REQUEST THAT MINISTER DEMONSTRATE INITIATIVE WITH  
RESPECT TO CONSERVATION MEASURES—MOTION UNDER  
S.O. 43

**Mr. Mark Rose (Mission-Port Moody):** Madam Speaker, I rise on this historic day under the provisions of Standing Order 43.

We know from the Prime Minister's (Mr. Trudeau) speech in Nairobi last summer that our government is prepared to back conservation, solar and other alternatives for Africans. Yet in Canada in three years only \$13 million of the \$125 million five-year Solar Heating Program, called PUSH, has been spent. This year the National Research Council diverted \$750,000 from solar research.

Last May 15 a brilliant Parliamentary Task Force Report called "Energy Alternatives" was tabled, with 65 conservation and alternative energy recommendations. I move, therefore, seconded by the hon. member for Winnipeg-Birds Hill (Mr. Blaikie):

That since six months have now elapsed without any government reaction to the report, this House urge the Minister of Energy, Mines and Resources to abandon his almost total preoccupation with the supply side of the petroleum question and show some initiative in reducing demand by conservation measures and greater support for alternative energy options.

**Madam Speaker:** Is there unanimous consent for this motion?

**Some hon. Members:** Agreed.

**Some hon. Members:** No.

### SUPPLY AND SERVICES

GOVERNMENT ADVERTISING EXPENDITURES

**Hon. Perrin Beatty (Wellington-Dufferin-Simcoe):** Madam Speaker, my question is directed to the Minister of Supply and Services who, on May 5, 1981, in a speech to the Association of Canadian Advertisers in Toronto, conceded that the federal government this year would be spending over \$50 million on federal government advertising. In view of the fact that the minister made the statement before a number of publicly-financed, self-serving advertising campaigns were launched by the government, what is his current estimate of how much money in total will be spent by the federal government on advertising this year?

**Hon. J.-J. Blais (Minister of Supply and Services):** Madam Speaker, I would have to look at the present estimates. I do not
