THE SMALL TOWN.

town it does not necessarily mean gardeners are good citizens. that we all have only small town minds. The trouble is that we spend too much time thinking small town houghts. If any one in our community shows evidence of unusual ability or appears to be more successful and making more money than the rest of us, we immediately allow some narrow personal prejudice or dislike to nfluence our reasoned judgment, and we go about knocking or belittling that individual. This doesn't help us, and it hinders the man who is trying to get somewhere.

Relieves Dyspepsia

M. D. advises: "Persons who suffer from severe indigestion and constipation should take after each meal and at bedtime, fifteen to thirty drops of the Extract of Roots known to the Drug Trade as "Mother Seigel's Curative Syrup."

Wonderful Tea!

Users of KING COLE Orange Pekoe are frequently heard to remark: "It's really wonderful tea." This is not particularly in reference to its outstanding quality although that is necessarily included, but is due to the wonderful way it "spends." For KING COLE Orange Pekoe is a rich liquoring tea as well as a deliciously flavorful one. Skilful blending combines these two great tea qualities for your

DUNLOP TIRES

30 Years in Canada

Money cannot Buy More-Usage cannot

Demand More—than what you get with

There's a Dunlop Tire for every purpose.

Many a man is driving a motor today who was not born when Dunlop Tires first appeared on the highways of Canada.

Thirty years is a long time in the Tire business. It is the very beginning of the industry. 1888 saw the world's first pneumatic tire; 1894 saw the industry taking hold in Canada.

Doesn't it stand to reason, in view of the above facts, that we must be better equipped and better qualified to serve the exacting demands of Tire users?

Knowing the past of the Tire Industry so well, we must have pretty good intuition regarding not only the needs of the present, but the possibilities of the future.
