DR. WHEELER'S

ELIXIR FERRI ET CALCIS PHOSPH. CO.

LACTO-PHOSPHATES prepared from the formula of DR. DUSART, of Paris

Compound Elixir of Phosphates and Calisaya—A Chemical Food and Nutritive Tonic.

THIS elegant preparation combines with a sound Sherry Wine percolated through Wild Cherry Bark and Aromatics, in the form of an agreeable Cordial, 2 grs. Lacto-Phosphate of Iron, 1 gr. of of Alkaloids of Calisaya Bark, Quinia, Quinidia, Cinchonia, and fifteen drops of free Phosphoric Acid to each half ounce.

In the various forms of Dyspepsia, resulting in impoverished blood and depraved nutrition, in convalescing from the Zymotic Fevers, Typhus, Typhoid, Diphtheria, Small-pox, Scarlatina, Measles, in nervous prostration from mental and physical exertion, dissipation and vicious habits, in chlorotic anæmic women, in the strumous diathesis in adults and children, in malarial diseases, after a course of quinia, to restore nutrition, in spermatorrhœa, impotence and loss of sexual orgasm, it is a combination of great efficacy and reliability, and being very acceptable to the most fastidious, it may be taken for an indefinite period without becoming repugnant to the patient. When Strychnine is indicated the Liquor Strychnine of the U. S. Dispensary may be added, each fluid drachm of the solution, to a pound bottle, making the 64th of a grain to a half fluid ounce of the Elixir, a combination of a wide range of usefulness.

The chemical working of the formula is peculiar to the originator, and the various imitations and substitutes offered by druggists will not fill its place.

DOSE.—For an adult, one tablespoonful three times a day, after eating; from seven to twelve years of age one dessertspoonful: from two to seven, one teaspoonful.

APIOL

OF DRS. JORET AND HOMOLLE.

APIOL is a specific for Menstrual disorders: it relieves Suppression, regulates the Periods, and prevents or removes the pain which accompanies them. It is without danger, even in cases of pregnancy. But the trade issues, under the name of APIOL products more or less adulterated; among others, a greenish preparation which physicians should reject. In a state of purity APIOL is an oleaginous liquid, of an amber color and denser than water. This is the character of that supplied by Drs. Joret and Homolle, the discoverers of this valuable emmenagogue, the great efficacy of which has been established in the Hospitals of Paris.

It is prepared only at the PHARMACIE BRIANT, 180 Rue de Rivoli, PARIS.

Dose.—One capsule morning and evening, during 6 days at the presumed period of the monthly courses.
