BELLEVEILLE HAS**DIG FIRE—LOSS****\$50,000**

Broke out in Leading Bookstore and Caused Great Damage to Neighboring Firms.

BELLEVEILLE, Oct. 18.—(Special.)—The worst fire this city has had for some time occurred to-night, when Scantlebury's bookstore, on Front-street, was totally gutted. The stock, which was not destroyed by fire or water being damaged beyond repair by smoke.

The fire broke out about 8 o'clock in a shed used for storing paints at the back of the store, and when discovered was burning fiercely. It spread with great rapidity, and by the time the firemen arrived the rear part of the store was in flames, and in the whole part the smoke was so dense that no one could live in it.

At 10 o'clock the fire was believed to be under control, but the damage was fully \$25,000 in Scantlebury's store alone, and the damage by smoke and water in other stores would probably bring it up to \$50,000. Other stores involved were: Allan McPee, Jewellery; Quirk & Robertson, Clothing; F. C. Clark, Drugs; and F. E. Carney, Book and Stationery.

Scantlebury's stock was partially insured, but he estimates his loss over insurance at fully \$10,000. The building is owned by George Walbridge, and is fully insured. The other places mentioned were fully insured.

The firemen did excellent work, one of them, J. Campbell, being overcome by smoke, but was rescued in time.

The cause of the fire is unknown, but a boy says he saw a man running away shortly before the fire was discovered.

PROVINCE WILL CLAIM**DOES ON WHOLE ESTATE**

Dispute as to Residence of Aaron M. Wilcox Who Died in Hamilton.

Mr. McLeod of the succession duties department yesterday received a cheque for \$3688 from the New York Trust Co. and Charles Wilcox of Hamilton, executors of the estate of Aaron M. Wilcox, who died about 18 months ago in Hamilton.

His entire estate, including his property of the value of \$113,000 in Ontario, amounted to \$216,000.

The question of his having made his domicile in this province, as established by his residence here until his death, has been raised by the department, and in the circumstances of the case, it is probable that duty will eventually be claimed upon the entire estate. Correspondence on this subject has already passed, but the executors insist that his domicile was in the State of New York. His son has become a British subject, and this fact may have some weight in reaching a decision. The cheque received has only been accepted on account.

CRUSHED UNDER TONS OF SILVER ORE AT COBALT

Terrible Death of a Hungarian in Shaft No. 2 on the McKinley-Darragh Mine.

COBALT, Oct. 18.—A Hungarian named John Cobush was killed this morning in the No. 2 shaft of the McKinley-Darragh. Cobush, who was a mucker, was, with a fellow workman, changing operations from the 75-to-ft level to the 125-foot, or bottom level, of the No. 2 shaft. Cobush was at the bottom of the shaft, and his companion was lifting back a door which covers the area of the shaft at the 75-to-ft level. An ore car, which was on the track at this level, slipped into the shaft as soon as the door was swung back. It fell on Cobush, crushing his skull and breaking his spine. Death was almost instantaneous.

The body was removed later to Eglinton's undertaking establishment. The coroner has been notified, and an inquest will be held. The deceased was 25 years old and unmarried. He has no relatives in the country, with the exception of a brother, who is somewhere in the west. He was employed on the McKinley-Darragh since July.

An inquest was held this afternoon, and the jury decided that death was caused accidentally from negligence on the part of the workers.

WARNING TO CITIZENS.

Bottled Water Inexpensive, But Necessary.

The above headings are true, unless you are in a position to keep a stock of radon in your house in which case you have the satisfaction of knowing that what you are drinking comes from that famous deep, cool spring in the Laurentian Mountains, where it is bottled under the most perfect sanitary conditions.

The analysis of radon water shows it to be in the very first rank, and is particularly suited to drinking alone, although it also makes an excellent mixer with spirit.

Try radon water as a plain temperance beverage.

BACKACHE IS SIGN KIDNEYS NOT ACTING

Tells of Simple Home Mixture to Relieve Backache and to Prevent the Bright's Disease.

More people succumb each year to some form of kidney trouble than any other cause. The slightest form of kidney derangement often develops into Bright's kidney disease, diabetes or dropsy. When either of these diseases are suspected the sufferer should at once seek the best medical attention possible. Consult only a good, first-class physician, leave patent medicines alone.

There are many of the lesser symptoms of kidney trouble which can be treated at home. It is stated by a well-known authority. For some of these, such as backache, pain in the region of the kidneys, weak bladder, frequent urination, especially at night, painful urination, and other urinary troubles, try the following simple home remedy: Fluid Extract Kardon, one-half ounce; Compound Syrup, three ounces. These simple ingredients are harmless and can be obtained at any good prescription pharmacy and anyone can mix them by shaking well in a bottle. The dose for adults is a teaspoonful after each meal and again at bedtime.

There is no better general remedy known to relieve all forms of rheumatism either, because it acts directly on the kidneys and blood. It cleans the clogged up pores in the kidneys, so they can filter and strain from the blood the poisonous uric acid and waste matter which, if not eliminated, remain in the blood, decompose and settle about the joints and muscular tissues, causing the untold suffering and deformity of rheumatism.

Backache is nature's signal notifying the sufferer that the kidneys are not acting properly. "Take care of your kidneys," is now the physician's advice to his patients.

privilege was granted. The twin were hurried to No. 4 Station, where they were charged with fraud under an information laid by the coroner. They were then, under whose direction the men had been working.

The twins were admitted to bail in the sum of \$200. Philip W. Newton, 77 Borden-street, went upon Rev. Clarence's bond, while Samuel Rynek, in whose house they boarded, went bail for the lady.

An earlier visit had been made to the house on Tuesday night, when a similar stunt had been conducted, but on that occasion the spirit had been elusive. The twin will appear in police court this morning.

They have but lately arrived in the city from the United States.

FIFTY YEARS IN PULPIT.

Service to Mark Semi-Centennial of Canon Broughall.

A special service was held in St. Stephen's Church last night to mark the semi-centennial of the rector's ordination.

The service was taken by the rector himself, the Rev. Canon Broughall. He was assisted by his three sons, all of whom are in holy orders, and the Rev. Canon E. C. Cayley, who is a son-in-law.

Archbishop Sweetman preached the sermon, taking as his text, "Thou shalt bring forth fruit in thine old age."

Among the many prominent clergymen present were Bishop Reeves, Archdeacon Sweeney, Canon Inglis, Dr. Pearson, the Rev. Mr. Skery, Canon O'Meara, Rev. Mrs. J. Putnam's Corn Extractor — that painless remedy for corns and warts, that cures in twenty-four hours. Putnam's is the old standby. Try it.

SOUTHAMPTON

Indian Tradition of a Great Battle—Graves of the Chippewas—A Model Land Surveyor and Other Notables—The Modern Town, Its Industries and Opportunities.

Who knows where the foot of man hath not trod, in the remote past, or where, whether in wilderness of forest or plain, his body has not mingled with its mother earth? Fifty-eight years ago there was a tradition alive among the Chippewas that on this plain, then a dense primeval forest, which the Sauguen River divides near its mouth, was fought a great battle. Near its mouth was their village, and all that territory, drained by the Sauguen and its tributaries, was their immortal hunting grounds. Here they were attacked by the fierce Mohawks, and from morning until night the battle raged. From one position to another the Chippewas were forced back the invaders, and gained a costly victory. The spirit of the battle was passed on to the happy hunting grounds provided by the Manitou, and the bodies of the Chippewas were buried in the soil of the lake, west of the river's mouth. There certainly was a populous village of Indian dead, before the river became gorged with dissolved one spring, a long time ago and floated the bark coffins of the sleepers out onto the bosom of the lake. The bodies of the dead Chippewas, Bay Co. trapper, was himself 80 years of age, when he told the story in '49 of something that happened long before the river became gorged with ice at its mouth, and made a new channel for its waters into the lake, which it filled up again with sand in later years. Human bones are still found among the sands, testifying to the truth of the trapper's story. For the stories of the past in this article, the writer is indebted to the courtesy and gold memory of one of the pioneers, John M. McNabb, J.P., whose father, James McNabb, was a trapper and agent in 1851. He tells how that James H. Price, commissioner of crown lands, at Toronto, remarked to him, at the time employed in his office.

"McNabb, that man Syme" (a provincial land surveyor) "is an unscrupulous low-down fellow. He has been at the mouth of the Sauguen."

The elder McNabb thought so too, and was sent, post haste, which meant a long journey, to the mouth of the Sauguen. He found that the surveyor had laid out the larger portion of the entire township into town lots and was doing his best to sell them to the highest bidder. McNabb another week to return and report, and a third week to come back with a letter relieving the surveyor from his arduous and thankless job.

He had a handsome profit on the board of his employees. He had the misfortune to be bought too soon.
