**FOR SALE.****2520 Acres Phosphate Lands**

IN TOWNSHIP OF TEMPLETON,  
COUNTY OF OTTAWA.

The undersigned offers for sale 2520 ACRES OF  
PHOSPHATE LANDS; also, MINING RIGHTS ON  
210 acres of Land—known as the Perkins' Estate—all  
in the Township of Templeton, at a distance of 8 1/2 to  
10 miles from River Ottawa, and in immediate vicinity of  
the Phosphate Properties, now being successfully worked,  
600 acres of which adjoin the 1,600 acres sold lately by  
McLaurin & Blackburn, for \$15,000. A portion of the  
property has been worked and partially explored, and  
a great many Phosphate openings made. Capitalists  
desirous of securing a good investment will find this a  
rare chance, it being the only Phosphate Property of  
any extent, for sale in the Township of Templeton. All  
information given, and property shown, on application  
to

**PERKINS & PERKINS,**

60 St. James street, Montreal.

TO THE

**"MAGASIN ROUGE,"**

581 ST. CATHERINE STREET,  
MONTREAL.

The "MAGASIN ROUGE" has obtained the  
greatest popularity that ever a Business House, the  
Dominion had.

The "MAGASIN ROUGE" not being sufficiently  
spacious to accommodate the crowds which fre-  
quent it, the adjoining house has of necessity been  
added on. In these two houses, one of which is  
devoted to ladies and the other to gentlemen, the  
customers of this popular establishment will be  
always sure to find goods which please them, and  
at prices suitable to the times.

The politeness and urbanity of the employees  
of the "MAGASIN ROUGE," the enterprising  
spirit of the proprietors, and the immense assort-  
ment of Tweeds, Cloths, Stuffs and Dresses which  
they are about to receive, and which are offered at  
reduced prices, assure to this young establishment  
the greatest possible success.

"AT THE MAGASIN ROUGE,"

No. 581 ST. CATHERINE STREET.  
MONTREAL.

L. J. PELLETIER & CO.

**PHOSPHATE OF LIME!****NEWELL'S PATENT UNIVERSAL GRINDER**

The public is presented with a new mill which is  
designated as above. It can be adapted to a greater  
variety of purposes than any mill heretofore invented.  
The following are a few results substantiated by  
experiments, which illustrate its remarkable utility:

I. Its General Capacity. This Grinder gives  
perfect satisfaction in the pulverization of Quartz,  
PHOSPHATES, Zinc, Bone, Brimstone, Chemicals,  
Oyster-Shell, Horn, South Carolina Clay, Chalk,  
Cement, Cork, Corn and other Cereals, Coffee,  
Spices, Loaf Sugar, Mustard and Flax Seed. Also  
in the Grinding of plating slavings, for packing  
purposes and horse bedding, the pulverization of  
Roots, Dye Woods, Tobacco, Rubber, Rope, Old  
Cloth, and the reduction of Wood to fibreflexible for  
use in the manufacture of Paper.

II. Its Special Adaptations. For grinding Flax  
Seed it has no rival. A great saving of time and labor  
is secured by grinding instead of mashing this article.  
Mustard Seed is also effectively ground to powder.

III. Superior Quality of the Product. The  
superior quality of the products of this mill is  
observed in the grinding of Corn and other kinds of  
Grain. The process does not heat the Flour or  
Meal, even if grinding at the rate of 200 bushels  
of Corn per hour. All danger of fermentation is thus  
avoided. Every kind of grain is perfectly pulverized  
without taking from the mill any particle of grit.

IV. The Saving of Power and of Time. A  
great saving of power and of time in the accomplish-  
ment of any one of the uses above mentioned are  
among the points in which the mill must inevitably  
hold the highest place in the esteem of all who wit-  
ness its capacity. The following few facts explain  
what is now said. Quartz is ground to remarkable  
fineness at the rate of ten tons per day. So also the  
HARDEST OF THE PHOSPHATES. Corn can be  
ground for meal, using only one-tenth of the power,  
as rapidly as by ten run of stone; so that the con-  
clusion is clear, that the mill costs less and will  
do more than any other mill yet invented.

V. Available Everywhere. Its usefulness to  
Farmers, and keepers of large stables is a fact  
noticed. It is so cheap and so easily portable that it  
can be brought into general use in Villages and  
on large Farms. It can be run with one-horse  
power, grinding twenty-five bushels of Corn for  
Horse-Feed per hour, and with four-horse power it  
will grind up to 200 bushels per hour. The grinding  
discs can be easily and cheaply replaced should they  
become worn. The weight of these machines varies  
from 200 to 800 pounds. They are very compact,  
requiring only a space three or four feet square, ex-  
clusive of apparatus for bolting. The frames are  
made either of wood or of iron. The price of these  
machines ranges from \$300 to \$400, subject to a  
25c. to 50c. royalty for the use of them; the tariff  
whereof being regulated by the specific purpose to  
which the mills are applied.

A cordial invitation is extended to Phosphate Com-  
panies and owners of Phosphate lands, to all Millers,  
Quartz Crushers, Chemical Manufacturers, Farmers,  
and others who have any interest in such improve-  
ments, to call and see the machine and the samples of  
the materials ground at W. D. McLAREN'S Union  
Mills, 55 College street, Montreal. Montreal, June,  
1878.
