

## A Good Investment

**I**F a manure spreader were of value only as a labor saver, it would be indispensable for that one purpose. But when its aid in producing big crops is considered, you can readily see its importance.

With a—**CORN KING, Return Apron Spreader**  
**CLOVERLEAF, Endless Apron Spreader**

every load of manure you have can be made to go twice as far as with the wagon and pitchfork method of spreading. At that rate, how much money is lost and how much could be saved by using the spreader? Consider it from another basis—how much would the increase in the crop yield amount to? One of these spreaders is a good investment any way you look at it, and now is the time to make the investment.

The Corn King and Cloverleaf spreaders are made so simple, strong and durable, that one of them will strongly appeal to you.
