

Accumulation Assisted

Every cent a man puts into life insurance is laid by toward the formation of an estate. It is in many cases an estate which would never have been otherwise accumulated. Most men find that life insurance saves for them the money they would otherwise have spent in non-essentials.

Mountain Wildflowers of Canada

By **JULIA W. HENSHAW**

With 100 splendid full-page engravings from original photographs.

This carefully prepared work on the mountain flora of Canada is, as one of the reviewers with enthusiasm declares, "one of the most enchanting books for the lover of wild-flowers that has appeared in many years." It is a complete guide to the flora of the author's own province, British Columbia. "The hidden nooks and concealed hiding-places of the humble wildflowers have been searched out, and she has given, with a wealth of detail, a description of all the plants that make the mountain wilderness to blossom as a rose." In a prefatory letter, Professor John Macoun, of the Geological Survey, remarks: "That the work should have been done as you have done it is more than I could have hoped. The beauty of the photographs, the absolute correctness of the grouping of the flowers, the concise and yet complete descriptions, make it easy for even the visitor of a day to identify all the plants he is likely to see." The hundred full-page half-tones, reproduced from the best of many hundreds of photographs of mountain flowers taken by the author herself, are in themselves worth far more than the price of the book. What Mrs. Trill has done for those of the West.

\$2 00 net, postpaid.
