

new officers from EAITC go on to structured on-the-job training for about eight months.

- A version of the entry-level program will be developed for junior officers, as well as a program for mid-career and senior-level officers.
- The program for administrative and technical staff offers courses on a variety of subjects including communication skills, time and information management, supervisory skills, problem-solving, and financial and property management. The first four courses will begin October 2 and will be offered on a regular basis. Additional courses will be developed.
- At the Language School, participants learn other languages within a larger, cultural context. This approach also means that speaking, listening, reading and writing skills are developed by applying them in "real life" situations similar to those that will be encountered on the job.
