Her veil, which was of lace, was arranged in cap effect, with a wreath of pink roses, and she carried a bouquet of white Killarney roses and lilies of the valley. The groom's gift to her was a necklace of pearls and diamonds. Miss Minnie Perry of Galt acted as bridesmaid in a dainty frock of pale blue charmeuse and shadow lace edged with brilliant. Her hat, which was of mauve, had a wreath of roses shading from mauve to pink, and she carried pink and mauve sweet peas. Mr. Prescott was best man.

## The Daily Hint From Paris

## CUT ON NEW LINES.

At first sight this waist seems like many already laid aside, but there are new features in it. First, the waist is cut in one piece, the material being straight in the back and slanted over the shoulders in the front. The turnover collar is cut on the bias, the neck is cut quite low and the inner band of the collar is cut on the bias so that there is a continuous close fitting curve, in place of the angle that the ordinary shirtwaist shows at the joining of the collar and waist.

The turnover collar is straight and several rows of stitching on the bias, under part of the collar, give firmness to the whole. New, also, is the idea of closing the collar and waist alike.

## NURSERY CONDUCTED BY E. Elmer Murray THE LAYETTE.

The question of what to get ready for baby is the first difficulty, and the little mother-to-be has no way of finding out what she needs except by asking the advice of others. The answers are confused, and often the material required is not the best. I have tried to make a list of the garments they prepared, consequently they forget the material required. I have tried to make the following list as complete and easy as possible, and I think you will find it satisfactory.

The baby's first shirt may be all silk, silk and wool, or all wool, which ever you prefer. Babies grow very quickly, so I would not advise more than two of the first size. This means washing one out every day, since all baby's clothes must be fresh and clean every morning. Under the shirt baby wears a binder, made from a torn strip of flannel. This band should be six inches wide and twenty-seven inches long. The edges may be pinked or left plain. No sewing is required, as a hem would hurt the baby's delicate skin. Four bands are required and these may be cut out of three-quarters of a yard of flannel. After three weeks or sometimes two or fastened on the shoulder, instead of the flannel strip.

The first diapers should be of cheesecloth, one yard square, and one dozen are required. Folded into eight small, soft napkins. Fine cotton bird's nest is considered the best material for ordinary diapers, although many use cotton flannel, and many more flannel.

Three dozen of these are needed, and they should be about one yard square. For the three nightgowns, four and one-half yards of flannelette are required. Folded into eight small, soft napkins. Fine cotton bird's nest is considered the best material for ordinary diapers, although many use cotton flannel, and many more flannel.

## Genevieve Ward Writing The Story of Her Life

It Will Include the Remarkable Love Romance of the New York Girl Who Wedded a Russian Courtier, But Discarded Him and Refused to Adopt the Title Belonging to Her.

Special Cable to The World.

LONDON, March 30.—(Copyright.)—In a picturesque house in the St. John's Wood quarter of artists and literary folk, a woman is at work upon her memoirs, which will record the life of Genevieve Ward, an American girl who married a Russian courtier, and then refused even for a day to make use of it.

The Genevieve Ward of New York, a tragedienne, celebrated as "Macbeth" and "Richard III." and the only known American woman who married a European title and then refused even for a day to make use of it.

She retired from the stage long ago, making only a yearly appearance as Lady Macbeth in London and Oxford, when she gives her services for charity. But her memoirs, which will record the life of Genevieve Ward, an American girl who married a Russian courtier, and then refused even for a day to make use of it.

Isn't it funny that Madrigal Shinn

Walks like a pigeon. For she toes in!

Isn't it funny she doesn't know

That is the ugliest way to go?

She could toe out if she wanted to,

But Goops all walk like that—do you?
