three nights of this week moncades that the occasion will be used by the votaries of dress and fashion to make it a "swell" affair and bring together the acknowledged leaders of Toronto society, together with their many followers. Beauty, rank dress and jewels will add charm to the scene of the stage, while it will materially enhance the artistic treat anticipated on the stage, namely: Mr. Keene's masterly characterizations of Louis XI, Richelieu, Richard III and Merchant & Venice. Mr. Keene has been too frequently seen in Toronto to require an extended introduction or commendation. The death of the late Lawrence Barrett and the anounced relierement from the stage of Edwin Booth leaves Mr. Keene is as yet a young man, obsessed of all the fire and viality of youth, and blessed with a keen, discriminating mind, a broad and accurate conception, and a voice and physique which eminently fit him for the portrayal of the line of parts to which he has ever been able to surround himself. occasion will be used by the votaries of dress and

The Growl of Labor

Into ULUWIT OF LUBDA Is notyet loud, but deep. Labor is allowing its self to be sidetracked by political chicanery. Plenty of work with good pay and labor is con-teuted. Capital is essential to this end, and as a factor to the prosperity of labor is not to be railed at. Mr: McGuire said some excellent things before the U. B of Carpenters. One of his sayings, viz. "Feudal lords have hearts while our money aristocrafts have not," is only a half truth. Our money aristocrafts have hearts, but with the help of our legislators they put heir money where no drafts can be made, upon their feelings in its upplication. For instance, creatures of legislative creation, joint stock companies, that have neither sould to be saved of bodies to be diamned, are doing more to crush out the life blood of the nation than for any lasting benefit they effect, while labor and her products only go to pay the debentures they by act of Parine ment are permitted to Tolst upon the people. Hence it is that with each decade our county be-tornes poorer by reason of debt, while she is being and the particel to the the she have been by be-tornest poorer by reason of debt, while she is being and the particel to the the she have been by be-tornest of the nation and here the products only go they effect, while labor and det by act of Farlia ico pay the debentures they by act of Farlia ment are permitted to foist upon the people. Hence it is that with each decade out country be-comes poorer by reason of debt, while site is being depleted of her natural wealth in forest, field and minoe. Hence it is that a man in Caanda with \$50,000 is a fool to embark in any private enter-prise of commerce when by creating bank, build-ing society and joint stock ventures he can ob-tain his 25 per cent. profit secared by act of Par-iament.
