Electrical Common Sense

It is poor economy to buy a good dynamo unless your wiring is properly installed.

It will not pay you to save power at your dynamo if you lose it on the way to your lamps.

Our wires are proportioned to the power they are to carry, and we put them up to stay.

As we are not connected with any manufacturer, we are prepared to install any of the standard machines on the market.

LET US QUOTE YOU PRICES.

Toronto and Principal Cities of Dominion.

THE Crown domain of the Province of Ontario contains an area of over 100,000,000 acres, a large part of which is comprised in geological formations known to carry valuable minerals of various kinds, and which extend northward from the great lakes, and westward from the Ottawa River to the Manitoba boundary.

Iron in large bodies of magnetite and hematite; copper in sulphide and native form; gold, mostly in free-milling quartz; silver, native and sulphide; zincblende, galena, pyrites, mica, graphite, talc, marl, brick clay, building stones of all kinds, and other useful minerals have been found in many places, and are being worked at the present time.

In the famous Sudbury region Ontario possesses one of the two sources of the world's supply of nickel, and the known deposits of this metal are very large. Recently discoveries of corundum have been made in Eastern Ontario, which are believed to be the most extensive in existence.

The output of iron, copper, and nickel in 1900 was much beyond that of any previous year, and large developments in these industries are now going on.

In the older parts of the Province, salt, petroleum and natural gas are important products.

The mining laws of Ontario are liberal, and the prices of mineral lands low. Title by freehold or lease, on working conditions for seven years. There are no royalties.

The climate is unsurpassed, wood and water are plentiful, and in the summer season the prospector can go almost anywhere in a canoe. The Canadian Pacific Railway runs through the entire mineral belt.

For reports of the Bureau of Mines, maps, mining laws, etc., apply to

HON. E. J. DAVIS, Commissioner of Crown Lands,

Or THOS. W. GIBSON, Director Bureau of Mines, Toronto, Ont.
