The Tories fairly took possession of Railways and Canals to leave the the Queen's, while the Rossin was actually infested with Liberals.

Wallace Nesbitt in Between.

During the afternoon Barrister Wallace Nesbitt acted as a link between the two temporary political camps. At one time he would be seen in close consultation at the Rossin with Whip Sutherland, and a few minutes later he and Dr. Montague and Bob Birmsingham would be putting their heads together at the Queen's. It is understood that Mr. Nesbitt was acting as a conciliatory agent between the parties, with a view to securing mutual concessions as to the protests to be entered in the various constituencies. A great deal of useless expense will likely thus be avoided.

Sir Oliver Mowat, accompanied by Miss Mowat, arrived this evening from Toronto and proceeded to the residence of Judge Sedgewick, which Sir Oliver has taken for a short time. The Minister of Justice has probably brought back with him that list of Q.C.'s which he took along when he went to Toronto. It is stated that the list has

been subjected to a severe revision.

The Lord High Executioner. Mr. Tarte is still enacting the role of Lord High Executioner with unfeigned relish. Yesterday he dismissed decree issued by him regarding the Paymaster Leduc of the Ottawa River Works, whose salary was \$1200. A couple of dismissals from the Department of Public Works were reported, cai mayor. Foreigners landing in the payman of the province ment of Public Works were reported, but the details of these latest decapitations could not be learned. The secretary of the department, E. F. E. Roy, has been granted leave of absence on account of ill health, which is ominous. Mr. Tarte left to-day for Montreal to look after his bye-election.

The Metropolitan Rifle Association to-night elected Dr. Borden, Minister of Militia, patron, John Manuel, president, in succession to G. B. Patte who has been president for 13 years. Edgar Davis, a boy, backed a water cart into the canal this evening, and being unable to swim was drowned in sight of a score of people. They expected the lad would be able to swim ashore and refrained from an effort to save him until he had sunk for the

last time.

The precarious tenure of certain positions under the new Administration seems to have affected the credit of certain civil servants. One of the clerks in the Public Works Department was arrested for debt to-day by Bailiff Whitton, as he was leaving the West block. On Wellington-street he broke away from his captor and, elud-ing pursuit, made good his escape. The chase was witnessed by hundreds.
