English shippers and underwriters are becoming nervous over the frequent loss of vessels by spontaneous combustion of coal. Every year large numbers of coal-laden vessels are lost at Lloyd's, and it is difficult to avoid the conclusion that they have been burned in mid-ocean, and not a human being preserved to relate the causes. The figures show that 1,155 lives have been lost, and a tonnage of 30,000, representing 37,000 of coal, has been destroyed, through the spontaneous combustion of coal at sea.

Paris, July 15.—M. Huguely, republican Senator, has been removed from the post of mayor of Boulogne. Disensions between the legitimists and the Bonapartists are becoming very marked. M. Berlin, July 15.—A despatch from Berlin says German settlers in Dobrucha are seriously suffering from war. The German Government has complained to Russia and Turkey of their ill-treatment by the soldiers.

Official declarations of Austria's neutrality continue to be issued in answer to reports persistently circulated in contrary sense. There is no trustworthy news from the armies in Bulgaria.

The position in Asia Minor is tolerably clear. Mukhtar Pasha is at Kars with 40,000 men all told, including Kars garrison. General Mikalof is at Zaim with about 35,000 men but superior to Turks in cavalry and artillery. The garrison of Batoum has made no important movement as far as reported since Obolschke retired. The Russians still hold Andahan, the Turks having withdrawn all troops from Montenegro frontiers except garrisons of forts and blockhouses. Prince Nicholas is preparing to besiege Nisic again.

A Constantinople despatch, dated Saturday, announces that the Russians are approaching Bagrad, and probably have already cut railway near that point. It is conjectured by some that the Turks will make a defensive line, extending from Rutchuk via Shumla, to Osmar. Bajar, Constantinople telegram mentioned strongly opposed this presumption since chief object of such defensive line would be to prevent railway which feeds Quadrilateral. This railway has now been apparently cut by Russians, without opposition.

St. Petersburg, July 15.—General Terzag reports found the town of Bayazid destroyed and the atmosphere so infected from dead bodies that it was impossible to remain in the place. The Porte has given England permission to use Gallipoli as a coaling station.

The number of natives on public works and receiving gratuitous relief has increased. There has been great mortality from disease, especially among children. A despatch from Shumula says from all directions the fugitives in large numbers are coming in, who agree in stating that in districts occupied by the Russians the most horrible cruelties are perpetrated by the Cossacks and Bulgarians. Mahomedan children and old men are slaughtered, and women violated and carried off. Official despatches substantially corroborate these statements. The greatest panic exists among the Mahomedan civil population, who are fleeing as fast as they can.

About five thousand marched in the procession, over 1500 being Orangemen in uniform. Several attempts were made unsuccessfully to provoke a disturbance.

The service in the Cathedral was grand. The church was crowded to excess. The Orange banner for the first time floated in this city.

To-night shots and stones were freely indulged in, fortunately unsuccessful, and the volunteers were sent out to quell any disturbance.

GODS AT A DISCOUNT. BOMAY, July 11.—Nepaul has been swept clean of gods, and the temples are apartments to let. The wife of Prince Ram Bahadur, finding her lovely face disfigured by small-pox, poisoned herself, cured his Kingdom, her doctors and the gods of Nepal. He had her doctors flogged, and the nose and ears of each cut off. He then drew up heavy artillery before the images of the gods, and after accusing them of having obtained from him 12,000 goats, several hundred weight of sweetmeats, and 7,000 gallons of milk under false pretences, he set them on fire, and they were consumed by fire. He had his guns opened upon them, and after six hours cannonading the deities of Nepal were reduced to fragments, which no horse or man could put together again.

A catch for a single boat varies in a day from fifteen to twenty thousand. They yield the present year is as large as ever.

During a recent terrific thunder storm near Walton, N. Y., a railroad train was struck by lightning. The lightning was so intense and constant that the train seemed to be enveloped in a sheet of electric fire. A fearful crash came, and instantly the engine was in a volume of electricity, balls of fire, and the driving wheels as they revolved. Nearly every person on the train experienced a severe shock. A large tree near by was shattered.

William Bardwell, of East Whately, Mass., about seventy-five years old and quite decrepit, went into the woods one day to collect fuel. He was struck by lightning, falling tree which lodged across his legs. He lay, partly immersed in water, from noon until 8 o'clock that night, by which time he had become almost insensible with his hands when he had strength.

THE DEMAND FOR BREADSTUFFS.

New York, July 14.—The Post says that during the week about two million bushels of wheat were taken in this market on English and continental orders, and applications made to two of the largest European steamship lines for a month ahead for all the room unengaged for grain—in one instance an offer has been declined at current rates. The particular reason for these large orders is somewhat of a mystery in this market. It may be that there is war news not yet made public, or it may be that the foreign calculation is that our wheat crop will be below the estimate, although it is not understood how this can be, as all the crops look well, except corn, which is improving.
