

CULLED FROM EXCHANGES - Cont'd

A Remarkable Law.

PROBABLY the most drastic law ever introduced by a nation is the bill that has been passed by the United States Congress, restricting anarchy and anarchists. The bill was practically determined upon by the special committee members of the House Judiciary Committee appointed to consider this subject. The language of some of the provisions is yet to be settled, but "all of the essential features of the forthcoming measures are determined upon. The measure will provide the death penalty for an attempt to kill or assault the President or anyone in line of succession for the Presidency. An accessory before the fact is to be treated as a principal, and an accessory after the fact is punished in a less degree than a principal. Any person who counsels, advises, or advocates the assaulting or killing of any officer of the United States shall be fined or imprisoned. No alien who advocates an overthrow of organized government or who is affiliated with an organization holding such views, is to be admitted to this country. Provision is also made for punishment of those conspiring in this country against foreign rulers. The special committee will probably report to the Judiciary Committee within the next few days, and a report to the House is expected soon thereafter.
