comment upon the election. The Star remarks: "We, in England, have reason to rejoice at the overwhelming defeat of the attack upon the gold standard. Great evils may se in store; but, no high tariff can mflict a tithe of the ruin which Bryan's victory would have entailed. There will be an immediate improvement of business, for the election of McKinley—or, rather, the defeat of Bryan—will restore confidence in the Inancial honesty and stability of the The sound common-

sense of the American people has laved the republic from worse than civil or foreign war." The Sun says: "The great republic has risen magnificently to a great occasion. It is the uprising of almost a united nation, and the silver craze has been effectualy scotched, if it is not killed. Let McKinley throw his protection overboard, and cut away from the heartless plutocrats who have for years made the Republican party a manufacturers' annex, and he will be acclaimed by one and the

ment. But while the perils of free silver are avoided for the present, the perils of protection and capitalism in their more extreme forms remain to be encountered. Putting out of sight the results to this country, which must follow a free access of McKinleyism, no one who is friendly to the United States can view the prospect without alarm. If the tyranny of the commercial and financial corporations is not abated, there must be a growth of populism and an aggravation of ill-feeling, which, when the next struggle comes, will threaten more dangerous consequences.

The Pall Mall Gazette, during the

"A Land Slide," says: "The decision is accepted with universal consent in this country as being emphatically to the credit of the American electorate. It implies that the Democracy, when confronted with issues vital to its future, will rally to the reality and repudiate the sham. Between Altgeld and Bryan, they succeeded in pulverizing their cause, until dust is substantial in comparison." The article in the Pall Mall Gazette concludes with a tribute to President Cleveland, who, it says "Has discarded the traditions of a lifetime, and lent his authority to financial righteousness." The Globe says: "Had the polling run close, encouragement would have been afforded to the Democrats to lightning struck some of them to the maintain soft money and socialism as ground. The St. James Gazette congratulates the United States upon the result, and adds: "Especially the routs of Altgeld, the Anarchist Governor of Illinois, who made the personal fight against President Cleveland." The same paper adds: "The movement will take more than one such defeat before it is finally killed, and it looks very much as if our American kinsmen are more likely, at the beginning of a great social and economic strug-gle than at its end."

THE LORNES' COMPLAINT, Toronto Mail-Empire: At 12 o'clock Lornes returned to Toronto from Lon-don, and they were indeed a tired lot. Manager "Will" Morrison's heart was glad, and his enthusiasm knew no bounds. During the past ten days his team have been breaking all rec-ords heretofore established in the football arena, and he had reason to be happy. Three hard-fought games played in a week and a day, and two winning games in successive days, are records that will stand for many years. At the finish in London seven junior players were in the melee, and five of the Lornes had been knocked out. games that the Lornes have been called upon to play, and they say that their opponents on this occasion proved themselves the roughest Rugby men in the business, not forgetting that Queen's have earned a "rep." in this respect. The Londons, the Lornes allege, played a scrapping game from gentlemanly tactics, the majority of the Lornes declare, London would have won. It was one long, continue fight, in which the Lornes possessed enough stamina, not only to do their The Westminster Gazette states that with the election of McKinley a great scare vanishes for the moshare in the fighting line, but to indulge occasionally in some brilliant play. One player in particular on the guished himself by his brutality, and as he played last year with the Lornes, the members of that club are very bitter in their denunciation of his conduct. The doctor who attended Guy Argles after he had been struck viciously in the eye by an opposing player, thought that the youngster would sustain a lasting injury to his sight, if not become blind completely in one eye. He is better, however, and the doctor believes that he will suffer no serious consequences. The methods employed by the Lornes after they had secured their lead in the first half of the extra play were precisely the same as they used in defeating 'Varsity II. Wilson would heel out to McMurrich, course of a column editorial, headed who either fell on the ball or attempted to buck the line. In this way they kept the oval between them, eating up time. Wilson's wonderful work against London's scrimmagers, the lightest of whom tipped the scales at 199 pounds, earned for him the name of the "Iron Man." Well, we're much in the condition of the Bishop and the raspberry: "Doubtless," he said, "God might have made a better berry. But doubtless, also, He never did." Why don't we better the sarsaparilla? We can't. We are using the same old plant that cured the Indians and the Spaniards. It has not been bettered. And since we make sarsaparilla compound out of sarsaparilla plant, we see no way of improvement. Of course, if we were making some secret chemical compound we might But we're not. The Smugglen

Gold Mining and Milling Company, Ltd.

Offers one of the best mining properties yet placed on the market, with a shatt already sunk 110 feet, which is 5 feet by 7 feet in solid paying ore.

This company is now being incorporated under the laws of British Columbia to take over and operate the Smuggler Mine, considered the best mine in Fairview Camp, British Columbia, lying about 60 miles west of Rossland and south of Vernon, the branch terminus on the Canadian Pacific Railway. The location is 52 acres in extent and the title is perfect, the Crown grant having already been issued. The shaft, which has been sunk 110 feet, goes through a CONTINUOUS LEDGE OF ORE from two or two and one-half feet wide at the surface to FIVE FEET WIDE AT THE BOTTOM OF THE SHAFT, WITH ONLY THE HANGING WALL EXPOSED. There is every indication of a continuous width of 10 feet at this point. 400 TONS OF ORE ARE MINED and on the dump ready for treatment so soon as the necessary machinery is erected. The greater part of this is FREE-MILLING ORE of a very high grade. Eleven assays of ore taken from various depths show results varying from the lowest of \$42 49 per ton to as high as \$503 32 per ton, or AN AVERAGE ASSAY VALUE OF OVER \$147 PER TON. A MILL TEST of 6,043 lbs (over three tons) was made by the Tacoma Smelting Company. of Tacoma, Washington, with the following results: Gold, 5.92 ounces per ton; silver, 65 ounces; VALUE PER TON, \$153 70. THE GOVERNMENT REPORT SPEAKS IN THE HIGHEST TERMS OF THIS MINE, and refers to another test of 1,600 lbs of unassorted ore, giving a return of \$48 75 per ten in gold. THE ORE IS LARGELY FREE-MILLING IN CHARACTER AND CAN BE SUCCESS-FULLY TREATED BY A STAMP MILL AND CYANIDE PROCESS.

The capital is \$1,000,000, divided into shares of \$1 each, of which 300,000 are set aside as development stock. 100,000 of these shares are now offered to the public (fully paid up and non-assessable) at the price of 25c per share in blocks of not less than 100 shares. The proceeds of the sale of this stock will be used to complete payments on the property and erect a ten-stamp mill and cyanide plant for treating the ore already mined, and to proceed with further development and mining.

The company will be managed by the following energetic Provisional Board of Directors: W. Hartley Dewart, County Crown Attorney, York County, Toronto, President; W. Hanson Boorne, Vice-President Canadian Silicates and I. E. Co., Vancouver, B. C., Vice-President; Alexander H. Dixon, Manufacturer, Toronto, Treasurer: George H, Maurer, Manager Agricultural Insurance Co., Toronto, Secretary; John T. Gilmour M. D., Warden Central Prison, Toronto; Hon. A. W. Atwater, Q. C., Treasurer of the Province of Quebec, Montreal; R. C. Tasker, Treasurer of the City of West Bay City, Mich.

THE SMUGGLER MINE DIFFERS FROM ALMOST ALL OTHERS IN THE FOLLOWING PARTICULARS: Ample development to establish intrinsic value.

None of the uncertainty of untested prospects. The guarantee of an official Government report based upon the merits only.
