

## NOTICES OF BOOKS AND PAMPHLETS RECEIVED.

ON THE DISPOSAL OF SEWAGE, issued by the Provincial Board of Health for Ontario. A compilation that may be useful.

A TREATISE ON MILK AND NESTLÉ'S Milk Food, by H. Lebert, Medical Privy Councillor: Vevey, Switzerland.

SEVENTH ANNUAL REPORT of the State Board of Health of Wisconsin, to which we purpose referring again.

LIST OF PREMIUMS, RULES AND REGULATIONS, of the Industrial Exhibition Association of Toronto. Each of the three last exhibitions has been better than those preceding it, and from the efforts being put forth now by the managers it is safe to predict that the next one will be much the best of all.

THE THIRD VOLUME of the Census of 1881 and its Critics, by Dr. J. C. Tache, Deputy-Minister of Agriculture. The author says:—After such a diligent search, to have found so very few errors, or possible errors of no general consequence, and an array of supposed errors, of the Census which, in reality, are blunders on the part of the critics themselves, is certainly a result well calculated to please those who have had something to do with such a vast undertaking, and to enhance public confidence in one of our most important state documents.

HANDBOOK OF MEDICAL ELECTRICITY, by A. M. Rosebrugh, M.D., Surgeon to the Toronto Eye and Ear Dispensary, &c., &c. A convenient little work on the treatment by electricity of many of the diseases and symptoms to which mankind are liable. It is reliable and good.

PRESS NOTICES of "Playter's Physiology and Hygiene," for schools and families; authorized by the Education Department. W. J. Gage & Co., publishers.

"As a Text-book for schools we have no hesitation in recommending it in preference to any of the text-books on this subject now in use."—*Canada Lancet*.

"Nothing but praise . . . for a very practical and useful compilation on matters connected with hygiene."—*Medical Times and Gazette*, London, Eng.

"Dr. Playter is an enthusiastic sanitarian, and has done effective work through the medium of his JOURNAL work which will be largely supplemented by the admirable little book just issued. The book is especially adapted to our high schools and intelligent laymen."—*Michigan Medical News*, Detroit.

"It is written by one who during the last six or seven years has done a noble work in enlightening the Canadian public upon sanitary matters through his SANITARY JOURNAL. His qualification for such a work is undoubted, and a careful examination of it enables us to say that he has done his task admirably. It is well written, is fully up to the times, and the illustrations are all that could be desired. We trust the Canadian public will appreciate it, and we strongly recommend its introduction in our schools."—*Medical Record*, Montreal.

## SANITARY JOURNAL.

Vol. I to Vol. IV. Bound.

\$2.30 per Vol., or \$9.00 for the Four Volumes.

The Four Volumes and Current Vol. (V.) \$10.

"It contains good articles on public health."—*Canada Lancet*.

"It indicates a manly grasp of the enemies of human health."—*Sanitarian*, New York.

"Its selections are well made, and its editorials exhibit an ability competent to the consideration of this important science."—*Jour. of Med.*, Detroit.

"Both in its editorial and selected matter it gives evidence of being conducted with ability. It is to be hoped it will be sustained by the Canadian public."—*Popular Science Monthly*, N.Y.

"A valuable Journal, I wish all in the profession valued it as I do."—JOSEPH WORKMAN, M.D., late Supt. P.L.A.

"If it could be got into all the households of Ontario, there would be a great reduction in the death rate in the country."—WM. OSLER, M.D., (Prof. Phys., McGill University) Montreal.

WM. REYNOLDS, Esq., Gulph, Treasurer Co. Wellington, writes: "One article appeared in the JOURNAL, which I consider worth to me at least \$20 a year."
