Grain Market Loses Its Early Firmness

Erickson Perkins & Co. had the follow-Erickson Perkins & Co. had the following:

Wheat—The market opened irregular, but generally firmer, and has ruled within a comparatively narrow range all day. The trade has been largely professional, and fluctuations within ½c range have been frequent, due chiefly to the wperations of pit traders and a light general outside business. The little setback in the market to-day was quite natural after the advance of the past two days. We look for a market of rather narrow proportions, but feel inclined to favor purchases on weak spots.

Corn—Opening prices showed a moderate advance, and the market ruled strong until the latter part of the session, when a good reaction from the high point of the morning took place. Weather conditions as regards temperatures were favorable, but there was no additional rainfall of moment. We consider that the market held very well to-day, after the recent weakness and quick raily of yesterday. We firmly believe that corn should be beught on all weak spots, this belief being based on conditions surrounding the growing crop, as reported to us.

Oats—The market opened strong, but well was a possible, but there was no additions surrounding the growing crop, as reported to us.

Oats—The market opened strong, but well was a possible, against 640,000 to the United Kingdom.

Liverpool Wheat Market.

Liverpool wheat of ½c to ½d higher, and further advanced on lighter Argentine shipments and unfavorable American crop advices, together with the strength in Buench and unfavorable American crop advices, together with the strength in Buench and unfavorable American crop advices, together with the strength in Buench and unfavorable American crop advices, together with the strength in Buench and unfavorable American crop advices, together with the advanced

Oats—The market opened strong, but broke sharply from the high point, due to lack of speculative buying and some pressure from offerings of the new crop. The market may prove a dragging one temporarily, but for a long pull we believe that underlying conditions more than warrant present values, and that ultimately a very much higher level will prevail.

Montreal Grain Prices.

Montreal Grain Prices.

Montreal July 2t.—There was a fair demand for Manitoba spring wheat, and, as bids in some cases were in line, sales of 50,000 bushels were made. The local export trade in the market for coarse grains was quiet, but prices are well maintained. There was some demand from buye s for new crop winter wheat flour, and, as Ontario miliers are selling it at loc per barrel belo wold crop wheat flour, and, as Ontario miliers are selling it at loc per barrel belo wold crop wheat flour, sales were made for August shipment. The export demand is guiet, but the local demand continues good. Rolled oats have advanced 20c per barrel under a good demand for export account. Demand for milifeed is good.

Oats—Canadian western, No. 2, 42½c to 43c, car lots, ex-store; extra No. 1 feed, 1½c to 42½c; No. 3 C.W., 41c to 41½c.

Flour—Manitoba spring wheat patents, firsts, 35.30; seconds, \$4.50; winter wheat patents, \$4.50 to \$4.75; strong bakers', \$1.60; straight rollers, \$4.10 to \$4.25; in bags, \$1.55

Rolled oats—Per barrel, \$4.75; bag of 30 lots, bus \$2.25.
