

November 24th, 1926.

Dr. A. S. Willey,  
Biological Building,  
McGill University.

Dear Dr. Willey:-

I am sorry I have not replied earlier to your note of the 18th of November about your appointment to the Biological Board in succession to Dr. Ruttan.

I wish to state now that on the 28th of October I wrote the Deputy Minister with regard to this matter and on the 30th received a reply from his office stating it would come up for decision some time in December.

Yours faithfully,

Principal.
