

PERMANENT BOARD TO CONTROL TARIFF AND CAPITALIZATION URGED BY LABOR CONGRESS

Would Eliminate Stock-Watering and Cutting of Melons and Prevent Monopolies.

DEAS PRESENTED BY OTTAWA DEPUTATION

Congress Asks That Industries Enjoying Protection Absorb Canadian Labor First.

OTTAWA, Jan. 3.—(Canadian Press Dispatch)—Representing 200,000 workers, male and female, organized into local unions, Messrs. Tom Morris, president, and P. M. Draper, secretary-treasurer of the Trades and Labor Congress of Canada, to-day presented to the Dominion commission of inquiry in the tariff a statement of facts and proposals regarding the relationship of labor to the tariff. The statement points out that the congress is a non-political body and the views of the political labor parties "whose membership is confined to no political belief and includes many business and wage workers."

The statement sets forth that the ordinary workers believe in the utilization of natural resources of Canada and their conversion from raw state to the finished one within the boundaries of Canada. The congress believes that the tariff should be so adjusted as to absorb all Canadian labor first; that protection should never be so high as to create a monopoly; that the Government should have full control over the utilization of "melons" and watering of stock; and that a permanent board should be created to carry out these or other similar regulations.

DIARY COUNCIL'S P.L.A. Abolition of a substantial reduction of the customs tariff on glass bottles, inware, dairy utensils and machinery was urged upon the tariff commission this morning by a deputation from the National Dairy Council.

The resolution passed at a meeting of that body in London, Ontario, referred to "the unreasonable and excessive customs duties which amount to 10 per cent, on some articles regularly used by dairymen and which is one of the chief factors in raising the price of milk."

A reduction in the customs tariff, the resolution stated, would bring about a reduction in the cost of living.

To-day's proceedings opened the last meeting which the commission will hold prior to beginning the actual work on tariff revision, subject to the approval of the National Dairy Council.

Charges were made against the tariff commission, which is being run by the National Dairy Council, that it is being run in a manner which is being unduly restricted. He suggested legal proceedings to dissolve the "trust."

SHIRAZ COLLEGE FOR CHAIRMAN

Inaugural Meeting of Board of Education on Thursday.

SMITH THE FAVORITE

Drafting of Committees Will Take Place Tuesday.

Who will be the chairman of the Board of Education for the year 1921? This is the question that is causing no small amount of speculation on the board.

There is a generally accepted opinion among several members of the board that Trustee Smith should have the position for this year.

While the election of a chairman for the board for the same length of time, the former has come well above the latter in the election.

Trustee Smith has been elected chairman of the board for the year 1921.

Invisible Choir Turns Out To Be Wireless Phone

Congregation of Illinois Church Stirred By Phantom Music.

CHAMPAIGN, Ill., Jan. 3.—The mystery of an invisible choir which has stirred the congregation of a Paxton, Ill., Lutheran church was solved yesterday when it became known that Clarence Ludean, a 16-year-old student, had been experimenting with a wireless telephone.

Ludean connected a phonograph with a wireless sending set in his room. The music was transmitted to a large horn connected with an amplifier which was placed in the church.

The church was in direct line with the sound from the horn and for this reason the concert seemed directly from the invisible choir.

The "phantom music" has been the talk of the town.

Trustee Hayman Says He Favors Old Site.

BOARD PLANNING FOR IMMEDIATE ACTION

Mandate of People Will Be Carried Out.

"We should have one school on the old site ready for occupancy by September 1," said H. Hayman, who last year served as chairman of the Board of Education and who was re-elected as a trustee on Saturday, referring to the Collegiate situation.

Trustee Hayman, in expressing his opinion of the question emphasized the fact that he was speaking for himself only. He would not undertake to say what the board would do.

"I am anxious to have the central school erected so the students will not be handicapped any longer than necessary," said he. "We must have the central Collegiate at once. Then if it is shown that there is a necessity for branch colleges in South or East London or in both sections, the board should take steps to have them built. But the one thing to do now is to complete the central school."

Trustee Hayman, in referring to the question, expressed the opinion that the board should have no other school on the old site.

"The people have stated in no uncertain manner that they wish a central school on the old site," said he. "The people have stated in no uncertain manner that they wish a central school on the old site."

\$3,000,000 OF BUILDING IS ASSURED FOR CITY IN NEXT FEW MONTHS

WILL BE CHAIRMAN. All Records For Construction In History of London Will Be Broken.

WORK WILL START AS SOON AS POSSIBLE

Unemployment Situation Will Be Eliminated In Few Weeks' Time.

London has \$3,000,000 of new buildings assured for the next few months. Building Inspector Piper stated to-day, and he predicts that London will invest over \$2,000,000 in new commercial and domestic building during the present year.

Buildings definitely planned for erection this year include the new hotel, which will cost \$1,000,000.

The Metropolitan Police Hospital will be built at a cost of \$250,000. For the purpose of the Metropolitan Police Hospital, Trust companies, \$300,000 is estimated as the building cost.

Mr. Piper also believes that the separate school board will start work on a \$300,000 plan within a short while.

The Board of Education will spend \$200,000 for public school construction and additions in connection with the largest estimate. Adding no more than \$500,000 for home building, of which the board is committed, the total will be more than half London's \$3,000,000 of new buildings.

It is the opinion of the building inspector. NEW POST OFFICE.

In the realm of probabilities it was pointed out that a new city hall will probably be begun this year. A new post office for London is also expected to be authorized soon by the Federal Government.

Knox Presbyterian Church has already made tentative plans towards a new office or radical alteration of the present one.

Askin Street Methodist Church has plans for a large grammar school to be enlarged to include the present one of other churches throughout the city.

It is expected that the Board of Education will take steps to have work started on the central Collegiate within the next few weeks.

MUST SWEAR TO INCOME RETURNS

False Statement Will Mean Charge of Perjury.

EXEMPTION IS RAISED

City Thoroughly Combed For Those Liab.

Thousands of citizens will to-day receive income tax returns to be filled out and returned to the civic assessment office.

It is understood that, as the result of agitation, London will be thoroughly combed this year for those liable to payment of income taxes.

The raising of the exemption will decrease the city's revenue by several thousand unless every possible taxpayer is discovered and taxed.

Commissioner Grant stated to-day that all citizens are this year to be combed for income tax.

Every employer of labor will be asked to make a return of the wages paid to his employees and personal returns for income returns will be made to others that appear to have means.

Would Borrow Factory To Make Their Own Cars

Petition Asks Ford Officials For Use of Plant.

DETROIT, Mich., Jan. 3.—A petition requesting the use of the Ford Motor Company plant here for the manufacture of cars for employees, was being circulated among employees to-day by an even division of the petition.

The request proposes that the company turn over the plant to the workers during the period of the shutdown announced last week.

The petition states, in part, that the workers during the period of the shutdown should be allowed to use the plant in as good condition as it is at present.
