer comes to those who pray And idly stand, And wait for stones to roll away At God's command; He will not break the binding cords Upon us laid.

If we depend upon pleading words And do not aid, When hands are idle, words are vain To move the stone; An aiding angel would disdain To work alone;

But he who prayeth, and is strong In faith and need, And toiled earnestly, ere long He will succeed.

### TAKING A RISK

Bad germination in seed corn combined with prolonged cold weather at time of planting has been the cause of much disappointment this season to ensilage growers. The seed corn growers of south-western Ontario were almost equally disappointed through being unable to find a market for their thoroughly-dried corn of strong vitality. Many samples were taken by seed inspectors and the investigations made indicate clearly that at least 75 per cent of the cause for a poor stand can be traced to the ensilage growers buying low priced seed.

Unfortunately high priced seed is not always a guarantee of high quality, but low priced seed is possible only with corn that has no special care in sowing for seed. The farmer who gets \$1.50 per bus. of 70 lbs. on the ear for corn takes out of his corn crop in the spring less more profit than the farmer who receives \$2.50 a bus. of 70 lbs. on the ear for corn that has been kiln-dried or sun-dried in special corn-drying buildings.

If harvested in dry weather and kept in narrow cribs through the winter, the cheap corn may give a fairly satisfactory stand of plants with thick seedling and good soil and weather conditions. But too many farmers have learned to their sorrow the very serious risk they

### STEADY INCREASE

IN COST OF LIVING

Costs Thirty Cents More Per Week This Year for Average Family to Live

Ottawa, July 26—It costs the average workingman, who is the head of an average family of five, \$1.31 more per week to live now than it did in 1911, and at least thirty cents per week more than it did a year ago. In part this is his contribution to the taxative of the war. In part it is due also to the steady increase in the cost of living, which has been in progress for the past few years.

The Labor Department's statistical report as to the cost of living gives the index number for June as 147.3, compared with 147.6 for the preceding month, and 135.2 for the corresponding month of last year. Although there have been some decreases in the price of foodstuffs during the past few months, this is counterbalanced by increases in the price of metals and other commodities, which keep the cost of living up to the record figures which have prevailed since the beginning of the year.

The annual report of the Department of Labor, dealing with wholesale prices in Canada for the year 1914, as compared with 1913 for the preceding month, and 135.2 for the corresponding month of last year. Although there have been some decreases in the price of foodstuffs during the past few months, this is counterbalanced by increases in the price of metals and other commodities, which keep the cost of living up to the record figures which have prevailed since the beginning of the year.

One of the most interesting tables is that giving a typical week's expenditure of a workingman's family on staple foods, fuel, lighting and rent. The compilation is based on proportionate expenditures on an income of \$800 per year. For food the average weekly budget demanded last year \$7.73, as compared with \$7.98 the year before, and \$7.13 in 1911. For fuel and lighting the weekly cost last year was \$1.90, or about one cent less per week than for 1913. Rents show a slight lowering tendency, but this is confined largely to a few specific localities. The average for the Dominion last year was placed at \$4.65 per week, as compared with \$4.75 per week in 1913, and \$4.05 per week in 1911. Since moving day on May 1, when leases in most cities are renewed, the tendency to reduce rents has been more marked.

The figure given for the total weekly budget of necessary expenses for food, rent, light and heat is placed at \$14.21 last year, as compared with \$14.02 for 1913, and \$13 for 1911. Allowing the average cost of living for the workingman with a salary of \$800 per year, and a family of five to keep, would have just about \$50 left for the year's clothing, doctor's bills, amusements, church and tobacco.

Commenting on the general trend of prices for the year, the report says there were increases of 14 per cent. in grains and feedstuffs, 6 per cent in animals and meats, 8 per cent in woolsens, 10 per cent in hides and 7 per cent in drugs and chemicals. There were decreases of 33 per cent. in furs and 5 per cent. in cottons. Sugar rose from the lowest level on record to the highest since 1890. Interruptions of shipping, with higher freight rates and insurance on the seas, caused steep advances in many commodities, especially in tea and in drugs and chemicals. Increased revenue taxes, in the shape of additional customs and excise duties, caused other increases, notably in sugars, tobacco and liquors.

The consumption of fish in Canada is reported by the dealers to be the largest yet, and this food bids fair to come into fashion as a cheaper substitute for meats.

Don't send the child if she is cross; give her Rexall Orderlies, as the trouble is probably with the bowels. Sold only by Thos. Wran. The Rexall Store, 10c., 25c. & 50c. boxes.

Take in using corn wintered in this way. It is always advisable for growers to procure seed corn on the ear as during moist weather shelled corn in transportation or storage will absorb moisture and mold within a very few days, thus destroying its vitality.

### WANTED

A first or second class teacher holding a New Brunswick Valid license to teach for the coming term at Flatlands. Apply to CHAS. G. ARCHIBALD, Secretary of School Trustees, Flatlands, Rest. Co. N. B.
